FRENCH BREACH FOE'S FRONT IN THREE PLACES

Paris Officially Announces Success
of Hard Thrusts Delivered
in the Champagne.

RUSSIAN WAR SITUATION MUCH MIXED

Paris, Aug. 7.—French troops last night broke into the lines of the German crown prince on the Champagne front at three places inflicting losses on the Germans and bringing back prisoners, it was officially announced by the French war department.

A Teuton attack between Avoyourt wood and hill 304, in the Verdun sector was driven off with heavy losses to the Germans. There were fairly violent artillery duels in the Bixchoote sector of the Belgian front and between Houthiesse and Craonne, north of the river Aisne.

GERMANS THROWN BACK.

Kishinev, Russia, Aug. 7.—Austro-German troops between the Dniester and the Puth have been thrown back on the front ten miles from Chotin, according to news from the battle area reaching here. Chotin is at the junction of the Zbrocz and Dniester rivers on the Galician-Russian frontier.

RUSSIAN OFFICIAL REPORT.

Petrograd, Aug. 7.—In the direction of Kimpoling in Bukovina, Austro-German forces, after a battle with the Russians, occupied the heights at Molt, says the official announcement issued today by the Russian war department. In the region of the river Bystritsa two Russian regiments voluntarily left their positions, causing the Russian troops to retire a few miles.

South of Grimalov the Russians drove back the Teuton advanced posts. In the region west of the river Zbrocz on the Russian-Galician frontier, Austro-German troops, the statement adds, are hastily gathering the harvest. In the direction of Pokshani, on the Rumanian front, the forces of the central powers and their allies began an offensive and pressed back the Russian-Rumanian troops across the river Tyradesus.

NOT MUCH DOING AT FRONT SAYS BRITAIN'S CHIEF

London, Aug. 7.—Field Marshal Haig, in his report on field operations yesterday, which was given out officially this afternoon by the British war office, says: "There was nothing of special interest to report."

UNCLE SAM SOUNDS CALL TO WOMEN OF NATION TO AID HIM

Washington, Aug. 7.—President Wilson's patriotic appeal to the country's farmers and gardeners having been answered with bumper crops, it is now up to consumers to do their share by conserving perishable foods, according to a statement issued today by Secretary Houston, in which he suggests particular ways in which housewives can render definite national service.

"I urge not only that every home," the statement reads, "assist in the conservation of the surplus perishable fruits and vegetables by canning, pre-

serving, pickling, drying and storing, but also that every experienced woman place her knowledge at the disposal of her neighbors; to that end it is especially recommended that women call their organizations together for discussion of conservation work, that demonstrations in canning and preserving be given and that they cooperate with local food officials."

The secretary points out that the time for conserving foods is short and says that it is of prime importance that they shall not be wasted.

FIRST DAY'S MARCH OF UNCLE SAM'S NEW ARMY

Feet that will tramp the fields of France tramped the city's streets in the first of many marches—the parade of part of Chicago's quota in the national selective service army. Without uniforms as yet, they nevertheless start the flag on its long journey toward the Rhine.

American Race Riots, I. W. W. and the Like Would

Chicago, Ill., Aug. 7.—Elihu Root, who, with other members of the American mission to Russia, which has completed its work, was in Chicago today and said that as a matter of fact there is scarcely more disorder in Russia than there is in the United States. "Certain disturbances are inevitable in a change of government so radical as that of Russia," said Mr. Root, "and cable dispatches deal largely with these disturbances. Hence the public has gathered an impression that there is little going on in Russia except demonstrations."

SOLDIERS NOW IN FRANCE WILL GET THEIR VOTE

Washington, D. C., Aug. 7.—American citizens in France as members of the expeditionary forces will be privileged to vote at the fall elections, provided their respective states establish the necessary overseas voting machinery. Provost Marshal General Crowder, in a ruling on the subject holds that there is no bar to any citizen par-

The Anzeiger's adoption of the phrase, his absence from home while on duty with the troops.

Summary of the Day's War News

The Russian war front situation continues complex with Russian troops offering spirited resistance and driving back the Austro-German forces in some sectors and weakly yielding in others.

Ten miles from Chotin, just beyond the extreme southeasterly corner of Galicia, the Teutonic armies have been forced back, according to advices from Kishinev today. Petrograd also officially reports the driving back of enemy advance guard south of Grimalov.

In Bukovina and on the river Bystritsa, on the other hand, the Russians have been forced to yield more ground, in one case because of the voluntary retirement of two regiments.

Selection boards in the city are authority for the fact that in all probability practically 10 per cent of the exemption claims will be turned down. Members of the three city boards state that many of the claims will not stand.

Many of the foreign born element who pass the examination are filing exemptions on the ground that they are supporting a wife or a mother in the "old country." Other young men who reside here who are endeavoring to evade service are stating that their mother is partially dependent upon them. All those men who married

Y. M. C. A. GIFT OF TOBACCO FOR SOLDIERS LOST

Washington, Aug. 7.—The Young Men's Christian Association's shipment of tobacco for the American troops in France has been lost. Word came from Paris today from the Red Cross commission to France saying no suitable tobacco to replace the lost shipment was obtainable there and urged that ten tons of tobacco be sent at once.

The Red Cross war council immediately accepted an offer of the Liggett & Myers Tobacco company to donate 1,500,000 cigarettes, 20,000 packages of smoking tobacco and 10,000 cuts of chewing tobacco which will be forwarded to the American troops at once. France has agreed to admit the tobacco free of duty as well as all other articles for the American soldiers.

STATE COUNCIL OF DEFENSE SUGGESTS DRASTIC MEASURES

Eminent Lawyer Declares Executive
of State Has Authority to Take
and Operate the Mines.

DEMANDING RELIEF FOR THE PEOPLE

Chicago, Aug. 7.—Seizure and operation of Illinois coal mines by the state for the benefit of the consumers, was suggested today at the meeting of the Illinois state council of defense as a solution of the coal problem, if the coal mine operators refused to lower fuel prices.

Reporting behind closed doors to the state council, Levy Mayer, Chicago lawyer and chairman of the council committee on law and legislation, told the council that the governor has the power to seize the coal mines and operate them if necessary, unless the operators agree to equitable prices for their output.

Operators have protested that the prices arranged at the recent federal conference from \$2.75 to \$3.75 at the mine month should not be disturbed.

It was said that the question of seizing the coal mines and operating them under state authority had been presented to Governor Frank O. Lowden. In presenting the report of the company numerous citations were made supporting the constitutionality of the state taking over the operation of the mines. Presentation of the sensational plan to obtain cheaper fuel met with long discussion. It was considered probable that a similar suggestion would be made to the governors' conference, which has been called for an early date to consider the question of supplying the consumers of eight states in the middle west with fuel at a reasonable price.

Governor Lowden has agreed to meet the governors of Indiana, Michigan, Wisconsin, Iowa, Missouri, Kentucky and

SEEK TRAIL OF I. W. W. IN THE INDIANA STRIKE

Terre Haute, Ind., Aug. 7.—Federal agents are investigating the report that I. W. W. workers are active among the miners of the Clinton coal fields, 3,000 of whom have been out on a strike for five days, ostensibly for the reason that the railroad company refuses to furnish desirable coaches for the miners' train. Figures on the curtailment of the coal production have been sent to Washington.

BOARD OF WAR INDUSTRIES IS DOWN TO WORK

Washington, D. C., Aug. 7.—The newly created war industries board today went to work on its big war purchasing program for the United States and her allies, after a preliminary conference with President Wilson. Among the first problems to be solved was that of co-ordination of American and allied purchases.

This probably will be done through Bernard M. Baruch, member of the board, who is to be named purchasing missioner for each allied government, and who will also be chairman of the war industries board's purchasing commission for the American government.

Some difficulty is looked for in the effort to buy for the allies at the same low prices obtained by the United States government. Many producers already have entered protest, saying their government prices are far below the market.

Pennsylvania Experiments in That Line Prove Plan Practicable.

"While preparations are under way for the employment of a lot of women on the Pennsylvania, it will probably interest The Sentinel readers to learn that we have had a woman section gang at work for the past month," said a man connected with the divi-

sion engineer's office. "There are eight women in the gang," he continued, "and in working fact, among the railroad and doing other light work assigned to them, they are proving an efficient as men."

The accompanying picture represents these women at work and it also shows the neat and well ballasted appearance of the tracks over which they have jurisdiction. This party known as section gang No. 84, territory between Hobart and Lap pool. The women reside in the latter town and are respected and well known.

"We are pleased with the success of the experiment with women on the section and have decided to employ more of them," said the man connected with the division engineer's office. "We want six in Fort Wayne as soon as we can get them. These are wanted to work about the yards, picking up paper and cleaning up the tracks and premises generally. The work is not hard and women can do it just as well as can the men," continued the official. "We will also establish woman section gangs in numerous places on the division if we find good women willing to accept employment," he added.

The work of installing rest rooms and lavatories in the local shops of the Pennsylvania is progressing and the company will soon be in condition to take on more female help in the shops, according to plans announced several days ago.

PETEY DINK SOCIAL.

Bowser Military Club to Give Unique Entertainment.

"We will know by tomorrow how Petey Dink must be addressed to win the \$5 reward," said C. M. Smith, who is taking an active part in the arrangements for the social and band concert. "He will be there all right and some one should find him," continued Mr. Smith.

The boy scouts of this city have gone in to sell tickets for the Petey Dink social and band concert which is to be given Thursday night by the Bowser Military club.

The Military club has offered three prizes of \$5.00, \$3.00 and \$2.00 to the scouts selling the most tickets. Every boy scout who sells any of these tickets also receives ten per cent on his sales. These tickets are for refreshments, ice cream and cake, or any other of the good things that will be in demand that night. No member of the Bowser Military club is eligible to any of the prizes. All holders of tickets should write their names on the back of the tickets to be eligible to the special prize of \$5.00 which is to be given on the grounds Thursday night.

"There will be refreshments Thursday night to tickle the palate of everyone. The menu calls for most everything from hot hamburger to the cold-cold goods made," says Mr. Smith.

THEY SALUTE CAPT. WILLIAMS.

(Service News of the Nickel Plate Road.)

The editor of Service News is pleased to display in another column the picture of an old and beloved Nickel Plate employee in the uniform of an officer of the United States army. We imagine we can hear almost each officer and employee from one end of the Nickel Plate road to the other, say, "Why, that is Harry Williams." No sir! It is now Captain Harry N. Williams, Co. B, 15th Engineers, Railway, United States Army, and probably the next time we hear of our old friend it will be from "Somewhere in France."

Capt. Williams, we salute you. We are proud of you and we will miss you. It is our earnest hope that you may return safely, and we assure you that a cordial welcome will be given you by your old comrades on the "best little road" "Somewhere in America."

METER DEPARTMENT MOVING.

The greater portion of the meter part of the General Electric works is now located in its new home, the new building on the south side of Wall street, known as No. 12. The last to move therein was Foreman L. P. Persing, who has charge of the meter parts department, who has been located on the fourth floor. W. Bierbaum, of the meter machine room, has also located on the fourth floor, but W. Shvington, of the meter coal wiring department, is located on the fifth floor. J. B. Mills, the head of the meter department, has not yet moved, his new quarters not being ready for occupancy.

ROME CITY FILLING UP.

The cottages at Rome City are filling up now, though during the early part of the summer there were more of them empty than at any previous mid-summer season in the history of the plant. George R. Rupley, Pennsylvania machinist, who is known as the "Cottage King" because of the number of cottages he has for rent at Rome City, said this morning that all of his cottages were occupied this week for the first time this season.

FIRST LIEUTENANT NOW.

William Bryan, a first lieutenant in the engineers' department of the United States army, spent an hour or two at the General Electric works this morning. He was employed there prior to his enlistment, about three months ago. For the past two or three months he was in training at Fort Leavenworth, Kan., receiving a commission of first lieutenant last week and ordered to report for assignment at Chicago at once. He went to that city this afternoon. During the latter part of his employment at the Electric works Lieutenant Bryan was a tester.

BACK FROM OUTING PARTY.

The Misses Alma Bloemke and Clara Miller, of the Wayne Knitting Mills; Misses Esther and Mildred Sauerwein, of the General Electric works; Miss Minnie Bell, of the Cline grocery, and Miss Bertha Koerber, of the Koerber jewelry store, who composed a jolly party that spent two weeks at Star Lake, have returned and resumed their respective duties. The young ladies occupied a tent at the lake and put in the time boating, bathing and fishing. They say they had a good time.

QUITS KNITTING MILLS.

R. W. Smith has resigned his position in the advertising department of the Wayne Knitting Mills, after a service of upwards of twelve years. He has accepted a position at St. Joseph, Mich., with the Cooper-Wells company and his duties there will be about the same as those at the Knitting Mills—advertising the sales department. Better salary was the inducement to make the change.

HAD HAND LACERATED.

While operating a machine at the Wayne Knitting Mills yesterday Edwin Orr got one of his hands in it and the member was badly injured. Some of the fingers were so badly cut that at first it was feared amputation of one or two of them would be necessary. It developed later that the hand could be saved in its entirety, but it will be some time before the young man will be able to work.

DISCHARGED FROM COMPANY E.

Clifford Kirkpatrick, a tester at the General Electric works, received notice this morning of his honorable discharge from Company E because of being the main support of dependent relatives. Mr. Kirkpatrick saw service on the border last winter and spring.

Supt. Benj. H. Hudson, of the G. R. & I. company, went to Grand Rapids this morning on business for the company. He will return tomorrow.

SOCIAL TEA.

Loyal lodge No. 85, Auxiliary to the Brotherhood of Railroad Trainmen, will hold one of its social teas at the home of Mrs. R. E. McNally, 719 West DeWald street, Wednesday afternoon. All members and friends are cordially invited. The following ladies compose the committee: Mesdames Craig, Corrigan, Castle, Clippinger, Cornelius, Clements, Deahl, Drevett, Ellison, Eccleston, Ellinger, Fackler, Dent, Dittman, Crance.

INDUSTRIAL NOTES.

Clem Hake, of the Pennsylvania Air-brake department, is taking a lay off. E. Crawford is a new laborer at the Pennsylvania blacksmith shop.

George Kedchum, a cabbuilder who had been sick, resumed work at the Pennsylvania shops this morning.

E. A. Ruess, a machinist, has been transferred from the Pennsylvania machine shop to the roundhouse.

W. S. Snyder, a machinist's helper, and H. R. Arnett, a laborer, resigned positions at the Pennsylvania machine shop.

Joseph Schallenberger, Pennsylvania machinist, is out on a vacation this week. He will spend a part of the time at the lakes.

George H. Waldschmidt, assistant paymaster at the General Electric works, has gone to Star Lake and other points in Michigan for a two weeks' vacation.

Mrs. Frank Alexander has returned from Bellevue, where she spent a month with her parents, Conductor and Mrs. C. Sauer.

Don Evans, vice president of Rhine-smith, Simonson & Evans, is taking a vacation this week. With his wife he is on the farm of her parents, near Claypool, Ind.

E. Kroger, a machinist's helper, who resigned a position at the Pennsylvania shops yesterday, has taken employment at the General Electric works.

C. W. Kelley, toolkeeper for Foreman H. J. Peters, of the tool supplies department of the General Electric works, has gone to Lake James to spend the week.

Mrs. Henry Hohman and Herold Hohman, wife and son, respectively, of Machinist Henry Hohman, of the Pennsylvania shops, are at Detroit visiting her sister.

Charles Baker, assistant to General Foreman W. H. Schwartz, of the dynamo assembling department of the General

Electric works, is at Rome City enjoying a vacation.

A. J. Huber, of the Pennsylvania planing mills, returned to Lake James this morning to resume the search for the body of his nephew, who was drowned while in swimming at the narrow several days ago.

Earl Timmis, a Pennsylvania boiler-maker, who has been suffering from tonsillitis for several days, was so ill this morning that he had to give up work at the shops and go home about 9 o'clock.

Ernest Piepenbrink, who had been at the lakes a week, resumed charge of a bolt machine at the Pennsylvania lathe department last night.

The last meeting of the 1916-1917 series of the Electro-Technic club will be held next Thursday, when the board will be cleaned and the club turned over to the new officers and committees in good shape. A. A. Serva is the new president.

Alfred Meyer, who sustained injuries to his face and eyes when a pipe that was being heated burst while he was at work in the Pennsylvania copper shop two or three weeks ago, has left the hospital and is getting along nicely. He called at the shops yesterday to see the boys.

Miss Mary McDonald, a trained nurse, is presiding at the hospital and dispensary of the General Electric works this week. Miss Frances Steele, who has that office regularly, has gone to Clear Lake to remain a week.

General Manager F. S. Hunting, of the Mrs. Jacob Waldschmidt, wife of the Pennsylvania shopman, is at Star Lake for a two weeks' visit with her daughter, Mrs. Frank Beasly, whose husband owns some of the concessions at the park and elsewhere about that resort. George Waldschmidt, of the cost department of the General Electric works, is with his mother at Star Lake.

The news of the death by drowning of Homer Mills, which occurred Sunday, was a shock to the officials and employees of the General Electric works, where the father, Frank E. Mills, worked so long and is held in such high regard. J. B. Mills, the head of the meter department of the General Electric works, is an uncle of the lad.

William Wiedelma has been assigned to clerical work in the operating department of the General Electric works. Two months or more ago he lost a hand, when his arm was caught in the cogs of a machine he was operating at the factory, the injury incapacitating him for that kind of work in the future. Another new employee in the operating department is George M. Watson, who became a wireman yesterday.

Walter L. Niemeyer resumed his place at the desk in the Pennsylvania blacksmith shop office this morning, after an absence of two or three weeks to rest up. He spent the time at the home of his folks in the country. Mr. Niemeyer has been ailing for some time, having symptoms of appendicitis, and is still suffering, but is better than he was a few weeks ago.

The vacation season is now in full force at the Wayne Knitting Mills and "tumbling up" on the office and other work is the rule as far as possible. Among the employees out this week are H. Keiser, L. Vetter, J. Beaumann, H. Wilhelm, F. Weiss, C. Schwen, O. Baade, H. Wilmer, T. Roegner, G. Sutton, C. Tegtmeyer, A. Bagman, T. Ortleib, J. Benton, J. Bachman and R. Siebold.

Ironated Herbs with Pepsin is superior to all forms of organic iron for the reason that pepsin in concentrated form, has immediate action on the gastric juices, thereby, causing prompt assimilation of the food and enabling the organic iron in liquid form to be carried to the veins, forming thick, red blood.

The following is the statement of C. M. Richey, a sign painter of 315 East Main street, Muncie, Ind. Mr. Richey, who has been taking Ironated Herbs with Pepsin for his run-down condition, in speaking of the new strength and vigor which he has obtained through this efficient preparation, says: "I have been suffering for some time from a general run-down condition. I caught a severe cold some weeks ago, which left me in a very weakened condition. I have tried a number of remedies, but none seemed to benefit me. I heard so much of this new medicine, Ironated Herbs, that I got a bottle, and am delighted with the results. My appetite is improved, in fact, I am hungry all the time, and am rapidly gaining strength and I am sure another bottle will entirely restore my health. It is a pleasure to recommend this modern medicine to all."

Ironated Herbs with Pepsin (liquid form), which brings new strength and vitality to nervous, run-down men and women, is now being sold in Fort Wayne by the following druggists, who will gladly explain its merits upon request.

METER THIEF SHOWS MANIA FOR FIXTURES

James LaBell Has Been in Prison Many Times for Stealing.

James LaBell, 40, does not believe in allowing unnecessary fixtures to adorn the interior of a house. He has been in the business of "cleaning out" dwellings for several years. Detective Sergeant Joseph Brennan, in charge of the beatification department of Fort Wayne police, learned that fact when he began to receive returns to enquiries about the man.

LaBell is serving a sentence of 170 days at the state farm because he stole a meter from a Fort Wayne home two weeks ago. His penalty was a fine of \$10 and costs and 150 days at the farm. He was arrested by Detective Sergeant Walter Immel when LaBell was trying to peddle the stolen meter.

The man had not left Fort Wayne for his term at the state institution when Brennan began to receive accounts of his past exploits. Under the name of Frank Fountain, LaBell was sentenced for house breaking at Concord, Mass., in 1913. In 1913 he was sentenced again for the same offense in the same city.

On May 21, 1906, LaBell was convicted of stealing lead pipes from vacant houses in Milwaukee. Two years later he was sentenced for a similar offense in Chicago. On Oct. 11, 1916, he was granted a suspended sentence on a larceny charge, in Chicago, and on Oct. 21, 1916, he was convicted of house breaking in Chicago and sentenced to six months' imprisonment, with an added fine of \$100. He had been released from prison but a short time when he came to Fort Wayne and stole the meter.

WITHOUT EQUIPMENT.

Company C, Fourth Infantry, in Camp at Huntington.

Huntington, Ind., Aug. 7.—Huntington's first war camp since the days of the civil war was established at the fair ground Sunday for Company C, Fourth Indiana Infantry. At 11 o'clock Sunday morning ninety-one enlisted men, three recruits and three officers had reported at the camp. The original order had been for the men to report in the afternoon, but it was changed on Friday, when a report for present and absent members at 11 o'clock Sunday was received. Most of the other forty-eight enlisted men and eight recruits reported before Sunday evening.

This morning active training was started under the direction of Captain F. E. Liveness. The men have not been provided with clothing or equipment of any kind and the entire time was spent in drilling, foot movements and military courtesy. The out-of-town men are sleeping on cots and mattresses lent by citizens of Huntington.

Charles F. Brown, first sergeant of the company, and Miss Sylvia Marie Smethers, of near Warren, were married Saturday. They became acquainted last spring, when Brown sought recruits for the company in Warren.

A committee of the Commercial association has issued an appeal to citizens of Huntington and Wabash counties to contribute a \$3,000 company fund.

The W. C. T. U. will make comfort bags for the boys and give them bibles.

TENTING ON GOLF LINKS.

Company H, of Warsaw, Has Nearly 170 Enlisted Men.

Warsaw, Ind., August 7.—Company H, I. N. G., of Warsaw, is encamped on the Winona golf links, two miles east of Warsaw, awaiting orders to entrain for some concentration point. Company H, which has nearly 170 enlisted men, and is one of the largest guard companies in Indiana, was mobilized on Sunday and spent the day establishing its camp. Twenty-two large tents for the men, four tents for officers and the cook's shack constitute the little tented city which sprung up within a couple of hours on the site previously selected. Company H was one of the few companies in the state with sufficient tentage to accommodate its men. Less than one-half of the men, however, have uniforms or are armed.

DEATHS AT HUNTINGTON.

Huntington, Ind., Aug. 7.—Mrs. Sarah Anna Fitch, aged 77, died Saturday morning at her home in Andrews. She was born in Hendricks county and lived in Marion and Wabash counties before moving to Huntington county thirty years ago. Five children, Mrs. Maggie Carter, of Upland; Mrs. Lizzie Witrode, of Dodson, Mont.; Mrs. Jefferson Myers, of Andrews; Ernest Fitch, of Huntington; and Elmer Fitch, of Andrews, survive.

—Mrs. Lucy M. Gers, aged 73, died at her home, one mile west of Huntington, Saturday morning. She was born in Bartholomew county and until eleven years ago lived at Monterey, Ind. Five of ten children survive. They are: William H. Gers, of Chicago; Anthony Francis Gers, of Huntington; Mrs. Harriet Ann Book, of Monterey; George Gers, of Huntington; and Mrs. Zora Trimmer, of Huntington.—Mrs. Isabelle Sprowl, aged 74, died Friday at her home on the Huntington-Wellis county line. The husband and two children, Mrs. Lucinda Masterson, of Wells county, and Henry Sprowl, of Bluffton, survive.

TEACHER IN BAD.

Huntington, Ind., Aug. 7.—Martin Hoffman, a teacher in Huntington college, pleaded guilty to a charge of keeping an unlicensed dog. When he made out a check for the fine he wrote "One dollar for fine, \$10.50 for graft." Before Martin reached his home, a constable from the court of Squire L. H. Jackman, to whom he had given the check, overtook him. Jackman assessed \$5 fine for contempt of court, and \$12.50 for the constable. Hoffman offered another check for the fine amount, but the justice of the peace refused, and Hoffman paid cash.

MARRIED AT BLUFFTON.

Bluffton, Ind., Aug. 7.—At the home of Rev. and Mrs. B. E. Reemsnyder on South Main street, at high noon, Sunday, took place the wedding of Mr. George E. Sneeringer and Miss Inez S. Boye, both of Sycamore. They are both members of the Reformed church, which Rev. Reemsnyder served before coming to Bluffton. They arrived Sunday morning and left on the 10:04 p. m. Clover Leaf Sunday evening for a month's visit in Illinois and Kansas.

ENTERTAIN BLIND CLASSMATES.

Angola, Ind., Aug. 7.—Miss Allie Truesdale will entertain this week at the Carver cottage, Spring Point, Lake James, her schoolmates in the school for the blind, all of whom after having secured their education, are making good in their respective trades and professions.

Charles Bruch, southeast of South Whitley, received severe injuries and his wife and two children were badly jarred Sunday forenoon when their auto was struck at the Lee cross roads by the north-bound auto of Paul Fisher, of Richmond. The Bruch auto was turned over into a ditch and demolished, and the Bruch family was thrown out. Bruch was taken to a neighbor's home, and afterward conveyed to his own home in an ambulance. Drs. E. L. and Fred Eberhard attended him.

Enmet Shanks and Mrs. Allie McCole, of Huntington, were wedded Sunday evening at the home of the groom's sister, Mrs. I. W. Markley, of the south side. The groom is a restaurant proprietor of Huntington.

Mrs. Lydia Slessman, aged 82 years, for over sixty years a resident of Columbia City, and widow of the late Jacob Slessman, died Sunday afternoon at her home on East Van Buren street, after a short illness. She was born in Stark county, Ohio, her maiden name being Minear. Surviving children are Dr. B. F. Slessman, Thomas Slessman and Orlando Slessman, of this city, and Mrs. Addie White. Two sisters, Mrs. Susan Riddle, of Salt Lake City, and Mrs. Sarah Coy, of Kansas City, Mo., survive. The funeral occurs Wednesday afternoon at 3 o'clock at the home, Rev. H. G. Herendeen officiating. Interment in the Masonic cemetery.

TUESDAY, AUGUST 7, 1917.

THEY WILL COME FASTER LATER.

America is new in the war. A considerable part of the great body of the people scarcely realizes that America is in the war. They will not realize it until war has in some way laid its hard and heavy hand upon them and they have joined their efforts in some sort of service. A year hence it will be different. So far we have been engaged with the preliminaries of war; getting ready to make war. All this is tame, unheroic and commonplace as contrasted with the madness of combat and the poignancy of suffering in Europe.

After we have begun to fight and have been forced to suffer and it is made clear that our part in the war is to be no mere service of money the nation will awaken to the fact that our share in this great conflict must mean to us just what war has come to mean to other nations that have felt its sear and blight. For the present we are safe from invasion. We may remain safe from invasion. We shall escape the multiplied horrors, the unspeakable atrocities that have blasted Belgium, parts of France, Poland, Serbia and Rumania, and the hunger, starvation and death that have stalked supreme and ruthless in so many parts of the world, but we shall come at length to know the costly sacrifices that war exacts from all who go into war. Our time for realization of the rough concrete facts of war has not yet come, but will sweep bloody and terrible into our understanding full soon.

With this in mind we may look with better understanding at the reluctance of many young men summoned before the draft boards to enter service, the efforts of relatives and other friends to enlist interest and influence to gain exemption for conscriptables. It is pointed out that so far as the work of selection for the army has proceeded the percentage of exemptions has a very close correspondence with the percentage that obtained during the latter months of the civil war when conscription was resorted to to fill the levies. There is, however, the difference that the drafts came on in the 60's at a time when the nation was war weary and its sacrifices had been heavy and terrible, whereas the present draft comes at the outset before the nation has been called upon for any sacrifice whatever. Still, it is not in any high degree probable that progress of the war will make appreciable difference in the number of young men who because of dull spirit of nationalism, love for ease, fear of battle or consciousness of hostile sympathy seek to escape service in the army. But progress of the war will make a great difference in the minds and hearts of many young men who now are reluctant to serve because they believe they are not needed so much in the field as they are needed at home and their families and their friends will undergo the same changes of spirit. The stress of the nation will rouse them and they will be as ready to serve as their friends and families will be anxious that they shall serve.

There, too, will come a better understanding and appreciation of the nature of the selective conscription law, ignorance of which no doubt has made a great many feel unfriendly if not uncompromisingly hostile to it. The innate democracy of this principle of national service that imposes duty upon all who are physically fit for it and are held by no paramount obligations to other tasks will be more fairly weighed and considered after awhile, resentment will subside where there has been resentment and readiness for service will become the more general spirit.

THE BOYS' NATIONAL RESERVE.

It is a fine opportunity for national service that is coming to the boys of this country in the organization of the Boys' Working Reserve. Youth from 16 to 20 years of age are eligible to the ranks of the auxiliary army that is to be recruited for non-military service. They will not be required to go out of the country and a great many of them will not

be required for service in unfamiliar ways. All of them will have the proud consciousness of aiding their country and supporting their government in ways that are just as vital if not as thrilling as duty in the field.

While the strong young men go to the front to fight they leave behind them the tasks they put aside to bear arms for the government. These tasks must be fulfilled, their work must go on. It is that there shall be no suspension or impairment of the nation's industry and no cutting down of its production that boys are now to be called to the colors for work here at home. The lads who enlist for this service will be doing great things for their country—things without which the country would become weakened and made the more readily the prey of its enemies. That would not do. As the nation goes along in the war it must become stronger in all its resources and the youth who are not old enough to fight can help bring this about by giving themselves to the work that many men who are older have put aside in order that they may do the fighting.

This Boys' Working Reserve will be a fine thing for thousands of boys who have not yet learned much about work, who do not appreciate the "dignity of labor, the long pedigree of toil" and who have not yet fully come to understand that the essential quality of manhood is usefulness and the fundamental quality of citizenship is service. In the Reserve they will not only learn to work but will cease to dread work as hardship and without dignity as some of them—though not many we feel sure—perhaps look upon it. They will catch the spirit of service to home and country and their patriotism will become a precious thing to them because, just as soldiers in arms laying down their lives if need be, they are doing something for the strength of their government, for the honor of their country and for the good of all.

Boys who join the Reserve will put nothing but good into this service and they will get nothing but good out of it. They will be in the service of the government, they will be carefully trained for the things they have to do, they will be conscientiously looked after, their physical and moral welfare will be objects of the greatest care, they will be put in the way of earning money and they will be "doing their bit" just as nobly and truly as men who fare upon the great adventure in the flaming blast of war. It is an opportunity and a privilege.

WORTHY FASHION, BUT FUTILE.

If the state of Missouri is indifferent to the quality and manner of her representation in the United States senate, the balance of the nation is helpless to ease itself of the incubus of Stone and Reed. It will be a pity and something of a shame if the democrats of Missouri shall go on content to bear the onus of responsibility for these two men in the chamber of the senate, though it is conceivable that in a pinch enough of them might join at proper seasons with forthright republicans of that commonwealth to do a decent thing.

Senator Stone has been somewhat subsident since the days of early spring when he won the objurgations of the country by the heat of his zeal to serve Potsdam and has given support to most war measures. Senator Reed has been consistently violent in his opposition to everything that has pertained to national security and support of the president's program for prosecution of the war. It is his desert to be denounced and marked for the kind of citizen and description of senator he is, but it may be doubted if that will greatly serve now. There is no way to head him off except by such means as the senate itself has power to apply within rather narrow latitude.

However, if anyone here or there or elsewhere feels like taking a kick at James A. Reed, of Missouri, he is fair game and it is a good fashion likely to become more and more fashionable. So, if it does no good immediately, it discloses a salutary state of mind in the country and sets an example of which Missourians in due time may take note.

There is no argument made for conserving fruits and vegetables for winter use that is not more familiar to every capable housewife in America than any words the professional writers and federal experts can put on paper. The women who know about it are busy.

The senate just can't give in and get its part of the war job done. Allowing for the effervescence that must escape in verbal spume, there are half a dozen reasons from three or four states why there is no hurry.

Let there be no slacking by the housewives of the land in the duty of conserving food. That is a labor of patriotism that involves no sacrifice unless it be sacrifice of ease—which always is a more or less good thing.

Russia is all set for a new start—the third or fourth—and is giving herself and her allies the same inspiring line of dope that has marked each previous essay to march. Here's hoping—also doubting.

Once more the humble typewriter
Must cringe at my commands,
And thus muss up a nice clean page
"Untouched by human hands."

Ah, yes, this humble typewriter
Must gallop East and West,

The mount I like the best.

For wondrous things this typewriter

It carries me like Pegasus
To intellectual fray.

And lo! this goodly typewriter
Hath pounded off this rhyme,
Before I knew that it was done—
All in so short a time.

For look you, sirs, this typewriter
The while I dreamt of beer,
Hath made me sing its own due praise—
Gadzooks, but this is queer!

I did not know—I could not tell—
My eyes were all a-blur
I dreamt of beer, yet SEE WHAT'S DONE
By this rare typewriter.

TO DIRECT SOLDIERS' RECREATION.

(South Bend Tribune.)

The resignation of P. B. Barnes from the position of municipal recreation director in South Bend takes from the city one of the most active and most inspiring characters who have ever been in the city's service. Temporarily placed in charge of recreational work for the soldiers in Fort Riley, Kansas, he discovered his services will be required for many months to come and that in justice to the recreational work in South Bend his place must be permanently filled. Mr. Barnes did wonders for this work. He was an inspiration to young men and young women and they gathered about him in a helpful spirit and for the personal benefits they realized would result from their participation. While the city cannot afford to lose Mr. Barnes it must realize that he has set up an example of recreational work that should be a fine example for whoever succeeds him.

Red Cross Sanitary Bureau

Following its policy of caring for the health not only of the soldiers and sailors of the United States, but as well that of the civil population, the American Red Cross has established at Washington a bureau of sanitary service which will supplement and assist federal, state and local health authorities in meeting sanitary emergencies created by the war. The work of the bureau will center in the civilian areas surrounding army cantonments.

While sanitary control of national army cantonments, national guard camps and naval bases will be exercised by the military authorities, the districts immediately adjoining these camps will be under no such jurisdiction. Yet the assembling of large bodies of troops will create new sanitary conditions. These must be met to safeguard the health of civilians as well as of soldiers.

The problem of milk supply, for example, will be greatly enlarged. The supply itself must be doubled and sometimes trebled, and this means increased forces for inspection. In the southern states, where malaria is a danger, the Red Cross has already undertaken efforts looking toward the extermination of mosquitoes. They must be eliminated not only in the camps proper, but in the surrounding country. Cleaning up pools and other breeding places within a mile radius of camps will mean covering from fifteen to sixty square miles.

When local health authorities are insufficiently equipped to meet these added problems, the Red Cross will offer the assistance of its bureau of

sanitary service. It will take the field only upon invitation of the local organization in charge of sanitation. The public health service will act as the advance agent, deciding in conjunction with the local authorities what measures are necessary and how much equipment it will take to meet adequately the new conditions.

Whenever requested by state authorities, coupled with a recommendation of the public health service, the Red Cross will furnish any important military area with a sanitary unit. This will consist of the required number of bacteriologists, supervising and subordinate sanitary inspectors, public health nurses and assistants. The Red Cross will be prepared to furnish this unit with equipment and maintenance, including laboratory equipment, transportation and such supplies as disinfectants and screening to enable the poor to carry out the requisite sanitary precautions in their homes.

W. H. Frost, surgeon of the public health service, has been assigned by the surgeon-general, at the request of the Red Cross war council, as director of the bureau of sanitary service. Dr. Frost is one of the leaders of his profession and has had wide experience extending over thirteen years in the public health service.

He was in New Orleans during the yellow fever epidemic of 1905, and has studied poliomyelitis in Buffalo and Batavia, N. Y., in Iowa and in the New York epidemic of last year. He was also connected with the hygienic laboratories, which studied the pollution of the Potomac river and also of the Ohio river.

ENEMY AGENTS TRY TO KEEP BOYS OUT OF WORK RESERVES

(By the State Council of Defense, Through Its Publicity Committee, George Ade, Chairman.)

Enemy alien influence, working in several Indiana counties, is attempting to prevent the successful enrollment of Indiana boys in the United States Boys' Working reserve. Marion, Hamilton and Hancock counties have been visited within the past week by representatives of the United States department of labor and secret agents of the department of justice for the purpose of identifying those responsible for the dissemination of this vicious misinformation. Arrests will follow the apprehension of the guilty.

Pro-kaiser agents are telling parents that the boys' reserve is a military organization that has for its purpose the conscription of the youth of the country, who once they are enrolled will be forced into armed service against their will.

This is one of the most specious bits of treason the Indiana authorities have uncovered up to this time.

The boys' reserve is first of all an entirely non-militaristic institution. Its sole object is to replace the old men who have been enrolled in the United States army. Service in the organization is purely and entirely voluntary. The request of the parent guarantees the immediate release of the boy worker, without vexatious red tape and delay.

The secret of reduced cost of living is in increased production as much as in the regulation of distribution.

Increased production depends directly upon a sufficient force of workers in the field.

What more patriotic duty could the American boy engage in than assisting in the big task of feeding the army

and Uncle Sam's allies by keeping up the supply of laborers in agriculture?

Give the lie to the kaiser's agents, boys, by enrolling at once!
This is enrollment week in the United States Boys' Working reserve.

Boys find out what is expected of you, then obey your conscience and your call to duty and enroll now.

GERMAN TROUBLES.

(New York World.)

Whether the new German chancellor favors a peace without annexations and indemnities or a peace with annexations and indemnities is of no importance outside of Germany.

When peace comes, nobody will have less to say about the terms than the German imperial chancellor, no matter who he may be. Should Germany win, the military autocracy will dictate the provisions of the treaty. Should Germany lose, the allies will name the conditions of peace. In neither case will the German chancellor be a deciding factor.

In 1871 Bismarck, with all his power, could not control the general staff. He opposed the annexation of Alsace-Lorraine and clearly foresaw the consequences of it, but the military authority was in the saddle and the military authority had its way. There is far less civil government in Germany today than there was in 1870. In fact, there is no civil government at all. Germany is ruled by a military dictatorship headed by Ludendorff and Hindenburg, and their will is law. Chancellors at best are only figureheads.

In a dispatch from Washington to the World it is stated that "no well-informed adviser of the administration believes the reform promises made through the kaiser should be treated seriously." They are to be treated seriously to this extent and no further—namely, that they reveal the discontent that is becoming vocal in Germany and the belief of the autocracy that something must be done to mollify the people. Beyond that they count for nothing.

This discontent is not political. It is economic and military. Every pound of food that can be kept out of Germany by such measures as the embargo that President Wilson has proclaimed will increase it. Every military success won by the allies, however small, will intensify it. Every measure that is taken to complete the economic, military and moral isolation of Germany will widen the breach between the autocracy and the masses which have had their fill of sacrifice which gains them nothing.

German autocracy has lived by the sword and ruled by the sword. It must die by the sword. The crisis through which the empire is passing is a summons to the allies to prosecute the war with still greater vigor and determination. The psychology of the situation is now on the side of democracy. The German autocracy has no means of dealing with popular unrest except through victories in the field, and if these are denied to it, if defeat is piled upon defeat, the system will soon go crashing down to ruin. The harder the blows that the allies can now deal the quicker the end.

That is what the German crisis should mean to every government at war with Prussian imperialism. It is the revelation of a supreme advantage which cannot be disregarded without the needless prolongation of the war and the loss of uncounted lives and treasure.

FROM THE SENTINEL PAGES 25 YEARS AGO

The Fort Wayne Medical college will be one of the big institutions in the near future. The college will be offered by the following: President, A. P. Buchman; secretary, K. K. Wheeler; treasurer, M. F. Porter. The board of directors will consist of Messrs. Buchman, Wheeler, Porter, Wherry and C. B. Stemen.

The Ladies Auxiliary to the Brotherhood of Locomotive Engineers has elected the following officers: President, Mrs. Maggie Keller; vice president, Mrs. William Tourgee; secretary, Mrs. Millie Drake; treasurer, Mrs. Max Horning; chaplain, Mrs. Harvey Slagle; guide, Mrs. William Gates; sentinel, Mrs. Ed Jones.

Rev. C. Gross, the pastor of Emanuel's Lutheran church, in his sermon yesterday, gave a history of the church since its organization, July 26, 1867. It then had 197 members, now it has 381 voting members, and represents 500 families. Since its organization, Rev. Gross said, 2,297 persons have been baptized, 1,299 confirmed, 530 couples married and 807 persons died. Henry Hicks, an old citizen of Chubbucko, was found dead in a shed belonging to Val Brown, Saturday morning. Over his body lay a heavy scantling, which in falling had caused his death, although the supposition at first was that he had been murdered, inasmuch as only the day before he had signed vouchers for \$1,300 pension money. He did not draw it, however, and according to certain technicalities in the pension laws his family cannot claim it.

The Ladies' Cycling circle gave an out-door lunch Saturday evening. Mesdames O. J. Wilson and J. E. Graham acting as chaperones. The following persons enjoyed the evening: Cycling circle, Misses Maud Vreeland, captain; Maud Graham, Bertha Gruber, Florence Fulton, Cora Doughty, Kittie Kohler, Etta Winbaugh, Laura Snowberger, Edith Brewster, Kittie Schlatter, Alice Cochran, Lillie Bowen, Lillian Flisk; Triangle club, John Evans, captain; Eph. Dalley, John Wagner, Frank Biddle, Harry Jones, Amos Richey and Seavey.

WILL SPEED UP PLANS FOR FALL PLOWING

Chairman Urges Earlier
Start for Next Year's
Gardening.

To begin work immediately to plan out next year's course for gardening in the city and carrying on work of the local branch of the National Food Relief committee was the decision reached by the local committee at a meeting Monday night at the headquarters on Clinton street.

Chairman Frank Hilgemann urged no delay in getting ready now for the fall plowing and the general preparations for the course to be pursued next year. The members of the committee appeared enthusiastic over what has already been accomplished in adding the gardeners and farmers of the vicinity. It was the consensus of opinion among the members of the committee that the work should be started earlier next year in order that still more might be accomplished.

F. W. Gray, supervisor, is now developing plans for the fall campaign. The outlook for garden products is brighter now than a few days ago, according to Mr. Gray, owing to the recent rains. The good done by the storms Sunday exceeded the harm done and gave to the soil much needed moisture.

The high price of seeds, owing to the greatly increased demand due to the gardening movement which has swept the country has caused a shortage to be felt and attention is now being given to the selection of seeds. The seedmen in this country have not only been called on to supply the increased demand here but have much foreign business to attend which they formerly did not get. A statement issued by Mr. Gray says seed should be selected from the most fully developed plants.

"The best fruits and those that ripen soonest," the statement says, "should be selected. Where seeds grow in fleshy pods, as in the tomato, cucumber, pepper, etc., should be placed in water and allowed to ferment before storing, so that the mucilaginous covering may be washed off. In a great measure the success of such a venture may depend on the storing for the winter. Special care should be taken to see that seeds produced in dry pods, as beans, be stored in dry places."

Our great Half Price Sale will start Thursday morning at 8 o'clock. Store closed all day tomorrow, Wednesday. PATTERSON-FLETCHER CO.

ELKS PLAN ANOTHER NOVEL FUNCTION

"House That Jack Built"
Will Be Scene of Dance
for Antlered Host.

Another interesting and entertaining function has been arranged by the local lodge of Elks at the new Country club. The antlered host will have a dance on Thursday night, the affair to be held in the "House That Jack Built," a vine-clad pavilion that is one of the prettiest structures on the grounds.

"Plenty of punch, moonlight and music" is the way the committee in charge describes the affair. Ciccone's orchestra will commence to play at 8 o'clock. This is the first of this kind of entertainment to be held at the new home of the Elks.

A basket dinner for Elks and their families is also being planned for one week from Thursday. A band concert and athletic events will comprise the program.

Knights of Columbus Picnic.
Fort Wayne council No. 451, Knights of Columbus, will give a community basket supper and picnic at Robison park Wednesday afternoon and evening. The lunch will be spread between the hours of 6:30 and 7 o'clock. Plans are also being formed by the local lodge for the observance of Columbus day, October 12. An election of officers will be held on September 24.

Union Veterans Meet.
A postponed meeting of the Union Veteran Legion No. 51 will be held next Sunday afternoon in library hall, when arrangements will be made for attending the next national encampment in Columbus, O. The encampment is to be held some time in September or October.

Our great Half Price Sale will start Thursday morning at 8 o'clock. Store closed all day tomorrow, Wednesday. PATTERSON-FLETCHER CO.

MANY CLAIM EXEMPTION.
Decatur, Ind., Aug. 7.—Slow progress is being made by the Adams county conscription board because of the number who are claiming exemption. Of the first thirty-five examined yesterday but one had passed, who did not claim exemption. Eighteen passed the physical examination. The conscription board comprises Ed Green, sheriff; C. N. Christen, clerk; E. G. Coverdale, medical examiner. Assistant clerks are H. B. Heller, E. B. Adams, H. M. DeVoss, Will Hammel and L. D. Jacobs. Dr. W. E. Smith is assistant medical examiner and Dr. J. M. Miller, re-examiner.

ANDERSON COMPANY TRAINING.
Anderson, Ind., Aug. 7.—Company M, Indiana national guard, recently organized and sworn into service, is being put through preliminary drill work in preparation for calling to the federal service and training at the government camp at Hattiesburg, Miss. Captain McKinney, formerly instructor of the Purdue university regiment, is in charge of the local company and is drilling his men more than eight full hours per day.

SOCIETY

The wedding of Miss Jennie Bowser, daughter of Mr. A. A. Bowser, to Mr. Frank R. McKay, of this city, will be a very quiet home affair on Wednesday afternoon. Rev. G. F. Byer, of South Bend, who was the family pastor for many years, will officiate at the ceremony. Only the immediate family relatives will be present.

Mr. and Mrs. W. L. Moellering have gone to their summer home in Leland, Mich.

Miss Eleanor Carroll, of Bucyrus, O., is visiting Miss Sarah Grace Randall.

Miss Louise Mariotte went to Coldwater, Mich., on Tuesday for a two weeks' visit.

Miss Velma Bookwalter left on Tuesday evening for a visit in Cleveland and Akron, Ohio.

Mr. and Mrs. Charles A. Wilding and Miss Wilding have returned from a trip to Asbury Park, N. J.

Miss Helen Miller, of Danbury, G., is visiting Miss Frieda Dannecker, of Washington boulevard west.

Miss Virginia Randall spent the week-end at Lake Wawasee, the guest of Miss Helen Vaughn, of Wabash.

Mrs. C. E. Muller and family have gone to Macatawa Beach, Mich., to remain the rest of the summer.

Miss Irma Hoelle has returned from Muncie, where she spent a week visiting her sister, Mrs. Eleanor Jacobson.

Mrs. Charles Bales and daughters, Evelyn and Dorothy, who are summering at Rome City, spent Monday in town.

Mrs. Robert Orff and daughter, Betty, of West Jefferson street, have gone to Buffalo, N. Y., for a three weeks' visit.

Misses Madeline Geiger and Marcella Druhot have returned from a week's visit in Chicago with relatives and friends.

Miss Caroline L. Ferguson, of West Wayne street, left on Monday for a trip to Cleveland, Pittsburgh and other points.

A. L. Beuret and E. J. Lennert started on Tuesday for an automobile trip to Ohio, Indiana and Kentucky points.

Mrs. D. L. Harding and Miss Effie Lumbard are to start this week Wednesday for Mackinac Island to remain the rest of the month.

Mrs. Ahme Meyer and son, Dayle, of Riverside avenue, have returned from a month's outing at Rome City. Mr. Meyer will remain two weeks longer.

Mrs. L. B. West and son, William, of Chattanooga, Tenn., are visiting her parents, Mr. and Mrs. N. Conover, of 1217 Fairfield avenue.

Mrs. John P. Evans, and daughter, Miss Margaret, expect to leave on Friday, for a trip to Leland, Mich., where they will remain three or four weeks.

Mr. and Mrs. Calvin Reiman have returned from a trip to the Pacific coast which took them as far north as Vancouver and to southern California.

Miss Evelyn Bevington, of this city, and her niece, Miss Valera Cronley, of Antwerp, O., have returned from a two weeks' visit in Cleveland.

Mr. and Mrs. T. F. Thieme and son, Wayne Thieme, returned the latter part of the previous week from a trip to Asbury Park, N. J.

Mr. and Mrs. A. J. Detzer and Miss Dorothy Detzer expect to leave within a few days for Leland, Mich., where Mrs. Detzer and Miss Detzer are to remain until early in September.

Mr. and Mrs. Charles Miller and family, of 1909 Fairfield avenue, have returned from a week's visit with relatives and friends at Pittsburg, Rochester and Beaver Falls, Pa.

Mrs. Daniel Milligan, of South

Hoagland avenue, is to give intimate friends of her sister, Miss Mildred Bowser, a knitting party and a luncheon on Wednesday morning.

Misses Helen Peters and Florence Lang and Mr. and Mrs. Neil McKay have returned from a week-end outing at Rome City. Prof. Arthur Boak, of Ann Arbor, Mich., was a guest of Miss Peters.

Mrs. Walter Massey and son, Lance, and Miss Georgiana Bond left on Monday for a trip to Detroit, Thousand Islands and Mrs. Massey's home in New York state. Mr. Massey and Stephen D. Bond will join the ladies in the islands.

Mrs. R. G. Thompson, of Chicago, spent a day in Fort Wayne, en route to Washington and New York city. Mrs. Thompson's sister, Mrs. Hugh Kapp who also makes her home in Chicago, has gone to Pomona, Cal., to visit another sister, Mrs. Dill.

Mr. and Mrs. Will Brackenridge are to make Fort Wayne their home again in a short time. Mr. Brackenridge is to enter the insurance business. Mrs. Brackenridge and sons are at Lake Tippecanoe, near Tipton, where the family has been living for two or three weeks.

Mrs. John H. Gilpin has returned from Atlanta, Ga., where she accompanied the remains of her mother a few weeks ago, and from Sheboygan, Mich., where she went for a few days afterwards to visit relatives of Dr. Gilpin. Dr. Gilpin has gone to Fort Benjamin Harrison to serve in the medical department of the army.

Announcement has been made of the marriage of Miss Dortha Pauline Winger to Donald Earl Cohagen, which took place on April 21 in Centerville, Mich. Rev. W. H. Frazer, of the Presbyterian church, officiated at the ceremony. After August 10 Mr. and Mrs. Cohagen will be at home at 1511 Sherman street.

There will be a card party and dance for the benefit of Company B, signal relief corps, in Minuet hall on August 13. Proceeds will be used in purchasing mess outfits. There is a good program in prospect of arrangements which will consist partly of special dances by well known society dancers of the city.

Captain and Mrs. Paul Baade and little daughter, Peggy Ann, are to leave on Wednesday for Chickamauga, Tenn., after a visit since their return from the Philippines, with Captain Baade's father, Fred Baade, of East Jefferson street. A gathering of the Baade family was held last evening at Captain Baade's home. It will be remembered by friends that Major Ivers Leonard is also stationed at Chickamauga.

Mrs. H. L. Burkas entertained with a prenuptial shower recently in honor of Miss Georgia McDowell. The guests presented Miss McDowell with towels which they first hemmed. Enjoying the pleasant evening were Mrs. George Ray, Mrs. Clarence Burkus and two daughters, Miss Sophia Gruber, Miss Loretta Wunderlin, Miss Marie Jehl, Miss Lillian Grosh, Miss Marie Ackerman, Miss Alma Schneider, Miss Clara and Miss Edith Doehla.

Leo Ginzbourg, of Lima, O., spent Sunday in the city a guest at the home of A. C. Pepe, 512 Washington boulevard west. Mr. Ginzbourg came from Petrograd, Russia, but he has been in this country for some time and is a naturalized American. His visit here was particularly with Lawrence Pepe, who is a member of the Third regiment, national guard, which became a part of the regular U. S. A. on Sunday, and is now located at Hattiesburg, Miss.

Mrs. Eva Norris, of Indianapolis, head of the state rescue work for the Nazarene denomination, will speak at the Nazarene church, at the corner of Marion and Third streets, Wednesday evening.

Mrs. Norris is well known throughout the state for her work in the rescue field. She has been instrumental in rescuing scores of young girls, and placing them in good homes to lead a Christian life. The public is invited to come and hear this woman tell of her experiences and work in her field of endeavor.

Vetter-Bohde. A pretty wedding took place in St. Peter's Lutheran church at Goeglein on Sunday afternoon when Miss Amanda C. Bohde and Mr. Walter C. Vetter were united in marriage by the pastor of that church. The bride was attended by Misses Lena and Frieda Meyer and the groom by Mr. Lawrence E. Vetter, brother of the groom, and Mr. Henry Bohde, brother to the bride. Mrs. Paul Richter was matron of honor. The bride was gowning in a white tulle dress trimmed with pearls and her veil was held to her hair with a wreath of orange blossoms. Mrs. Richter was dressed in white organdy with trimmings of lace and the bridesmaids were in gowns of pink and white satin, one in yellow and one in pink. They carried bouquets of pink roses and the bride held a bouquet of pink roses and a white ribbon. A bountiful dinner was served after the marriage service at the home of the bride's parents, Mr. and Mrs. Henry Bohde. Paul Trier's orchestra furnished music and many friends enjoyed the pleasant time. The bride and groom left on a short trip and on their return will be at home at 1209 Wall street. The groom is employed at the Emerick bakery.

BLACK AND WHITE SQUARE BEADS LEAD.

BY BETTY BROWN.

Black and white is the newest in jewelry of good taste and fashion. And beads are no longer round. Square beads and cube beads are the fall contribution for buckles, girdles, necklaces, etc. The bead necklace shows the square, or cube beads, in white. The jeweled girdle displays the oblong, or square, ornaments of charming lines and design, in a pretty combination of black and white, effective without being garish.

WATER METERS TO BE INSTALLED IN GARRETT

Drastic Action Will Be Taken if Notices Are Not Complied With.

(Special to The Sentinel.)

Garrett, Ind., Aug. 7.—If the program mapped out by the city council at its meeting is carried out, as the city fathers intend to see that it is, Garrett will soon need plumbers. By a motion passed unanimously it was decided that water meters should be placed in every business house and property in blocks 13, 19, 21, 25, 32 and 33.

Some of the places included in this area have already placed the meters but the majority have not and the council has ordered the sending of notices that, unless the meters be placed within ten days, the city will do it and charge it against the property. City Clerk Bowers mailed the notices Saturday.

The matter has been up before the council so long, and the meters have been ordered in so long, that drastic action was deemed necessary to place the water consuming public on a checking basis that will be fair to all. Just as soon as these districts are finished others will be mapped out and the entire city will be equipped with meters just as soon as possible.

Will Enforce Ordinance.
The spitting nuisance will be removed in this city if the city marshal and his assistants follow the instructions given them by Mayor Cleveland to assist Health Officer Rodabaugh in rounding up the offenders. The health officer was at council meeting Thursday night and told that some of the young blood of the city

were taking the matter as a joke despite the fact that one Auburn had already been told to report for trial at notice from the mayor.

The council was of the opinion that such a practice should be stopped and the health officer was pledged the assistance of the marshal in forcing to the limit the law and in this way stop this disease breeding nuisance.

Storm at Garrett.
Lightning caused nearly \$1500 damage to a barn belonging to T. H. Kelham, living about a mile west of Garrett, near Altona, Sunday afternoon, destroying the barn and contents. It was with difficulty that the Garrett department, called to the scene of the fire, was able to save the granary and other buildings near the burning barn.

MOORE'S
NON-TOXIC
FOUNTAIN PEN

For Soldiers and Vacationists

When You Buy a Moore's

you insure yourself against all future fountain pen annoyances. It is made to endure the roughest kind of treatment and can be depended on at all times to do perfect work under the most trying circumstances. You will never begrudge the small amount of money you pay for a Moore's—

\$2.50 AND UP.

Here's a pen that makes the ink behave—a pen that always writes RIGHT—and not only starts at the lightest touch and keeps on writing freely and evenly until you reach the bottom of the last page, but always keeps the ink where it belongs—INSIDE.

Doesn't make any difference how much you dislike the old style pens—you'll want a Moore's when you see it—and see how it works.

For when you see how the pen slips down inside the ink chamber down into the ink, you'll appreciate why a Moore's is the best pen to write at the FIRST touch, without shaking.

It's a well-built pen—nothing to get out of order—and so many styles and sizes to pick from that you can't help finding just the pen point that fits your hand. Prices no higher than pens that lack all the Moore's superiorities.

The Sand Silhouette. It's the latest novelty at the California beaches. The fair vacationist who hasn't posed for this new stunt in photography really isn't "in with the crowd." Photographers are getting rich off this picture harvest.

The pictures are made by "shooting against the light." The person posing stands on the ocean side of the camera, the sun casting a shadow towards the photographer.

ALLEN COUNTY MAN

IS DOING HIS BIT

George T. Marshall, Formerly of Wallen, is With U. S. Marines in France.

George T. Marshall, brother of Mrs. R. Pfeiffer, of Wallen, this county, and a former resident of that place, is with the first expedition of United States marines to place the American flag on the firing line in France, according to advices just made public.

The "do-all-dare-all" marines are always ready prepared to start at once, anxious to fight and it should be a source of pride to know that a local young man is with the arm of this country's defensive establishment which is fitly engaged in the war for democracy, and which has always been "First to Fight." The record of the "Soldiers of the Sea" has always been admirable, they sustain heroically today the finest traditions of the past, deserve the unquestioned confidence the nation reposes in them, and the local young man will doubtless be a credit to his country, his corps, his home and himself.

Marshall enlisted in the United States marine corps on April 15, 1917, at its Indianapolis recruiting station. He is with the Forty-seventh company.

GIVE POTATO EXHIBITION

Park Avenue Will Be Scene of Patriotic Event on August 15.

EACH ENTRANT WILL SHOW 12 BIG SPUDS Attractive Prizes Will Be Given Winners in the Contest.

All potato patch patriots who reside within the city corporation south of the Pennsylvania railroad are eligible to enter the big contest which will culminate on Wednesday, August 15. On this date a big exhibition will be given on Park avenue.

All amateur potato growers are asked to take part in this contest. Each man who enters the contest will exhibit twelve of his best and largest potatoes. Entry blanks can be secured from the secretary of the organization, Herbert Weil, in the Shoff building. It is hoped by the press agent, W. S. Wells, that there will be at least five hundred entries in the contest.

The agricultural events will begin at noon on the date named and a program of interest will be rendered. Several orchestras have been secured to provide music for the occasion. In the program are included negro cake walkers, negro dances and music, farmer shows, contests of all kinds, and a pin picking contest. Prizes will be given for the winners in these events.

In all one of the most jovial events of the season is in store for those who wish to attend. There will be no charge made at the exhibition.

Every one of the potatoes which are entered in the contest will be given to the Red Cross society, who will distribute them where they are most needed. There is no entry fee and it is hoped that every amateur potato grower will enter this contest.

The Red Cross organization has secured the sole privilege of erecting and maintaining refreshment stands. It is also understood that representatives of the society will sell flowers.

Samuel W. Greenland, who is chairman of the transportation committee, has announced that he will insure the best transportation facilities to the scene of the exhibition. Cars will be provided in adequate numbers for the accommodation of those who attend.

The event will last well into the night when the feature parts of the program will be given. Added lighting facilities will be provided.

Mr. Wells announces that the committee has secured a lifelong lease on the street and if the weather should be such that the event could not be held on the day designated it will be held the following day.

The organization of potato patch patriots will hold a meeting Wednesday evening, at which time a president will be elected.

NO DOUBT BUT WHAT HUBER WAS DROWNED

Story is Circulated to Effect He Had "Skipped Out."

Local representatives of the Wells-Fargo Express company, Tuesday, emphatically denied the report that Edward Huber, agent for the company, who was drowned in Lake James had not as a matter of fact been drowned at all but had left his clothes on the bank of the lake and had "skipped out." Members of his family also deny the story.

The report first gained circulation when a diver who has been searching for the bodies claimed the bodies was not in the lake. Then started the report that Huber was short in his accounts and had taken this means of evading the law.

Officials of the company stated Tuesday that Huber's accounts have been checked up to the penny. They declare he was one of the most trustworthy employees they have ever had and that the report is a great injustice. The search for the body will be continued.

NARROW ESCAPES IN CLOVER LEAF WRECK

Frankfort, Ind., Aug. 7.—Three persons were injured and a number narrowly escaped when a westbound Clover Leaf passenger train was wrecked near here early today. The tracks probably will not be cleared of the wreckage before tomorrow. The engine, tender and a refrigerator car turned over and two express cars turned cross-wise of the track, but the passenger coaches remained on the rails. The injured were Trammien William Murray, engineer, and Arthur Uhlinger, fireman, of Delphos, Ohio, and G. W. Rutter, expressman, of Toledo. The wreck is said to have been due to a spreading switch.

Dogs can easily follow a deer by means of scent. In each hoof there is a pesty mass which leaves a slight odor on the ground. For this reason hunters usually take dogs with them.

TO START \$300,000 IMPROVEMENT SOON

Lake Shore Railroad Plans to Let Bids for Round House and Subway.

Officials of the Lake Shore railroad have submitted plans to members of the board of works and City Engineer Randall for the building of a round house and subway at Elizabeth street, which improvement will cost \$300,000.

As soon as city officials pass upon the plans the railroad company proposes to receive bids for the building work. A special meeting of the board of works may be called before Thursday, to act upon the plans at hand. It is expected that the plans now submitted will be accepted.

The Elizabeth street subway will allow a safe connection of the Spy Run and Bloomingdale sections. It will extend Elizabeth street to Calhoun street and eliminate a dangerous grade and crossing. The railroad company stands upon what is now an unnamed street connecting Calhoun street and the railroad. The structure will be a mammoth steel affair. It is hoped by railroad men that work on the building will be started before cold weather.

The present Nickel Plate round house will be moved some distance to the north, under the plans of the railroad company. The big building will stand upon what is now an unnamed street connecting Calhoun street and the railroad. The structure will be a mammoth steel affair. It is hoped by railroad men that work on the building will be started before cold weather.

Birth Record.
Born, to Mr. and Mrs. Ray Kinsley, Grandson, a boy.

To Mr. and Mrs. John Bates, 200 East Superior street—a girl.

Will Talk Tanks.
The matter of allowing the Sinclair oil company to place tanks within the city limits will be thrashed out before the council committee on rules, regulations and ordinances, Tuesday night.

Subject of the controversy has now resolved itself into whether the gasoline company should be allowed to bury its tanks or be kept out of the city altogether. Mayor W. J. Hosey thinks the tanks should not be buried under a part of the city under any consideration. A part of the council members think there could be no harm if the containers are buried under ground.

Scales Are Correct.
City Sealer C. B. Tolman has inspected the scales at the three city exemption board headquarters and has found that there is no flaw in their weighing properties.

Headed Off Vacation.
Members of the board of works killed the resolution for the vacating of Randall street, from Grant street to the first alley west, at their meeting, Monday afternoon.

Finish Concrete.
The Grace Construction company workmen have completed the concreting of Delaware avenue. The street will be opened for traffic next week.

Curbing Put Down.
Curbing is being put down at a rapid rate on East Wayne street. It is expected that the improvement will be completed by Wednesday noon.

Will Pave Street.
The industrial track at the Berghoff brewery is being put in shape for the paving across Wayne street, north of the brewery building. The Grace Construction company will start the paving at once.

PLAN TO GET MRS. DE SAULLES OUT OF JAIL

Physicians Examine Slaying Divorcee to Determine Health.

Mineola, N. Y., Aug. 7.—An application for the removal to a hospital of Mrs. Blanche De Saulles, held in the county jail here for the murder of her former husband, John Longer De Saulles, is expected to be made today or Wednesday. This announcement was made by Henry A. Uterhart, her attorney, after three physicians had examined her. It was said the physicians would make their report to Mr. Uterhart today when he would probably file a petition that Mrs. De Saulles be removed either to the Nassau county hospital or to a private sanitarium.

Although he would not state specifically just what her ailment was, Mr. Uterhart said the events of the last few days had accentuated her illness and brought on a collapse.

TEN OF INDIANA'S COMPANIES READY

War Department Notified They Can Be Sent to Hattiesburg.

Indianapolis, Ind., Aug. 7.—Ten units of the Indiana national guard have been reported to the central department of the United States army as ready to go to the training camp at Hattiesburg, Miss., at any time and assist in preparing the camp for the guardsmen to be sent there later. The recommendation was made by Adjutant General Smith and Col. E. Root, chief mustering officer of the Indiana guard, and became known here today. Neither of the officers would say when they expect the Indiana troops ordered to the camp, but it may be soon, as they are mustered into federal service. Whether the Indiana guard units will come to Fort Benjamin Harrison from their home stations or go direct to Hattiesburg also is not decided definitely, it was said, much depending on the question of tentage.

Among the ten units certified as ready to proceed to the training camp now were F company, First infantry, Gary; B company, Second infantry, Terre Haute; F company, Third infantry, South Bend; B company, Fourth infantry, Rushville; Battery E, field artillery, Indianapolis; troop A, separate squadron cavalry, Evansville; battalion headquarters, First battalion Indiana engineers, Indianapolis; A company, engineers' battalion, Terre Haute; and C company, engineers' battalion, Indianapolis.

Field hospital No. 2, Frankfort, also is to be certified as ready, it was said today.

RAILROADS WILL BACK UP EXEMPTION CLAIMS

Wabash First to Take Step to Verify Employees' Requests.

Following instructions from the general management, W. J. Welch, foreman of the Wabash shops of this city, appeared before the clerk of the examining board of district No. 3 to certify claims for exemption made by employees of the Wabash railroad who are employed in the capacity of engineers, firemen or skilled mechanics.

The local board had no blanks of the kind required and the process of verification of the exemption claims is to be postponed until those can be obtained.

The action on the part of the Wabash, it is expected, will be followed by the other railroads of the city, course set out by the railroad board of the National Council of Defense which is making the recommendation that such employees be excused from military service.

WILSON TAKES A HAND IN PLANS TO GRIP PRICES

Washington, Aug. 7.—President Wilson took a hand today in the government's plans for regulation of prices and conferred with officials who have the work in charge. First he went to the federal trade commission and then went to the department of justice. Both departments are working on keeping prices on materials for the government's war needs down to a reasonable basis.

The president spent half an hour at the trade commission, inquiring particularly as to the investigation of the cost of producing coal, steel and lumber. After he left the commission issued a brief statement concerning the conference, which said:

"The president was here today to confer with the trade commission as to the progress being made in its cost determination work now being conducted at his request."

ALIENS WILL BE SUBJECT TO DRAFT

Selection boards received the following instructions from Washington, D. C., Tuesday: "All subjects of foreign countries except Germans who have taken out their first papers at the United States are subject to call for examination and service."

Those who have already filed their papers claiming exemption on the ground of being aliens are required to reappear before the board in their respective districts for examination.

GET SECRETS OF THE SPIES

Mass of Papers Bearing on Czar's Espionage System Are Seized.

WILL BE COMPILED INTO A HISTORY

Disclosures Show That An Army Was Employed and That Cost Was Low.

Petrograd, June 30.—(Correspondence of the Associated Press.)—Thirty-three long lists of spies, informers and agents provocateurs in ex-emperor Nicholas' pay have been published by the commission for securing the new system of government appointed by the provisional government immediately after the revolution. Fifty more lists may be expected. The total number of these secret legions of autocracy is expected to reach 80,000. Those whose guilt is beyond doubt have been put in jail, but it is not yet settled whether they will be tried and punished or merely kept in jail until all perils of reactionary counter revolution have passed.

The commission's report depicts precisely the same system of espionage and state provocation to crime as flourished in Turkey under Abdul Hamid II. The distinction is that Abdul Hamid ran his spy and provocation system directly from the Yildiz Kiosk, whereas Nicholas entrusted his system to the notorious "Okhrannoe Oldielienel" or security department which occupied a big building in the Rashtrov district.

The first act of the triumphant revolutionaries was to seize the security department's secret papers. Many of these were burned in bonfires outside the building. The more precious documents, especially those relating to the state organization of crime, were kept in safes, and they escaped destruction. The revolutionaries also seized tens of thousands of secret records in the department's provincial office, and from these backed by confessions of imprisoned spies, are being culled the lists. The lists will be followed by a volume of official history of Espionage Under "Nicholas II."

As revealed by these inquiries activities of spies and informers were much less picturesque and romantic than they appear in the typical "Nihilist novel." Most belonged to the more intelligent working class or to the minor bourgeoisie. They were paid badly, the average for organizing political crime or betraying accomplices being \$20 a month. The spies were usually instructed to become members of secret revolutionary or terrorist organizations, among these being the socialist democratic party, the revolutionaries, the "fighting committee," the populist socialists and the Maximalists. On nearly every newspaper was at least one spy. The spies took part in committee meetings, incited to breach of the political repression laws or to actual crime, and kept the security department well informed.

Each had a "kitchka" or nickname by which he was known to the police. The department's record books, with such nicknames as "Party," "Long Nose," "Sunday Boy," "Elephant" and "Arsenic," were paid also two or three fake surnames, and he often changed his town and name when he fell under the revolutionaries' suspicion. Many spies and informers (like the famous Father Gapon, whose treachery on Bloody Sunday, 1905, led to his being hanged by a revolutionary engineer) were at one time genuine revolutionaries, and became later betrayers and informers. Some seem to have served both honestly and earned the approval of both and some do not seem to have known with which side they sympathized. A notable case is "Trukhanoff," real name Nikitin, nickname "Perky," who aroused the suspicion of his terrorist comrades, was threatened by them with execution and to rehabilitate himself was obliged to kill the gendarme officer with whom he collaborated. The "understudy" of Duke Sergius in Moscow, in February, 1905, was due to the same motive.

Organized Crime.
The organization of crime, with the aim of discrediting non-terrorist political associations and frightening Nicholas into repression went on on a great scale. For blood money of \$150 a mechanic was hired by the department to fire at General Djunkowski, governor of Moscow, but he was instructed to be sure to miss. He executed his instructions precisely, but through carelessness, killed a passerby.

In violation of the nihilist novel tradition, very few women were employed as spies or informers, but a few noted cases have been exposed. In Moscow three sisters named Palitsin betrayed scores of workmen, after getting confessions from them by means of simulating love. The commission's lists show that the department was a hard task maker. In addition to paying its spies badly, it spied on them. Every security department record contains a note of the spy's history. Some are described as "moderately good," others as "indifferent," others as having "betrayed many revolutionaries," others as "energetic, but unreliable" and others as "doubtful, should be watched."

Wells Shuts Out the Chiefs and Ties Up Cellar Position

Locals Have Little Chance Against Brand of Pitch- ing Shown at Dayton.

Dayton, O., Aug. 7.—The Chiefs were blanked in yesterday's contest here while the local club scored two runs bringing the Fort Wayne club down into a tie with Dayton for the cellar championship. Dayton scored a run in the fourth and also in the eighth. The Chiefs threatened to score in their half of the ninth, but were cut down. Hobbs singled in the fourth and advanced to second on Hoffman's sacrifice and came in on a double by Derrick. Kelley tried to start things for the Chiefs in the seventh by knocking out a clean single, with one down. Glickson fled out to Storck and Kelly stole second. Williams singled and Kelly was caught by Spencer's perfect peg to Donahue.

A singular feature of the game took place with the Chiefs at bat in the first half of the eighth inning.

Wells, the Dayton mound artist, who had been holding the Chiefs to a few scattered hits, evidently decided to tighten up altogether and equalled the record for the minimum number of balls pitched in one inning. Wells wound up and out the ball over three times. Higbee flew out to Storck. Breaux followed and likewise Vandagriff hit the first pitched ball for a long drive to Storck in centerfield.

Smith's grounder in the ninth got by for a single, but he was forced out by Hoffman. Seligried singled through the box and Kelly grounded to Nease at third, who doubled Kelly at first, ending the contest.

THE OLD GAME OF MAKING BIG MEN OUT OF LITTLE ONES IS PIE FOR TEXAS LEAGUER

Dallas, Texas, Aug. 7.—When Joe W. Gardner retired as the owner of the Dallas, Texas, league ball club, baseball lost a man who was responsible for sending more rookies to the big leagues, perhaps, than any other minor league owner or manager.

For fifteen years Gardner has been known in big league circles as a manufacturer of baseball talent. In 1902 he and Ted Sullivan, a well-known baseball man, organized the Texas league. From that date to this Gardner has shipped a number of youngsters to the big leagues annually.

This spring he retired from baseball, selling his interest to Hamilton Patterson and Doc White, the old White Sox pitcher.

Among the players he sent up active in baseball today are Arthur Fletcher,

shortstop of the Giants; Eddie "Hack" Spencer of the Tigers; Branch Rickey, part owner of the Cards, and Hank Gowdy, catcher of the Braves, who recently joined United States service.

Some of his other charges, including Frankie Truesdale, Jack Onslow, Charlie McDonald, George Jackson, Gene Dade, Bill Louden, Rube Peters and Claude Berry, are scattered throughout the International league, Southern and other circuits.

Claude Berry, catcher; Harry Clarke, infielder; Fred Hunter, infielder; Otis Johnson, infielder; Charlie Moran, catcher, and Rip Reagan, pitcher, went up in 1903.

In 1905, Branch Rickey and Hank Spencer, catchers, went to the White Sox. Spencer hit "boozie" and drifted back. He made a comeback and is now

catching for the Tigers. Rickey is, part owner of the Cards. He also caught for the Browns.

Jimmy Stephens, catcher, went to the Browns in 1906, followed by Rube Ferris, pitcher.

In 1907, Bill Louden, infielder, went to the Yanks. He later played with the Tigers and Reds. Benny Meyers, outfielder, was shipped to the Browns, and afterwards played with the Dodgers. Charlie Pruitt and Jess Garrett, pitchers, went to the Browns and Portland, respectively.

Two stars were sent up in 1903. Harry Ables, pitcher, and Mike Murphy, catcher. Ables went to the Browns and thence to the coast. Murphy went to the Reds.

Art Fletcher of the Giants was landed in 1909. Drucke went to the Giants

this year, as well as Rube Peters, pitcher, to the White Sox.

Hank Gowdy was the biggest star turned loose in 1910.

In 1913, Gene Dade, pitcher, went to the Reds. Charlie McDonald, infielder, to the Reds. Jewel Ens to Providence.

King Brady went to the Yanks in 1915, and was sent to the International and is now hurling for Toledo in the A. A.

Red Josefsen, outfielder, was sought by the Giants in 1916. He was tried out at Marlin this spring, but an operation prevented him from cutting loose. He was then sent to Rochester and then to Memphis, under Mike Donlin. He quit for the year, but will be with the Giants in 1918.

Chiefs Still Have Chance of Making a Good Showing

Local Club Should Get Out of Hole After Present Road Trip Ends.

Fort Wayne and Dayton will get together in an exhibition contest at Lima today inasmuch as the regular game scheduled to take place was played off Sunday as a part of the double-header. The game will be for the benefit of the players.

After the exhibition contest the Chiefs will leave for Springfield to open a three game series. The season has now progressed over half its length and the teams are beginning to pull themselves together for the finish, although it has begun to look as if Grand Rapids was going to have things just about her own way with a possible chance, however, that Muskegon might pull up and make things interesting, judging from the pace the latter club has been going of late. Springfield also could step out and cause Grand Rapids a little concern.

Fort Wayne's slide into a tie with Dayton for the last honors is not so disheartening as it would first appear after taking a look at the percentage column. There is a margin of only nineteen points between Evansville, topping the second division and Dayton and Fort Wayne, while Richmond is only eight points above the tailenders. The Chiefs have found it mighty hard going, barely being nosed out in several games and losing others by two-run margins. The local club will find itself in much better shape after it finishes the present road trip and should pull up when it returns home on August 15.

Of course the best thing that can be hoped for would probably be a first division berth, but it is not unlikely that the Chiefs will at least be able to pull up to the vanguard of the last section.

BUSY LASS FAVORITE FOR RICHEST STAKE

Swisser and Sheppard Purse Leading Event of Grand Circuit.

Columbus, Ohio, Aug. 7.—The richest stake of the present grand circuit meeting is on this afternoon's card at the Columbus track when 2:15 trotters will start for the S. & S. (Swisser & Sheppard) \$5,000 purse. Busy Lassie is a heavy favorite to win, because of her successes at Detroit and Kalamazoo over practically the same field.

During the Kalamazoo meeting Busy Lassie won two \$10,000 stakes, W. J. Leyburn, Royal Knight, Peter Chenault and others are in the field of entries.

The other events of today's program are the 2:13 class trot and the 2:11 pace. Judge Jones will be the favorite in the 2:13 trot.

Peter Pointer, W. L. Snow up, topped the feature event, the Elks' Home stake for 2:05 eligibles, of yesterday's races. The winner was forced to six heats before the contest, which finally developed with Walter Cochato, could be decided. The latter paced two heats in 2:02 1/2.

PAY RECORD PRICE.

Chicago, Ill., Aug. 7.—Cub fans yesterday were busy getting the dope on Outfielder Barber, newly acquired from Baltimore, of the International league, at the season's high-water mark of \$15,000. Two players are also to be given in exchange. Manager Mitchell says he's the finest player he has seen in years. Connie Mack and Clark Griffith were said to be after Barber, but were outbid. Barber drew one of the last numbers in the army draft.

GEORGE VAN HALTREN HOLDS CONSECUTIVE GAME RECORD

Eddie Collins and George Burns, who have played in about 400 consecutive games, have quite a little ways to go before they can consider themselves in the record-breaking class.

There is some discussion regarding the man who has played in the most consecutive games in the major leagues, but George Van Haltren, former Giant outfielder, probably comes as close to a record as anyone with a record of 464 games.

Van Haltren's run began late in 1897 when he played the last three games with the Giants. The next three years he did not miss a game, playing 157 in 1898, 153 in 1899 and 141 in 1900. He played 10 games at the starting of 1901, bringing the mark to 464.

At this time Van Haltren was a veteran, having been in the game for more than 12 years. Later he umpired in the Pacific coast league.

GIANTS CRUSHING THE ENEMY AT EVERY TURN

St. Louis Still Has Punch— White Sox Top Parade in American.

New York, Aug. 7.—One trip or more west means little in the lives of the New York Giants. Today, ten and a half games ahead of Philadelphia, now in second place, they are breezing along in the territory where they are expected to meet their strongest opposition and are crushing the enemy.

Between Philadelphia and New York the Cincinnati pennant hopes have been kicked to tiny pieces. Brooklyn chipped in with a string of victories over Mathewson's Reds.

On the performance of western clubs in the last few days, the Cardinals appear to have an edge. They have suffered no long losing streak, and while they have been unmercifully battered at times they have done considerable battering themselves.

The Giants go to St. Louis after they finish in Cincinnati. It evidently is squarely up to the Cardinals to take a tremendous whack at the Giants or take seats in the grand stand to watch New York dash down the stretch. Philadelphia has rooted the Cards out of second place, but there is still plenty of punch in the St. Louis lineup. They will give the Giants some fiery arguments.

The White Sox have put some distance between themselves and their pursuers since the Red Sox heaved a scare into them at Boston. They now stand in the van by three and a half games, with more games at Philadelphia and a set at Washington scheduled. The Red Sox are having plenty of trouble with Cleveland—which promises trouble for the White Sox later.

Our store will be closed all day tomorrow, Wednesday, to make preparation for our Great Half Price sale, which will start Thursday morning at 8 o'clock.

AUTO TURNS OVER; SEVERAL RIBS BROKEN

George Seavers and Family
Are Injured in an Accident Near Butler.

(Special to The Sentinel.)
Butler, Ind., Aug. 7.—Sunday afternoon George Seavers and family, of near Farmer O., met with an accident which might have cost them their lives, but fortunately they escaped with a few broken ribs and bad bruises. They had been spending the day with relatives and were hurrying home in their new Buick auto, trying to reach their destination before the storm, which was threatening, could overtake them. They were going about forty miles an hour and when they turned out to pass an auto which was standing at the side of the road, Mr. Seavers put the brake on suddenly and the car turned over, throwing the five members of the family out and breaking up the car in bad shape. Mrs. Seavers, who was holding an infant, was thrown clear of the debris and had three ribs broken. The baby escaped with a slight scratch on its forehead. Mr. Seavers sustained a slight concussion of the brain and the other two children were bruised and cut slightly.

Butler Short Items.
Mr. and Mrs. George Canfield and son, Ray, of Pioneer, and Mr. and Mrs. Silas Miller, of Montpelier, O., motored to Butler Saturday and were the guests of the former's son, E. M. Canfield, and family. Miss Cleo Robinson accompanied George Canfield and family home Sunday for a short visit.

Mr. and Mrs. Esse Rhoades, of Hicksville, O., motored to Butler Saturday night and spent a short time with her parents, Mr. and Mrs. Lelan Robinson, and family.
Eugene Wagoner is home from the west visiting his parents, Mr. and Mrs. Charles Wagoner, Sr.

Mrs. Carl Kysar and daughter, Margaret Louise, of Bryan, O., are spending the week with her parents, Mr. and Mrs. William Whetsel.
The Misses Ruth and Helen Holsington, of Adrian, Mich., came Saturday to visit their grandmother, Mrs. Almira Bailey, and aunt, Mrs. F. Creager.

Charles Hagerty returned home Sunday night from Monroe, Mich., where he has been spending his vacation with his family in the Frank Pink home. His wife and daughters are expected next week. Mrs. Hagerty's mother, Mrs. Frank Fink, who returned home Friday from Ann Arbor, Mich., where she underwent an operation, will accompany her home.

William Miller and wife, of Indianapolis, and Mr. and Mrs. George Wishart, of Chicago, are spending the week camping at Cold Springs, Hamilton, N. Y. Mr. and Mrs. E. C. Miller and Mr. and Mrs. F. L. Kiplinger spent Sunday with them.
Mr. and Mrs. Sherman Hoard, Loren Hoard and Mrs. Hiram Lozier, of Ransom, Mich., returned home Monday after spending Sunday with Mrs. Julia Fulmer and Mr. and Mrs. Frank Stage.

Mr. and Mrs. Arvil Hafer, of Kendallville, were the week-end guests of their uncle, Henry Hatch, and wife.
Paul, the 7-year-old son of Byron J. Pepper, broke his arm Thursday evening while playing about the farm of his grandfather, Louis Pepper, of Stafford township.

OSSIAN NEWS.

Ossian, Ind., Aug. 7.—Mr. and Mrs. Levi Todd, of Fort Wayne, were week-end guests in the home of Mr. and Mrs. Ray Cotton.

Mr. and Mrs. Clint Parkinson are entertaining a young son who arrived in the home very recently. This is the second son and the seventh child of the family.

Emmett Rector, who has been one of the clerks in Rector Bros. for several years, has resigned his position and on Monday assumed a new work as traveling salesman for A. H. Perrett & Co. of Fort Wayne.

Mr. and Mrs. Earl Cutler and family spent Sunday in Bluffton attending the close reunion.

Mr. and Mrs. Dale Kreigh, of Tularosa, N. M., who are visiting in Ossian, left Sunday by auto for a few days' visit with Mrs. Kreigh's brother, Mr. Thompson, of Toledo, Ohio. They were accompanied by Chauncey Kreigh and Miss Laura Kreigh.

Mrs. Bert Markley and children, of Griffith, returned Sunday to Ossian, after a week's visit with relatives in McComb, Ohio. They are spending the summer with Mrs. Markley's parents, Mr. and Mrs. O. P. Travis. Mr. Markley will join them the latter part of this month.

Mr. and Mrs. Harvey Prough and Miss Lulu Prough will go to Goshen Friday to attend the Prough reunion.

Mr. and Mrs. Frank Hoopengardner and family, John Koons, Miss Ruth Koons, Lewis Hoopengardner, Mr. and Mrs. Stillman Biddle and family, spent Sunday at Robison park attending Old Soldiers' day.

Mrs. Lon Davis and Miss Cressie Davis have gone to Arkansas for a visit with old friends. They formerly lived there.

Quite a number from Ossian left Monday morning for a week's outing at Lake George. Among those going were Rev. and Mrs. Frank K. Baker, sons Frank and Robert, Misses May Morton, Ida Kreigh, Alta Allen, Wilda Hoopengardner, Levita Hanna, Hazel Byrd, Marie Kreigh, Edith Greeter, Lucina White, Gretchen Hoopengardner, Ruth Turner, Ruby Glass and Miss Dorothy Hoover, of Fort Wayne.

William Hoopengardner and Forest Crummitt motored the young ladies to the lake and all will occupy the Hoopengardner cottages.

Mr. and Mrs. Walker Roe are the happy parents of a new boy baby. Mrs. Roe is at the Lutheran hospital in Fort Wayne and both mother and son are doing well.

The Daughters of Ruth will meet this evening with Mrs. Sarah Foughty. Mr. and Mrs. G. G. Koons and family visited Sunday with Mr. and Mrs. William Comer, of Poe.

First Showing of AUTUMN FASHIONS

AN ANNOUNCEMENT

We are pleased to announce for tomorrow a showing of
PATRIA SUITS
Created by American designers for American women.

These Suits are advance models for fall—the forerunners of the coming season's styles.

PATRIA SUITS

Are designed by the leading suit creators in this country, whose styles have been copied and imitated for years both here and abroad.

Paris, the home of Fashion, does not attempt to dictate suit styles. In fact, Paris copies American suit styles, for the reason that in suits American designers are supreme.

In PATRIA SUITS, therefore, you will see the basis of suit styles for next season.

We extend to the women of Fort Wayne and vicinity a very cordial invitation to attend this event, for it will be both instructive and interesting.

FALL DRESSES

Showing the New Silhouette

A variety of distinct models of fine serges, satins, crepe meters—in the fashionable autumn shades of seal brown, burgundy, taupe, balsam, navy or black.

The High School Girl or College Miss
will be interested in the smart new styles in
NAVY BLUE SERGE
which promise to be more popular than ever for fall.

Stunning Fall Coats

Showing New Materials and Colorings.

The soft, luxurious fabrics with their rich linings, the new collar effects and the beautiful colors are features which will appeal strongly to those who are connoisseurs in the art of dress.

Taupe, Beet Root, China Blue and Brick
are prominent among the fall shades. Havana, rust and golden tan will also be popular.

NEW FALL FASHIONS IN BLOUSES AND SKIRTS

As heretofore, our Blouse and Skirt departments will be the style Mecca for the thousands of discriminating women who have come to depend upon The Gates Store for the smartest and best obtainable in these two important items of dress.

Our Present Showing of Smart Styles

Is unusually comprehensive and is worthy of a special trip down town tomorrow just for the pleasure which a "first view" will afford.

Mr. and Mrs. George Glass, north of Ossian.
Mr. and Mrs. Clint Vananda spent Sunday in Bluffton with the latter's sister, Mrs. James Stogdill.
Mr. and Mrs. Clyde Wagner and Miss Nita Wagner have gone to Auburn for a few days' visit with Mr. Wagner's parents, Mr. and Mrs. G. W. Wagner.
Miss May Wilson returned Sunday from a two weeks' visit with relatives in Pittsburgh, Pa., and in Ohio. She went on duty that evening at the Lutheran hospital in Fort Wayne, where she is a member of the nurses' training class.

REGISTRATION FOR ALL BOYS

All Youths Between 16 and 20 Must Enroll in Boys' Working Reserve.

MONDAY AND TUESDAY DAYS FOR SIGNING

Three Public Speakers Will Explain Purpose at Meets This Week.

REGISTRATION PLACES.

District No. 1.—Hanna school.
District No. 2.—Hoagland school.
District No. 3.—Jefferson school.
District No. 4.—Harnar school.

Week Day Meetings.

Wednesday at 12:30 at plants of Wayne Oil Tank and Pump Co., and Dudio Manufacturing company.
Thursday at plants of S. F. Bowser & Co. and General Electric company.

All boys between the ages of 16 and 20 years, inclusive, in Allen county and Fort Wayne, will register in the Boys' Working Reserve, U. S. A., next week, Monday and Tuesday.

The central school house in each one of the townships in the county will be the registration place in the country and the central school building in each of the four districts of the city will be the registration places. A meeting of the committee and Prof. Justin N. Study was to be held Tuesday afternoon, at which time the places were to be definitely decided upon.

Fort Wayne has been divided into four districts as follows: First district is south of the Pennsylvania tracks and east of Calhoun street; second district, south of the tracks and west of Calhoun street; third district lies west of Calhoun street and north of the Pennsylvania tracks; and the fourth district is east of Calhoun street and north of the tracks.

A. L. McDonald, chief deputy director, met with Superintendent D. O. McComb, Tuesday, to select the men who will be in charge of the work of registration in each of the districts. The names of these men must be forwarded to Indianapolis.

Inauguration Campaign.

Inauguration of the campaign of lining up the young boys of the county and the city will begin Wednesday of this week. Three prominent speakers have been secured who will explain the plan of registration. Prof. T. C. Howe, president of Butler college; John A. Lapp, of the legislative bureau of information, and Prof. Albert Stumpf, all of Indianapolis, will arrive in the city Wednesday morning and on Wednesday and Thursday noon meetings will be held at the General Electric company, S. F. Bowser & Co., Wayne Knitting mills, Wayne Oil Tank and Pump company, Bass Foundry and Machine works and one or two other places.

One of the speakers will appear at each of the places mentioned. Wednesday night the men will speak at Hantentown, Maysville and Leo and arrangements for the Thursday evening meetings have not been completed as yet.

To Fill Places of Men.

The purpose of registration of young boys is to have them take the places of men who are called away to fight. All the boys who register will be examined as to physical fitness and their places assigned to them. Parents are asked to give their consent for the registration of the boys. The registering of the boys is not for a military purpose.

The governor of the state recently issued the following proclamation:

"I appeal to the virile young manhood of Indiana with the thought that every American boy at work opposes a boy in Germany, and in all seriousness remind him that he is facing a man's job, the burdens, hardships and sacrifices of which will increase as the war lengthens. The service to the state and nation rendered by these boys should be regarded by the public as just as useful and patriotic within the limits of the opportunity afforded as the services rendered by the soldier in the trenches."

Registration of boys in the majority of the counties of the state is being conducted this week.

WILL IGNORE

MANY CLAIMS

(Continued From Page 1.)

since the declaration of war cannot give a dependent wife as their claim for exemption. They will be regarded in the same class as the single men.

Figures on Tuesday further bore out the statement that only 20 percent of the applicants are being passed and do not file exemption claims.

Other notices to men in the three city districts are very probable. In District No. 1 it is doubtful and the chairman of the board states that it is his opinion that the 420 men called will be sufficient to get the quota of men from that district.

In this district 63 men have passed the examination and have not asked for exemption. Two hundred and seventy-five men have undergone examination and 145 men still remain to be examined. The board expects to get at least 31 men out of this number who will be eligible for service.

On Account of Religion.

One man Tuesday asked exemption on the grounds of religious scruples. He was Menno Richer, of R. R. 14 out of Fort Wayne. He was examined by the county board in the court house and found physically fit for service.

Refer Names.

All those who fail to make their appearance after being summoned will be referred to the department of justice. In this number are included those who have beat the conscription law and have enlisted.

In District No. 2 the following

names have thus far been referred to this department:

Simon Stucky, 602 West Main.
William L. Myers, 914 High.
Elroy M. Rider, Portland apartment.
Ernest C. Suhl, 1316 McClellan.
Charles L. Newhouse, 120 West Superior.
Walter C. Barnhart, 1022 Huffman.
William H. Sauers, 1018 Fulton.
Carl C. Keiss, 429 Brackenridge.
Henry A. Kibiger, 1332 Elm.
William A. Lemke, 120 West Lewis.
Charles Archer, 219 Douglas.
Charles C. Schroeder, 908 West Main.

Will Get Papers.

All those who are found physically unfit for service will receive a paper stating that they have been rejected. This will be sent to them through the mail some time next week.

One Man Indignant.

One young man who thought he should have been rejected was very indignant, Monday, when the examining physician in District No. 2 called on him. As a matter of fact the young man in question was above the average physically. It was generally agreed that he would make a splendid soldier. He lost no time in claiming an exemption, although single, but the chances are ten to one that his claim will be rejected by the board.

The general public has little conception of the immensity of the work the members of these boards and assisting physicians are doing, all of which is gratis. It is no pleasant job by any means.

The men are being taken in the order that they are being called. There is absolutely no favoritism being shown. No man is being pushed ahead of another, just because he might be in a hurry to get away. All requests to telephone a conscripted man when his turn comes were likewise turned down. It would have kept one man busy telephoning had members of the boards granted the many requests of this kind that were made. Every man is supposed to be in his place when his turn comes. If he is not he must take his turn at the bottom of the list. If he fails to show up he is subject to arrest and the penalty is most severe.

The physical examination is thorough. Few questions are asked. If there is anything wrong with a person the physicians will find it. One man appeared before one of the boards Monday intoxicated. He was accepted.

ITALIANS IN

BIG AIR RAID

(Continued From Page 1.)

flight of 320 kilometers, 160 of which were over enemy territory, without the loss of a single machine.

D'Annunzio, the poet, was aboard one of the larger planes piloted by Captain Gori.

The damage effected was most important. In addition to bombing the arsenal, a naphtha depot and a seaplane station were set afire and burned like paper.

The Italian aviators who kept at an average height of 2,500 to 3,000 yards were able to judge of the extent of the destruction by the enormous sheets of flame and columns of smoke which shot up to a height of 500 yards.

The Austrians were unable during the bombardment to extinguish any fires started by the bombs but they kept up a furious fire of their anti-aircraft guns and thirty of their most powerful searchlights threw a dazzling light over the space where the Italians were flying.

Notwithstanding, the latter cruised over the city for nearly five hours and escaped unhurt and victorious.

THE CABINET

(Continued From Page 1.)

party, whose demand for representation in the imperial and Prussian cabinets for the Roman Catholic population was recognized by the appointment of three Roman Catholics, Spanner, Waldow and Kuehlmann. With revocation of the anti-Jewish and Polish expropriation laws, also part of the centrist program, that party is considered to have done very well as a result of the parliamentary crisis.

While the radical and socialist press is dissatisfied at the absence of any such concession to parliamentarism in the new cabinets and at the failure to consult the reichstag in any way on the appointments, newspapers of the opposite camp are aggrieved at the shelving of Dr. Bezler, Prussian minister of justice; Count Loebell, Prussian minister of the interior, and Baron von Schorlemer, Prussian minister of agriculture and other standard-bearers of Prussian reform.

Not Much Enthusiasm.

The Tages Zeitung shows its dissatisfaction in a short, con-non-committal paragraph of greeting to the new administration and by giving far more space to sketches of the departing statesmen than the principles of the new appointees. Herr Zimmermann, ex-foreign secretary, in an article in the Lokai Anzeiger, scolds Dr. Michaelis for pettishness those tried and trusty officials in favor of political novices of untried worth.

The Vossische Zeitung severely criticizes the appointment of Dr. Helfferich and Dr. von Kuehlmann on the ground that both favor the rapprochement of England and not of Russia as a basis of post bellum policy. It says Dr. Helfferich is Dr. von Bethmann's evil genius in foreign affairs, who first delayed unrestricted submarine operations by getting out statistics and then discredited it by impossible predictions.

Upholds Kuehlmann.

Theodor Wolff, editor of the Tagblatt, scoffs at all the appointments except that of Dr. von Kuehlmann, whom he advises to use his elbows vigorously to gain room to run his own department and prevent intrusion by Dr. Helfferich.

The Lokai Anzeiger also advises a firm policy and holds out as an encouragement the glittering opportunity of leading the premier military power of the world to that just and permanent peace which will be as great a victory for Germany on the diplomatic field as that of Hindenburg on the field of war.

The Anzeiger's adoption of the phrase, "peace by understanding," does not imply any change as it is in the paper which is committed absolutely to a powerful pan-German peace.

AMERICANS

LEARN GAS

(Continued From Page 1.)

countered in the front line trenches. It is a most important branch of the modern training of a soldier that he should be convinced that there are many methods of effectively dealing with the deadliest terrors of latter day warfare: that careless, slovenly and unheeding soldiers are the ones first to succumb.

Can Escape Liquid Fire.

It is even demonstrated to the soldiers that the terrifying liquid fire can be avoided except in most extraordinary circumstances, such as being caught in a tunnel or dugout with the enemy in a position that he can pour flames through the entrances.

In training the Americans regarding the gas, greatest weight is to be laid on demonstrating to each man the value of his protective appliance and seeing that he is fully instructed in its proper use. He will be made to realize, however, that only by skillful and rapid adjustment can protection be assured and that it shall be a daily task with him to see that his appliance is in good condition. Fit must be assured for otherwise the gas penetrates through every small hole and attacks the eyes and mouth so that in a short time the man is put out of action.

Lectures on Gas Warfare.

Lectures on gas are being arranged first for the officers, then for the men, for in gas training officers have to go through identical drills and experiences. Ten seconds will be the outside limit allowed for the adjustment of helmets after the gas alarm has been sounded. The increasing use of gas shells, even from the longest range guns makes the carrying of masks far each of the line an imperative military necessity. The first traces of gas poisoning are a hot mouth and irritation of the throat. Despite fact that the allies have so often proved to the contrary and the terrible deaths allied soldiers died when this hideous mode of warfare was first sprung upon unsuspecting foes by the high command of German army, private soldiers and Germans say the gases are so-called "smelling substances and are not poisonous."

The substances they assert, exert stupefying action and after long exposure have an asphyxiating effect. Under their influence vision is affected. A man subjected to it is forced to close his eyes in a few seconds and can observe nothing. German soldiers admit, however, that "it is impossible to remain in these gases without protection." The exact name of the composition of practically all the German gases is known to the allies and the Americans are obtaining immediately the full results and benefits of all this laborious and dangerous work.

SUMMARY OF THE DAY'S WAR NEWS

(Continued From Page 1.)

came apparent today in the announcement of the opening of a Teutonic offensive in the Fokshani region, near the point where the line turns southward towards the Danube. Petrograd concedes a retirement here and Berlin announces the storming of Russian positions north of Koshkani, with the taking of 1,300 prisoners and thirteen guns.

In Flanders the infantry has continued inactive, but the total silence of the British report on conditions there similar to that preserved while the great bombardment which preceded the initial attack was impending, coupled with the reports of greatly increased air activity, seems indicative of a probable early renewal of the entente offensive. The French report, indeed, speaks of "fairly violent" artillery fighting in Belgium, notably in the Bixchoote sector.

The steady closing in of the Canadian lines along Lens also gives the impression that the time is not far distant when the effort to give the final touch to the process of expelling the Germans from that coal city will be launched.

In the Champagne the French are carrying out important raiding operations and last night penetrated the German lines at three points, bringing back prisoners. General Petain's artillery broke up a spirited attack by the crown prince in the Verdun region, between Avocourt wood and hill 304, inflicting severe losses.

STATE COUNCIL OF DEFENSE SUGGESTS DRASTIC MEASURES

(Continued From Page 1.)

Ohio to discuss with them plans for uniform action on coal prices.

INDIAN AIS WATCHING.

Indianapolis, Ind., Aug. 7.—Indiana state officials are known to have been watching with much interest today's meeting of the Illinois state council of defense, at which the coal question was discussed. The same officials have known for several days that a joint conference of governors is being arranged, they said, the purpose of the conference being to decide on some concerted action to get more reasonable coal prices.

Although Governor Goodrich has refused to discuss his recent conference with Governor Lowden, of Illinois, at Chicago, it has become known they reached some kind of an agreement on a proposed coal law. ANOTHER SHIFT BY BRITAIN IN THE ADMIRALTY

London, Aug. 6.—(Delayed.)—Official announcement was made at the admiralty tonight that Admiral Sir Cecil Burney, second sea lord, had been replaced by Vice Admiral Sir Roselynn Weymss. Allan Garrett Anderson, hitherto vice chairman of that commission, succeeded Sir Eric Campbell Giddies, the new first lord of the admiralty, as controller of naval construction.

PROFITS OF EXPRESS ARE STILL SLUMPING

Washington, Aug. 7.—Continued decrease in profits of express companies is shown in statistics covering operations for April. Operating income for all companies for April was \$460,950, a falling off of more than 60 percent from the figure of April, 1916. This showing was due in the face of increased gross revenues of approximately \$2,600,000. The total for last April reached \$18,322,708. An increase of approximately 30 percent in operating expenses within the year, or from \$7,000,000 to nearly \$9,000,000, accounts for the reduction in profits. Only two companies, the Northern and Southern, show increases in profits for the last April over April, 1916. One company, the Adams, operated at a deficit.

GIVE BOYS ROOM.

Automobiles must not be parked in front of the Utility building, police have ordered at the request of Mayor Hosey. The space is needed for the young men of the signal corps, who have made the lower floor of the building their headquarters, for drill practice. "No Parking" signs have been put in front of the building.

WANTS HIS ARMY "BRITCHES."

Princeton, Ind., Aug. 7.—Among the men accepted here by the draft board is George Lane, colored. Lane, after he had been assured that he was physically fit for the army, became jealous and inquired: "Now, boss, when does I get my new britches?" The filling of this (Gibson) county's quota of 288 men probably will be completed tomorrow.

RODE AGAINST ELECTRIC.

Robert Rogers, aged 14, was wounded about the head and his leg badly bruised when he rode his bicycle against an electric automobile, on Broadway Monday evening. The youth was holding to the side of an automobile, driven by Jack Lisk, Greeley street. The automobile passed near the electric car and the lad was knocked off his wheel.

PRELIMINARY HEARING FOR ALL CANDIDATES

Scott C. Wilson, of Chicago, Examining Men Who Wish to Become Citizens.

All foreign born residents of Fort Wayne who have taken out their second papers of naturalization and who are eligible for a hearing on September 4, are being given a preliminary hearing and examination in the county clerk's office by Scott C. Wilson, of Chicago.

Mr. Wilson is examining all those who must appear in court in September, when they become naturalized citizens, provided they pass the examination.

The preliminary hearing all those who were born in either Germany or Austria are being asked: "Who do you want to see win this war, Germany or the United States?"

BUDGET IS LARGER.

The board of county commissioners have prepared their budget for the year 1918. This will be presented to the county council at its session in September. The amount is \$350,000 and is slightly larger than in former years due to the fact that the expense of the election next year will be larger than in former years. The state street bridge appropriation is also included in the budget.

Want Property Sold.

The State of Indiana ex. rel. Will Johnson, the county auditor, has begun suit against the Metropolitan Telephone and Telegraph company, asking for \$500. It is alleged that this company has failed to pay its taxes for the past three years. It is asked that an order be given for the sale of property.

Sue for Rent.

The Olmstead Automobile company has filed suit against Charles Alby alleging that \$800 is due them. The plaintiffs state that the defendant owes them \$470 rent for the building at 260 West Main street.

Charges Abandonment.

William H. France has begun suit against Ellen France for divorce charging that she abandoned him in 1907 and that he has not seen her since. He also sets forth that she treated him cruelly before she left him.

Cleaning Court Room.

Workmen are engaged in giving the superior court room a thorough overhauling. In the meantime court is being held in court room No. 2.

Marriage Licenses.

Walter J. Thiemecke, minister, to Anna H. Deuter.

Paul Scheele to Martha Mermuth.

MISSIONARY SOCIETY MEETS.

The Woman's Home Missionary society of the Trinity M. E. church, will meet Wednesday at the church for an all day sewing session.

THE MARKETS

GENERAL RAINS HAVE BEARISH INFLUENCE

Corn Prices Lower on Reported Benefit to the Growing Crop.

Chicago, Aug. 7.—General rains gave the bears an advantage today in the corn market.

Opening prices which ranged from 1/4 to 1/2 lower, with December at \$1.16 to \$1.16 1/2, and May at \$1.13 to \$1.13 1/2, were followed by a slight setback, and then a reaction to a little above yesterday's finish.

Increased arrivals of new wheat had a bearish effect on that cereal. After opening unchanged to \$2.25 for September, the market reacted to \$2.24 1/2.

NEW CORN APPEARS

ON LOCAL MARKET

"Roasting Ears" Selling at
25c Per Dozen—Old
Corn Drops.

One feature of the retail street market in Fort Wayne this morning was the appearance of new corn, "roasting ears," which were being sold on the retail market on Barr street at 25 cents per dozen.

Receipts at the city scales Tuesday morning were extremely light, only ten loads being weighed in all. Of these, four were new hay, which sold for \$10 to \$12 per ton. This was an increase of \$1 per ton over both the minimum and maximum prices of the day before. No old hay was received Tuesday. Two loads of corn, were weighed, the price again receding to the \$2 mark, after the increase of the day before to \$2.10. Four loads of oats sold for 73 and 76 cents per bushel.

Charles Miller, fined \$5 and costs; Gust

Hohnbry, fined \$5. George Smith and Guy Gaskill were released. Christ Barison will be tried on Wednesday.

George Bailey, colored, was released

from a charge of fraudulently obtaining house keeper after he had agreed to pay \$2 of a \$5 board bill.

"How much money have you?" fairly

shouted Judge H. W. Kerr into the funnel receiving instrument which the woman formed by holding her hand to her right ear.

"That is not enough to pay your fine,"

called the judge. "I wasn't calculatin' on payin' no fine," replied the woman.

Judge Kerr affixed a penalty of \$1 and

costs, which will amount to \$11. "Next time there is a row at that house we will send down and get all you folks and the furniture," screamed the judge into Mrs. Morris' ear.

"You won't find much furniture,"

smiled the defendant. Mrs. Thomas Smith, who has been in court many times and who was a part of the rowdy party, was fined \$10 and costs.

Is Going Back.

Jake Long, colored, won his case because his paramour, Daisy Long, is missing from the city. Daisy and Jake had a turbulent misunderstanding on Sunday morning and police were called. Jake was taken on an assault and battery charge and Daisy was held under bond as a witness. The woman jumped her bond.

No assault case could be sustained

against Long in the absence of the woman. The man was tried on a disorderly conduct charge and was convicted. He was granted an indefinite suspension of sentence upon his promise to return to Tennessee.

Other Police Court Cases.

Lavon Sawmiller and Dean Protzman are held for Lima, O., police, who will take the lady on a larceny charge.

Eugene Travis, colored, pleaded guilty

to stealing 75 cents from the Fisher bath house. He was fined \$10 and sentenced to twenty days in jail.

City Physicians Explain Why They Prescribe Nuxated Iron To Make Beautiful, Healthy Women and Strong Vigorous Men NOW BEING USED BY OVER THREE MILLION PEOPLE ANNUALLY.

Quickly Transforms the flabby flesh, toneless tissues, and pallid cheeks of weak, anemic men and women into a perfect glow of health and beauty—Often increases the strength of delicate, nervous, run-down folks 100 per cent in two weeks' time.

New York, N. Y.—It is conservatively estimated that over three million people annually in this country alone are taking Nuxated Iron. The astonishing results have been reported from its use both by doctors and laymen, that a number of physicians in various parts of the country have been asked to explain why they prescribe it so extensively, and why it apparently produces so much better results than were obtained from the old forms of inorganic iron.

Extracts from some of the letters received are given below:

Dr. Ferdinand King, a New York physician and Medical Author, says: "There can be no vigorous iron men without iron. Failure means anemia. Anemia means iron deficiency. The skin of anemic men and women is pale. The flesh flabby. The muscles lack tone, the hair falls and the nervous system often becomes weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks."

In the most common foods of America, the starches, sugars, table syrups, candies, polished rice, white bread, soda crackers, biscuits, macaroni, spaghetti, tapioca, sago, farina, degenerated cornmeal, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these impoverished foods, and silly methods of home cooking, by throwing down the waste-pipe the water in which our vegetables are cooked are responsible for another grave iron loss.

Therefore, if you wish to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron just as you would use salt when your food has not enough salt.

Dr. A. J. Newman, late Police Surgeon of the City of Chicago and former House Surgeon, Jefferson Park Hospital, Chicago, in commenting on Nuxated Iron, says: "It has been my particular duty during the past six years to assist in keeping Chicago's five thousand blue-coats in good health and perfect fighting trim so that they would be physically equipped to withstand all manner of storms and the ravages of nature's elements."

Recently I was prompted through an endorsement of Nuxated Iron by Dr. Schuyler C. Jacques, Visiting Surgeon of St. Elizabeth's Hospital, New York, to give it a trial. This remedy has proven through my own tests of it to excel any preparation I have ever used for creating red blood, building up the nerves, strengthening the muscles and correcting digestive disorders.

Dr. E. Sauer, a Boston physician who has studied with both in this country and in great European Medical Institutions, says: "As I have said a hundred times over, organic iron is the greatest of all strength builders. If people would only take Nuxated Iron when they feel weak or run-down, instead of dosing themselves with habit-forming drugs, stimulants and alcoholic beverages I am convinced that in this way they could ward off disease, preventing it becoming organic in thousands of cases and thereby the lives of thousands might be saved who now die every year from pneumonia, grippe, kidney, liver, heart trouble and other dangerous maladies. The real and true cause which started their diseases was the lack of iron in the blood."

OFFICE HOURS DR. FERDINAND KING
346 WEST NEW YORK

Nuxated Iron (Syn)
Sig: 2 or 3 times a day
King N.Y.

Not long ago a man came to me who was nearly bald, and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man; in fact a young man he really was notwithstanding his age. The secret, he said, was taking Nuxated Iron. He had filled him with renewed life. At 30 he was in bad health; at 40 he was careworn and nearly all in now at 50, after taking Nuxated Iron, a miracle of vitality and his face beaming with the buoyancy of youth.

Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good, and as a consequence you become weak, pale and sickly-looking, just like a plant trying to grow in a soil deficient in iron. If you are not strong or well you owe it to yourself to make the following test: see how long you can work or how far you can walk without becoming tired.

Next take organic tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. I have seen dozens of nervous, run-down people who were all at the while doubting their strength and endurance, the entirely old themselves of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit.

But don't take the old form of reduced iron, iron acetate or tincture of iron simply to save a few cents. The iron demanded by Mother Nature for the red coloring matter in the blood of her children is, alas! not that kind of iron. You must take iron in a form that can be easily absorbed and assimilated to do you any good, otherwise it may prove worse than useless. Many an athlete and prize-fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the ring, while many another has gone down in inglorious defeat simply for the lack of iron.

Dr. Schuyler C. Jacques, Visiting Surgeon of St. Elizabeth's Hospital, New York City, said: "I have never before given out any medical information or advice for publication as I ordinarily do not believe in it. But in the case of Nuxated Iron I feel I would be remiss in my duty not to mention it. I have taken it myself and given it to my patients with most surprising results. And those who wish quickly to increase their strength, power and endurance will find it a most remarkable and wonderfully effective remedy."

Dr. N. H. Hornstine, for ten years in the Department of Public Health and Charities of Philadelphia, said: "After carefully examining the formula of Nuxated Iron I realized that here at last was organic iron—the only kind I could conscientiously recommend, prepared in such a way with other ingredients as to be easily assimilated and calculated to act as a quick revitalizer of the blood and a true strength builder. Its administration in a number of cases where other tonics had utterly failed only served to convince me absolutely of the remarkable and unusual power of Nuxated Iron. When I personally took it I found the rapidity with which my energy and endurance increased most surprising. In my opinion the widespread use of Nuxated Iron is bound to make a nation of stronger men, lovelier women and healthier children."

Nuxated Iron, which is prescribed and recommended above by physicians in such a great variety of cases, is not a patent medicine or secret remedy, but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians both in Europe and America. Unlike the old inorganic iron products it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion as well as for nervous, run-down conditions. The manufacturers have a sure cure for Nuxated Iron, that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron, and increase their strength 100 per cent or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund the money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by all good druggists. FOUR-YEAR-OLD GIRL STRUCK BY AN AUTO

Elanor Baldwin Suffers a
Broken Hip Joint in an
Accident on Spy Run.

Eager to see her mother, little four-year-old Elanor Baldwin, daughter of Mr. and Mrs. L. J. Baldwin, of 1315 Spy Run avenue, jerked away from her father when they alighted from a street car at Spy Run avenue and Wagner street at 8:10 o'clock Monday night, ran around the rear of the car into the path of an automobile driven by James Keller, a farmer residing near Auburn.

The little girl was struck by the slowly moving machine and thrown to the pavement with a broken hip joint. She also was bruised about the head. The father picked up his injured daughter and carried her to the home. The mother was beside herself with grief and scores of neighbors flocked to the home. The attending physician ordered her removed to St. Joseph's hospital.

Mr. Keller stopped his car and went to the Baldwin home and later he reported the accident to the police. He again returned to the Baldwin home. In the machine with Mr. Keller were his wife and Mr. and Mrs. Louis Piper, of Coshocton, O.

FRENCH BREACH FOE'S FRONT IN THREE PLACES

Paris Officially Announces Success of Hard Thrusts Delivered in the Champagne.

RUSSIAN WAR SITUATION MUCH MIXED

Paris, Aug. 7.—French troops last night broke into the lines of the German crown prince on the Champagne front at three places inflicting losses on the Germans and bringing back prisoners, it was officially announced by the French war department.

A Teuton attack between Avo-court wood and hill 304, in the Verdun sector was driven off with heavy losses to the Germans. There were fairly violent artillery duels in the Bixchoote sector of the Belgian front and between Hurlibese and Craonne, north of the river Aisne.

AMERICANS LEARN GAS

Kishinev, Russia, Aug. 7.—Austro-German troops between the Dniester and the Puth have been thrown back on the front ten miles from Chotin, according to news from the battle area reaching here. Chotin is at the junction of the Zbrocz and Dniester rivers on the Galician-Russian frontier.

Petrograd, Aug. 7.—In the direction of Kimpoling in Bukovina, Austro-German forces, after a battle with the Russians, occupied the heights at Molit, says the official announcement issued today by the Russian war department.

In the region of the river Bystritsa two Russian regiments voluntarily left their positions, causing the Russian troops to retire a few miles.

South of Grimalov the Russians drove back the Teuton advanced posts.

In the region west of the river Zbrocz on the Russian-Galician frontier, Austro-German troops, the statement adds, are hastily gathering the harvest.

In the direction of Pokshani, on the Rumanian front, the forces of the central powers and their allies began an offensive and pressed back the Russian-Rumanian troops across the river Tyrladeaus.

HAS FAITH IN RUSSIA

Elihu Root Says Trouble is No Greater Than in America.

DISTURBANCES ARE MAGNIFIED IN NEWS

American Race Riots, I. W. W. and the Like Would Seem Big There.

Chicago, Ill., Aug. 7.—Elihu Root, who, with other members of the American mission to Russia, which has completed its work, was in Chicago today and said that as a matter of fact there is scarcely more disorder in Russia than there is in the United States.

"Certain disturbances are inevitable in a change of government so radical as that of Russia," said Mr. Root, "and cable dispatches deal largely with these disturbances. Hence the public has gathered an impression that there is little going on in Russia except demonstrations."

"As a matter of fact if reports on American affairs disseminated in Russia concentrated on our own little disturbances—race riots, the I. W. W. and the like—Russians would have about the same picture of us as we have of them. I have faith in the new Russian ministry and in the Russian future as an important element in the aims of the allies."

"Russian women are doing a wonderful work in shaming the men into fighting and where necessary I hope American women will follow their example."

SOLDIERS NOW IN FRANCE WILL GET THEIR VOTE

Washington, D. C., Aug. 7.—American citizens in France as members of the expeditionary forces will be privileged to vote at the fall elections, provided their respective states establish the necessary overseas voting machinery.

Provost Marshal General Crowder, in a ruling on the subject holds that there is no bar to any citizen part.

Summary of the Day's War News

The Russian war front situation continues complex with Russian troops offering spirited resistance and driving back the Austro-German forces in some sectors and weakly yielding in others.

Ten miles from Chotin, just beyond the extreme southeasterly corner of Galicia, the Teutonic armies have been forced back, according to advices from Kishinev today. Petrograd also officially reports the driving back of enemy advance guard south of Grimalov.

In Bukovina and on the river Bystritsa, on the other hand, the Russians have been forced to yield more ground, in one case because of the voluntary retirement of two regiments.

Further south in Rumania, a further menace to the entente lines be-

Selection boards in the city are authorized for the fact that in all probability practically 10 per cent of the exemption claims will be turned down.

Members of the three city boards state that many of the claims will not stand.

Many of the foreign born element who pass the examination are filing exemptions on the ground that they are supporting a wife or a mother in the "old country." Other young men who reside here who are endeavoring to evade service are stating that their mother is partially dependent upon them. All those men who married

House of Young Seminole Who Made Arrest is Destroyed.

A report today from Seminole, Hughes and Pontotoc counties indicated the night passed without disturbance. The wounding of William McEwen, deputy sheriff, while guarding a railroad bridge at Wetumka, and the capture of John Harjo, notorious Snake leader of the Indian working class union membership of Seminole county, and the confession of Mate Harris that he ordered the burning of a bridge near Francis, were late developments of the night.

The home of Chief Parney Fixico, known as "Snake," the young Seminole who captured "Bud" Manaley in woman's clothing, near Saskwa, Saturday night, was reported to have been burned early today.

Y. M. C. A. GIFT OF TOBACCO FOR SOLDIERS LOST

Washington, Aug. 7.—The Young Men's Christian Association's shipment of tobacco for the American troops in France has been lost. Word came from Paris today from the Red Cross commission to France saying no suitable tobacco to replace the lost shipment was obtainable there and urged that ten tons of tobacco be sent at once.

The Red Cross war council immediately accepted an offer of the Liggett & Myers Tobacco company to donate 1,500,000 cigarettes, 20,000 packages of smoking tobacco and 10,000 cuts of chewing tobacco which will be forwarded to the American troops at once. France has agreed to admit the tobacco free of duty as well as all other articles for the American soldiers.

STATE COUNCIL OF DEFENSE SUGGESTS DRASTIC MEASURES

Eminent Lawyer Declares Executive of State Has Authority to Take and Operate the Mines.

DEMANDING RELIEF FOR THE PEOPLE

Chicago, Aug. 7.—Seizure and operation of Illinois coal mines by the state for the benefit of the consumers, was suggested today at the meeting of the Illinois state council of defense as a solution of the coal problem, if the coal mine operators refused to lower fuel prices.

Reporting behind closed doors to the state council, Levy Mayer, Chicago lawyer and chairman of the council committee on law and legislation, told the council that the governor has the power to seize the coal mines and operate them if necessary, unless the operators agree to equitable prices for their output.

Operators have protested that the prices arranged at the recent federal conference from \$2.75 to \$3.75 at the mine mouth should not be disturbed.

It was said that the question of seizing the coal mines and operating them under state authority had been presented to Governor Frank O. Lowden. In presenting the report of the company numerous citations were made supporting the constitutionality of the state taking over the operation of the mines.

Presentation of the sensational plan to obtain cheaper fuel met with long discussion. It was considered probable that a similar suggestion would be made to the governors' conference, which has been called for an early date to consider the question of supplying the consumers of eight states in the middle west with fuel at a reasonable price.

Governor Lowden has agreed to meet the governors of Indiana, Michigan, Wisconsin, Iowa, Missouri, Kentucky and

DR. KUEHLMANN IS NO SECOND FIDDLE

Foreign Secretary Not Apt to Be Content With a Figurehead Job.

Copenhagen, Aug. 7.—Will Dr. von Kuehlmann or Dr. Karl Helfferich, vice chancellor, be the real director of foreign policy under the administration of Dr. Michaelis, the imperial German chancellor? This is the political problem of the hour in connection with the shake-up of the cabinet in Germany.

It is known the versatile Dr. Helfferich desires to have a hand in steering Germany's new course in world politics after the war and it is rumored that the new chancellor, unacquainted as he is with international affairs, desires to retain the ex-bank director (Dr. Helfferich) as his chief adviser and mouthpiece particularly for this field.

In fact, one of the avowed reasons for Dr. Helfferich's retention, despite his present unpopularity in the reichstag, was that his services are indispensable in peace negotiations.

Predicts a Conflict.

The Berlin Tageblatt, the Lokal Anzeiger and the Vossische Zeitung all refer to the possibility of a conflict as Dr. von Kuehlmann, it is understood, is disinclined to permit himself to be relegated to a subordinate place. A feature of the shake-up is the consideration shown the Catholic center

WITHOUT EQUIPMENT.

Company C, Fourth Infantry, in Camp at Huntington.

Huntington, Ind., Aug. 7.—Huntington's first war camp since the days of the civil war was established at the fair ground Sunday for Company C, Fourth Indiana Infantry. At 11 o'clock Sunday morning ninety-one enlisted men, three recruits and three officers had reported at the camp. The original order had been for the men to report in the afternoon, but it was changed on Friday, when a report for present and absent members at 11 o'clock Sunday was received. Most of the other forty-eight enlisted men and eight recruits reported before Sunday evening.

This morning active training was started under the direction of Captain P. E. Livengood. The men have not been provided with clothing or equipment of any kind, and the entire time was spent in drilling foot movements and military courtesy. The out-of-town men are sleeping on cots and mattresses lent by citizens of Huntington.

Charles F. Brown, first sergeant of the company, and Miss Sylvia Marie Smethers, of near Warren, were married Saturday. They became acquainted last spring, when Brown sought recruits for the company in Warren.

A committee of the Commercial association has issued an appeal to citizens of Huntington and Washburn counties to contribute a \$3,000 company fund.

The W. C. T. U. will make comfort bags for the boys and give them bibles.

TENTING ON GOLF LINKS.

Company H, of Warsaw, Has Nearly 170 Enlisted Men.

Warsaw, Ind., August 7.—Company H, I. N. G., of Warsaw, is encamped on the Winona golf links, two miles east of Warsaw, awaiting orders to entrain for some concentration point. Company H, which has nearly 170 enlisted men, and is one of the largest guard companies in Indiana, was mobilized on Sunday and spent the day establishing its camp. Twenty-two large tents for the men, four tents for officers and the cook's shack constitute the little tented city which sprung up within a couple of hours on the site previously selected. Company H was one of the few companies in the state with sufficient tentage to accommodate its men. Less than one-half of the men, however, have uniforms or are armed.

DEATHS AT HUNTINGTON.

Huntington, Ind., Aug. 7.—Mrs. Sarah Anna Fitch, aged 77, died Saturday morning at her home in Andrews. She was born in Hendricks county and lived in Marion and Washburn counties before moving to Huntington county thirty years ago. Five children, Mrs. Maggie Carter, of Upland; Mrs. Lizzie Wintrobe, of Dodson, Montana; Mrs. Jefferson Myers, of Andrews; Everett Fitch, of Huntington; and Elmer Fitch, of Andrews, survive.

—Mrs. Lucy M. Gers, aged 73, died at her home, one mile west of Huntington, Saturday morning. She was born in Bartholomew county and until eleven years ago lived at Monterey, Ind. Five of ten children survive. They are: William H. Gers, of Chicago; Anthony Francis Gers, of Huntington; Mrs. Harriet Ann Book, of Monterey; George G. Gers, of Huntington; and Mrs. Zoney Spruill, of Huntington.—Mrs. Isabelle Spruill, aged 74, died Friday at her home on the Huntington-Wells county line. The husband and two children, Mrs. Lucinda Masterson, of Wells county, and Henry Spruill, of Bluffton, survive.

TEACHER IN BAD.

Huntington, Ind., Aug. 7.—Martin Hoffman, a teacher in Huntington college, pleaded guilty to a charge of keeping an unlicensed dog. When he made out a check for the fine he wrote "One dollar for fine, \$10.50 for graft." Before Martin reached his home, a constable from the court of Squire L. H. Jackman, to whom he had given the check, overtook him. Jackman assessed \$5 fine for contempt of court, and \$12.50 fee for the constable. Hoffman offered another check for the entire amount, but the justice of the peace refused, and Hoffman paid cash.

TUESDAY, AUGUST 7, 1917.

THEY WILL COME FASTER LATER.

America is new in the war. A considerable part of the great body of the people scarcely realizes that America is in the war. They will not realize it until war has in some way laid its hard and heavy hand upon them and they have joined their efforts in some sort of service. A year hence it will be different. So far we have been engaged with the preliminaries of war; getting ready to make war. All this is tame, unheroic and commonplace as contrasted with the madness of combat and the poignancy of suffering in Europe.

After we have begun to fight and have been forced to suffer and it is made clear that our part in the war is to be no mere service of money the nation will awaken to the fact that our share in this great conflict must mean to us just what war has come to mean to other nations that have felt its sear and blight. For the present we are safe from invasion. We may remain safe from invasion. We shall escape the multiplied horrors, the unspeakable atrocities that have blasted Belgium, parts of France, Poland, Serbia and Rumania, and the hunger, starvation and death that have stalked supreme and ruthless in so many parts of the world, but we shall come at length to know the costly sacrifices that war exacts from all who go into war. Our time for realization of the rough concrete facts of war has not yet come, but will sweep bloody and terrible into our understanding full soon.

With this in mind we may look with better understanding at the reluctance of many young men summoned before the draft boards to enter service, the efforts of relatives and other friends to enlist interest and influence to gain exemption for conscriptables. It is pointed out that so far as the work of selection for the army has proceeded the percentage of exemptions has a very close correspondence with the percentage that obtained during the latter months of the civil war when conscription was resorted to to fill the levies. There is, however, the difference that the drafts came on in the 60's at a time when the nation was war weary and its sacrifices had been heavy and terrible, whereas the present draft comes at the outset before the nation has been called upon for any sacrifice whatever. Still, it is not in any high degree probable that progress of the war will make appreciable difference in the number of young men who because of dull spirit of nationalism, love for ease, fear of battle or consciousness of hostile sympathy seek to escape service in the army. But progress of the war will make a great difference in the minds and hearts of many young men who now are reluctant to serve because they believe they are not needed so much in the field as they are needed at home and their families and their friends will undergo the same changes of spirit. The stress of the nation will rouse them and they will be as ready to serve as their friends and families will be anxious that they shall serve.

There, too, will come a better understanding and appreciation of the nature of the selective conscription law, ignorance of which no doubt has made a great many feel unfriendly if not uncompromisingly hostile to it. The innate democracy of this principle of national service that imposes duty upon all who are physically fit for it and are held by no paramount obligations to other tasks will become more fairly weighed and considered after awhile, resentment will subside where there has been resentment and readiness for service will become the more general spirit.

THE BOYS' NATIONAL RESERVE.

It is a fine opportunity for national service that is coming to the boys of this country in the organization of the Boys' Working Reserve. Youth from 16 to 20 years of age are eligible to the ranks of the auxiliary army that is to be recruited for non-military service. They will not be required to go out of the country and a great many of them will not

be required for service in unfamiliar ways. All of them will have the proud consciousness of aiding their country and supporting their government in ways that are just as vital if not as thrilling as duty in the field.

While the strong young men go to the front to fight they leave behind them the tasks they put aside to bear arms for the government. These tasks must be fulfilled, their work must go on. It is that there shall be no suspension or impairment of the nation's industry and no cutting down of its production that boys are now to be called to the colors for work here at home. The lads who enlist for this service will be doing great things for their country—things without which the country would become weakened and made the more readily the prey of its enemies. That would not do. As the nation goes along in the war it must become stronger in all its resources and the youth who are not old enough to fight can help bring this about by giving themselves to the work that many men who are older have put aside in order that they may do the fighting.

This Boys' Working Reserve will be a fine thing for thousands of boys who have not yet learned much about work, who do not appreciate the "dignity of labor, the long pedigree of toil" and who have not yet fully come to understand that the essential quality of manhood is usefulness and the fundamental quality of citizenship is service. In the Reserve they will not only learn to work but will cease to dread work as hardship and without dignity as some of them—though not many we feel sure—perhaps look upon it. They will catch the spirit of service to home and country and their patriotism will become a precious thing to them because, just as soldiers in arms laying down their lives if need be, they are doing something for the strength of their government, for the honor of their country and for the good of all.

Boys who join the Reserve will put nothing but good into this service and they will get nothing but good out of it. They will be in the service of the government, they will be carefully trained for the things they have to do, they will be conscientiously looked after, their physical and moral welfare will be objects of the greatest care, they will be put in the way of earning money and they will be "doing their bit" just as nobly and truly as men who fare upon the great adventure in the flaming blast of war. It is an opportunity and a privilege.

WORTHY FASHION, BUT FUTILE.

If the state of Missouri is indifferent to the quality and manner of her representation in the United States senate, the balance of the nation is helpless to ease itself of the incubus of Stone and Reed. It will be a pity and something of a shame if the democrats of Missouri shall go on content to bear the onus of responsibility for these two men in the chamber of the senate, though it is conceivable that in a pinch enough of them might join at proper seasons with forthright republicans of that commonwealth to do a decent thing.

Senator Stone has been somewhat subsident since the days of early spring when he won the oburgations of the country by the heat of his zeal to serve Potsdam and has given support to most war measures. Senator Reed has been consistently violent in his opposition to everything that has pertained to national security and support of the president's program for prosecution of the war. It is his desert to be denounced and marked for the kind of citizen and description of senator he is, but it may be doubted if that will greatly serve now. There is no way to head him off except by such means as the senate itself has power to apply within rather narrow latitude.

However, if anyone here or there or elsewhere feels like taking a kick at James A. Reed, of Missouri, he is fair game and it is a good fashion likely to become more and more fashionable. So, if it does no good immediately, it discloses a salutary state of mind in the country and sets an example of which Missourians in due time may take note.

There is no argument made for conserving fruits and vegetables for winter use that is not more familiar to every capable housewife in America than any words the professional writers and federal experts can put on paper. The women who know about it are busy.

The senate just can't give in and get its part of the war job done. Allowing for the effervescence that must escape in verbal spume, there are half a dozen reasons from three or four states why there is no hurry.

Let there be no slacking by the housewives of the land in the duty of conserving food. That is a labor of patriotism that involves no sacrifice unless it be sacrifice of ease—which always is a more or less good thing.

And lo! this goodly typewriter
Hath pounded off this rhyme,
Before I knew that it was done—
All in so short a time.

For look you, sirs, this typewriter
The while I dreamt of beer,
Hath made me sing its own due praise—
Gadzooks, but this is queer!

I did not know—I could not tell—
My eyes were all a-blur—
I dreamt of beer, yet SEE WHAT'S DONE
By this rare typewriter.

TO DIRECT SOLDIERS' RECREATION.

(South Bend Tribune.)

The resignation of F. B. Barnes from the position of municipal recreation director in South Bend takes from the city one of the most active and most inspiring characters who has ever been in the city's service. Temporarily placed in charge of recreational work for the soldiers in Fort Riley, Kansas, he discovered his services will be required for many months to come and that in justice to the recreational work in South Bend his place must be permanently filled. Mr. Barnes did wonders for this work. He was an inspiration to young men and young women and they gathered about him in a helpful spirit and for the personal benefits they realized would result from their participation. While the city cannot afford to lose Mr. Barnes it must realize that he has set an example in recreational work that should be a fine example for whoever succeeds him.

Red Cross Sanitary Bureau

Following its policy of caring for the health not only of the soldiers and sailors of the United States, but as well that of the civil population, the American Red Cross has established at Washington a bureau of sanitary service which will supplement and assist federal, state and local health authorities in meeting sanitary emergencies created by the war. The work of the bureau will center in the civilian areas surrounding army cantonments.

While sanitary control of national army cantonments, national guard camps and naval bases will be exercised by the military authorities, the districts immediately adjoining these camps will be under no such jurisdiction. Yet the assembling of large bodies of troops will create new sanitary conditions. These must be met to safeguard the health of civilians as well as of soldiers.

The problem of milk supply, for example, will be greatly enlarged. The supply itself must be doubled and sometimes tripled, and this means increased forces for inspection. In the southern states, where malaria is a danger, the Red Cross has already undertaken efforts looking toward the extermination of mosquitoes. They must be eliminated not only in the camps proper, but in the surrounding country. Cleaning up pools and other breeding places within a mile radius of camps will mean covering from fifteen to sixty square miles.

When local health authorities are insufficiently equipped to meet these added problems, the Red Cross will offer the assistance of its bureau of

sanitary service. It will take the field only upon invitation of the local organization in charge of sanitation. The public health service will act as the advance agent, deciding in conjunction with the local authorities what measures are necessary and how much equipment it will take to meet adequately the new conditions.

Whenever requested by state authorities, coupled with a recommendation of the public health service, the Red Cross will furnish any important military area with a sanitary unit. This will consist of the required number of bacteriologists, supervising and subordinate sanitary inspectors, public health nurses and assistants. The Red Cross unit will be prepared to furnish this unit with equipment and maintenance, including laboratory equipment, transportation and such supplies as disinfectants and screening to enable the unit to carry out the requisite sanitary precautions in their homes.

W. H. Frost, surgeon of the public health service, has been assigned by the surgeon-general, at the request of the Red Cross war council, as director of the bureau of sanitary service. Dr. Frost is one of the leaders of his profession and has had wide experience extending over thirteen years in the public health service.

He was in New Orleans during the yellow fever epidemic of 1905, and has studied poliomyelitis in Buffalo and Batavia, N. Y., in Iowa and in the New York epidemic of last year. He was also connected with the hygienic laboratories, which studied the pollution of the Potomac river and also of the Ohio river.

ENEMY AGENTS TRY TO KEEP BOYS OUT OF WORK RESERVES

(By the State Council of Defense, Through its Publicity Committee, George Ade, Chairman.)

Enemy alien influence, working in several Indiana counties, is attempting to prevent the successful enrollment of Indiana boys in the United States Boys' Working Reserve. Marion, Hamilton and Hancock counties have been visited within the past week by representatives of the United States department of labor and secret agents of the department of justice for the purpose of identifying those responsible for the dissemination of this vicious misinformation. Arrests will follow the apprehension of the guilty.

Pro-kaiser agents are telling parents that the boys' reserve is a military organization that has for its purpose the conscription of the youth of the country, who once they are enrolled will be forced into armed service against their will.

This is one of the most specious bits of treasonous propaganda that have been uncovered up to this time. The boys' reserve is first of all an entirely non-militaristic institution. Its sole object is to replace the old men who have been enrolled in the United States army. Service in the organization is purely and entirely voluntary. The request of the parent guarantees the immediate release of the boy worker, without vexatious red tape and delay.

The secret of reduced cost of living is in increased production as much as in the regulation of distribution.

Increased production depends directly upon a sufficient force of workers in the field.

What more patriotic duty could the American boy engage in than assisting in the big task of feeding the army

and Uncle Sam's allies by keeping up the supply of laborers in agriculture? Give the lie to the kaiser's agents, boys, by enrolling at once!

This is enrollment week in the United States Boys' Working Reserve.

Boys find out what is expected of you, then obey your conscience and your call to duty and enroll now.

GERMAN TROUBLES.

(New York World.)

Whether the new German chancellor favors a peace without annexations and indemnities or a peace with annexations and indemnities is of no importance outside of Germany.

When peace comes, nobody will have less to say about the terms than the German imperial chancellor, no matter who he may be. Should Germany win, the military autocracy will dictate the provisions of the treaty. Should Germany lose, the allies will name the conditions of peace. In neither case will the German chancellor be a deciding factor.

In 1871 Bismarck, with all his power, could not control the general staff. He opposed the annexation of Alsace-Lorraine and clearly foresaw the consequences of it, but the military authority was in the saddle and the military authority had its way. There is far less civil government in Germany today than there was in 1870. In fact, there is no civil government at all. Germany is ruled by a military dictatorship headed by Ludendorff and Hindenburg, and their will is law. Chancellors at best are only figureheads.

In a dispatch from Washington to the World it is stated that "no well-informed adviser of the administration believes the reform promises made through the kaiser should be treated seriously." They are to be treated seriously to this extent and no further—namely, that they reveal the discontent that is becoming vocal in Germany and the belief of the autocracy that something must be done to mol-

lify the people. Beyond that they count for nothing.

This discontent is not political. It is economic and military. Every pound of food that can be kept out of Germany by such measures as the embargo that President Wilson has proclaimed will increase it. Every military success won by the allies, however small, will intensify it. Every measure that is taken to complete the economic, military and moral isolation of Germany will widen the breach between the autocracy and the masses which have had their fill of sacrifice which gains them nothing.

German autocracy has lived by the sword and ruled by the sword. It must die by the sword. The crisis through which the empire is passing is a summons to the allies to prosecute the war with still greater vigor and determination. The psychology of the situation is now on the side of democracy. The German autocracy has no means of dealing with popular unrest except through victories in the field, and if these are denied to it, if defeat is piled upon defeat, the system will soon go crashing down to ruin. The harder the blows that the allies can now deal the quicker the end.

That is what the German crisis should mean to every government at war with Prussian imperialism. It is the revelation of a supreme advantage which cannot be disregarded without the needless prolongation of the war and the loss of uncounted lives and treasure.

FROM THE SENTINEL PAGES 25 YEARS AGO

The Fort Wayne Medical college will be one of the big institutions in the near future. The college will be offered by the following: President, A. P. Buchanan; secretary, K. K. Wheeler; treasurer, M. F. Porter. The board of directors will consist of Messrs. Buchanan, Wheeler, Porter, Wherry and C. B. Stemen.

The Ladies Auxiliary to the Brotherhood of Locomotive Engineers has elected the following officers: President, Mrs. Maggie Walker; vice president, Mrs. William Tourge; secretary, Mrs. Milla Drake; treasurer, Mrs. Max Hocking; chaplain, Mrs. Harvey Slagle; guide, Mrs. William Gates; sentinel, Mrs. Ed Jones.

Rev. C. Gross, the pastor of Emanuel's Lutheran church, in his sermon yesterday, gave a history of the church since its organization, July 26, 1867. It then had 187 members, now it has 381 voting members, and represents 500 families. Since its organization, Rev. Gross said, 2,297 persons have been baptized, 1,299 confirmed, 530 couples married and 807 persons died.

Henry Hicks, an old citizen of Chubbuck, was found dead in a shed belonging to Val Brown, Saturday morning. Over his body lay a heavy scantling, which in falling had caused his death, although the supposition at first was that he had been murdered, inasmuch as only the day before he had signed vouchers for \$1,800 pension money. He did not draw it, however, and according to certain technicalities in the pension laws his family cannot claim it.

The Ladies' Cycling circle gave an out-door lunch Saturday evening. Mesdames O. J. Wilson and J. E. Graham acting as chaperones. The following persons enjoyed the evening: Cycling circle, Misses Maud Vreeland, captain; Maud Graham, Bertha Gruber, Florence Fulton, Cora Doughty, Kittie Kohler, Etta Winbaugh, Laura Snowberger, Edith Brewster, Kittie Schlatter, Alice Cochran, Lillie Bowen, Lillian Flisk; Triangle club, John Evans, captain; Eph. Dalley, John Wagner, Frank Biddle, Harry Jones, Amos Richey and Seavey.

WILL SPEED UP PLANS
FOR FALL PLOWING

Chairman Urges Earlier
Start for Next Year's
Gardening.

To begin work immediately to plan out next year's course for gardening in the city and carrying on work of the local branch of the National Food Relief committee was the decision reached by the local committee at a meeting Monday night at the headquarters on Clinton street.

Chairman Frank Hilgemaann urged no delay in getting ready now for the fall plowing and the general preparations for the course to be pursued next year. The members of the committee appeared enthusiastic over what has already been accomplished in aiding the gardeners and farmers of the vicinity. It was the consensus of opinion among the members of the committee that the work should be started earlier next year in order that still more might be accomplished.

F. W. Gray, supervisor, is now developing plans for the fall campaign. The outlook for garden products is brighter now than a few days ago, according to Mr. Gray, owing to the recent rains. The good done by the storms Sunday exceeded the harm done and gave to the soil much needed moisture.

The high price of seeds, owing to the greatly increased demand due to the gardening movement which has swept the country has caused a shortage to be felt and attention is now being given to the selection of seeds. The seedmen in this country have not only been called on to supply the increased demand here but have much foreign business to attend which they formerly did not get. A statement issued by Mr. Gray says seed should be selected from the most fully developed plants.

"The best fruits and those that ripen soonest," the statement says, "should be seeded. Where 'seeds grow in' fleshy pods, as in the tomato, cucumber, pepper, etc., should be placed in water and allowed to ferment before storing, so that the mucilaginous covering may be washed off. In a great measure the success of such a venture may depend on the storing for the winter. Special care should be taken to see that seeds produced in dry pods, as beans, be stored in dry places."

Our great Half Price Sale will start Thursday morning at 8 o'clock. Store closed all day tomorrow, Wednesday. PATTERSON-FLETCHER CO.

ELKS PLAN ANOTHER
NOVEL FUNCTION

"House That Jack Built"
Will Be Scene of Dance
for Antlered Host.

Another interesting and entertaining function has been arranged by the local lodge of Elks at the new Country club. The antlered host will have a dance on Thursday night, the affair to be held in the "House That Jack Built," a vine-clad pavilion that is one of the prettiest structures on the grounds.

"Plenty of punch, moonlight and music" is the way the committee in charge describes the affair. Ciccone's orchestra will commence to play at 8 o'clock. This is the first of this kind of entertainments to be held at the new home of the Elks.

A basket dinner for Elks and their families is also being planned for one week from Thursday. A band concert and athletic events will comprise the program.

Knights of Columbus Picnic.
Fort Wayne council No. 451, Knights of Columbus, will give a community basket supper and picnic at Robinson park Wednesday afternoon and evening. The lunch will be spread between the hours of 6:30 and 7 o'clock. Plans are also being formed by the local lodge for the observance of Columbus day, October 13. An election of officers will be held on September 24.

Union Veterans Meet.
A postponed meeting of the Union Veteran Legion No. 51 will be held next Sunday afternoon in Library hall, when arrangements will be made for attending the next national encampment in Columbus, O. The encampment is to be held some time in September or October.

Our great Half Price Sale will start Thursday morning at 8 o'clock. Store closed all day tomorrow, Wednesday. PATTERSON-FLETCHER CO.

MANY CLAIM EXEMPTION.

Decatur, Ind., Aug. 7.—Slow progress is being made by the Adams county conscription board because of the number who are claiming exemption. Of the first thirty-five examined yesterday but one had passed, who did not claim exemption. Eighteen passed the physical examination. The conscription board comprises: Ed Green, sheriff; C. N. Christen, clerk; E. G. Coville, medical examiner; Assistant clerks are H. B. Heller, E. B. Adams, H. M. DeVoss, Will Hammell and L. D. Jacobs. Dr. W. E. Smith is assistant medical examiner and Dr. J. M. Miller, re-examiner.

ANDERSON COMPANY TRAINING.
Anderson, Ind., Aug. 7.—Company M, Indiana national guard, recently organized and sworn into service, is being put through preliminary drill work in preparation for calling to the federal service and training at the government camp at Hattiesburg, Miss. Captain McKinney, formerly instructor of the Purdue university regiment, is in charge of the local company and is drilling his men more than eight full hours per day.

SOCIETY

The wedding of Miss Jennie Dower, daughter of Mr. A. A. Bowser, to Mr. Frank R. McKay, of this city, will be a very quiet home affair on Wednesday afternoon. Rev. G. P. Byer, of South Bend, who was the family pastor for many years, will officiate at the ceremony. Only the immediate family relatives will be present.

Mr. and Mrs. W. L. Moellering have gone to their summer home in Leland, Mich.

Miss Eleanor Carroll, of Bucyrus, O., is visiting Miss Sarah Grace Randall.

Miss Louise Mariotte went to Coldwater, Mich., on Tuesday for a two weeks' visit.

Miss Velma Bookwalter left on Tuesday evening for a visit in Cleveland and Akron, Ohio.

Mr. and Mrs. Charles A. Wilding and Miss Wilding have returned from a trip to Asbury Park, N. J.

Miss Helen Miller, of Danbury, O., is visiting Miss Frieda Dannecker, of Washington boulevard west.

Miss Virginia Randall spent the week-end at Lake Waukegan, the guest of Miss Helen Vaughn, of Wabash.

Miss Helen Miller, of Danbury, O., is visiting Miss Frieda Dannecker, of Washington boulevard west.

Mrs. C. E. Muller and family have gone to Macatawa Beach, Mich., to remain the rest of the summer.

Miss Irma Huels has returned from Muncie, where she spent a week visiting her sister, Mrs. Eleanor Jacobson.

Mrs. Charles Bales and daughters, Evelyn and Dorothy, who are summering at Rome City, spent Monday in town.

Mrs. Robert Off and daughter, Betty, of West Jefferson street, have gone to Buffalo, N. Y., for a three weeks' visit.

Misses Madeline Geiger and Marcella Druhot have returned from a week's visit in Chicago with relatives and friends.

Miss Caroline L. Ferguson, of West Wayne street, left on Monday for a trip to Cleveland, Pittsburg and other points.

A. L. Beuret and E. J. Lennett started on Tuesday for an automobile trip to Ohio, Indiana and Kentucky points.

Mrs. D. L. Harding and Miss Effie Lumbard are to start this week Wednesday for Mackinac Island to remain the rest of the month.

Mrs. Ahme Meyer and son, Dayle, of Riverside avenue, have returned from a month's outing at Rome City. Mr. Meyer will remain two weeks longer.

Mrs. L. B. West and son, William, of Chattanooga, Tenn., are visiting her parents, Mr. and Mrs. N. Conover, of 1217 Fairfield avenue.

Mrs. John P. Evans, and daughter, Miss Margaret, expect to leave on Friday, for a trip to Leland, Mich., where they will remain three or four weeks.

Mr. and Mrs. Calvin Reiman have returned from a trip to the Pacific coast which took them as far north as Vancouver and to southern California.

Miss Evelyn Bevington, of this city, and her niece, Miss Valera Cromley, of Vintwerp, O., have returned from a two weeks' visit in Cleveland.

Mr. and Mrs. T. F. Thiem and son, Wayne Thiem, returned the latter part of the previous week from a trip to Asbury Park, N. J.

Mr. and Mrs. A. J. Detzer and Miss Dorothy Detzer expect to leave within a few days for Leland, Mich., where Mrs. Detzer and Miss Detzer are to remain until early in September.

Mr. and Mrs. Charles Miller and family, of 1909 Fairfield avenue, have returned from a week's visit with relatives and friends at Pittsburg, Rochester and Beaver Falls, Pa.

Mrs. Walter Massey and son, Lance, and Miss Georgiana Bond left on Monday for a trip to Detroit, Thousand Islands and Mrs. Massey's home in New York state. Mr. Massey and Stephen D. Bond will join the ladies in the Islands.

Mrs. R. G. Thompson, of Chicago, spent a day in Fort Wayne, en route to Washington and New York city. Mrs. Thompson's sister, Mrs. Hugh Kapp, who also makes her home in Chicago, has gone to Pomona, Cal., to visit another sister, Mrs. Dills.

Mr. and Mrs. Will Brackendridge are to make Fort Wayne their home again in a short time. Mr. Brackendridge is to enter the insurance business. Mrs. Brackendridge and sons are at Lake Tippecanoe, near Tipton, where the family has been living for two or three weeks.

Mrs. John H. Gilpin has returned from Atlanta, Ga., where she accompanied the remains of her mother a few weeks ago, and from Sheboygan, Mich., where she went for a few days afterwards to visit relatives of Dr. Gilpin.

Dr. Gilpin has gone to Fort Benjamin Harrison to serve in the medical department of the army.

Announcement has been made of the marriage of Miss Dortha Pauline Winger to Donald Earl Cohagen, which took place on April 21 in Centerville, Mich. Rev. W. H. Fraser, of the Presbyterian church, officiated at the ceremony. After August 10 Mr. and Mrs. Cohagen will be at home at 1511 Sherman street.

There will be a card party and dance for the benefit of Company B, signal relief corps, in Minuet hall on August 13. Proceeds will be used in purchasing mess outfits. There is a good program in process of arrangements, which will consist partly of special dances by well known society dancers of the city.

Captain and Mrs. Paul Baade and little daughter, Peggy Ann, are to leave on Wednesday for Chickamauga, Tenn., after a visit since their return from the Philippines, with Captain Baade's father, Fred Baade, of East Jefferson street. A gathering of the Baade family was held last evening at Captain Baade's home. It will be remembered by friends that Major Ivers Leonard is also stationed at Chickamauga.

Mrs. H. L. Burkas entertained with a pre-nuptial shower recently in honor of Miss Georgia McDowell. The guests presented Miss McDowell with towels which they first hemmed. Enjoying the pleasant evening were Mrs. George Ray, Mrs. Clarence Burkas and two daughters, Miss Sophia Gruber, Miss Loretta Wunderlin, Miss Marie Jehl, Miss Lillian Groshi, Miss Marie Ackerman, Miss Alma Schneider, Miss Clara and Miss Edith Doehla.

Leo Gingsburg, of Lima, O., spent Sunday in the city a guest at the home of A. C. Pepe, 512 Washington boulevard west. Mr. Gingsburg came from Petrograd, Russia, but he has been in this country for some time and is a naturalized American. His visit here was particularly with Lawrence Pepe, who is a member of the Third regiment, national guard, which became a part of the regular U. S. A. on Sunday, and is now located at Hattiesburg, Miss.

Messrs. Diverette Myers, Dwight Myers, Kenneth Morton, Boyd Morton, Doris Morton, Howard Morton, Morris Morton and John Beck. The day was spent in a very sumptuous dinner. The next reunion will be entertained by Mr. and Mrs. Chauncey Griffith, at Oak Park, renewing old friendship and partaking the home of Mr. and Mrs. Levi Griffith, on the Decatur road, the first Saturday in August.

Vetter-Bohde.

A pretty wedding took place in St. Peter's Lutheran church at Goggin on Sunday afternoon when Miss Amanda C. Bohde and Mr. Walter C. Vetter were united in marriage by the pastor of that church. The bride was attended by Misses Lena and Frieda Meyer and the groom by Mr. Lawrence E. Vetter, brother of the groom, and Mr. Henry Bohde, brother to the bride. Mrs. Paul Richter was matron of honor. The bride was gowned in a white tulle dress trimmed with pearls and her veil was held to her hair with a wreath of orange blossoms. Mrs. Richter was dressed in white organdy with trimmings of lace and the bridesmaids were in gowns of pussy willow satin, one in yellow and one in pink. They carried bouquets of pink roses and the bride held bride roses and a shower of swan's.

A bountiful dinner was served after the marriage services at the home of the bride's parents, Mr. and Mrs. Henry Bohde. Paul Trier's orchestra furnished music and many friends enjoyed the pleasant time. The bride and groom left on a short trip and on their return will be at home at 1209 Wall street. The groom is employed at the Emerick bakery.

HOW TO SAVE PERISHABLE FOOD FOR USE NEXT WINTER

Acting in co-operation with the government in the national food conservation campaign The Sentinel will from day to day present its readers with recipes and suggestions for preserving perishable fruits and vegetables.

Ready-to-Serve Carrots.

Home Canned.

Wash your jars; wash rubbers; test rubbers for quality.

Set empty jars with rubbers in pan of water to heat and keep hot.

Fill washbottle to cover jars two inches with water.

Heat water in washbottle.

Use young, tender carrots, freshly pulled.

Wash carrots thoroughly; use a vegetable brush.

Place carrots in colander; scald by setting over a vessel of boiling water, covered tight, for five to ten minutes.

Dip quickly into cold water.

Scrape or pare to remove skin.

Pack whole carrots, slices, or cross-section pieces in hot jars.

Place rubbers and caps in position; not air tight.

Place jars on false bottom of washbottle.

Submerge jars two inches.

Let water boil ninety minutes.

Start to count when water begins to boil.

Remove jars.

Tighten covers.

Invert to cool and examine for leaks.

If leaks are found, change rubbers, and boil again for ten minutes.

Wrap in paper.

Store in a cool, dry place.

DON'T MISS ANY STEP.

Good Rubber Rings Important in Home Canning.

The fate of the food material canned or preserved at home may depend upon the quality of the rubber rings used on the glass jars. If the rubbers are of poor quality, the food may spoil.

Good rubber rings for the average pint and quart jar—glass top, etc.—should be not less than 3/4 nor more than 5/16 of an inch wide, and 2 1/2 inches on the inside diameter, and be cut 12 to the inch, that is, 12 rubber rings placed side by side will measure one inch in thickness. They should be able to stand up under sterilization in boiling hot water or in steam under pressure for at least three hours without injury to the rubber. Good rubbers will stretch and return promptly to place without changing the inside diameter. They should also be reasonably firm, and able to stand bending without breakage.

USE MACHINE TO MARK NAPKINS FOR HEMMING.

In hemming napkins, put the hemmer attachment on the machine without thread, turn an even hem and then hem afterward by hand.

This line of accurate perforations is very easy to follow. In hemstitching draw the threads and baste the hem neatly. With the sewing machine stitch regulated the length desired without thread, stitch close to the edge as in ordinary hemming.

WATER METERS TO BE INSTALLED IN GARRETT

Drastic Action Will Be Taken if Notices Are Not Complied With.

(Special to The Sentinel.)

Garrett, Ind., Aug. 7.—If the program mapped out by the city council at its meeting is carried out, as the city fathers intend to see that it is, Garrett will soon need plumbers. By a motion passed unanimously it was decided that water meters should be placed in every business house and property in blocks 16, 19, 24, 25, 32 and 33.

Some of the places included in this area have already placed the meters but the majority have not and the council has ordered the sending of notices that, unless the meters be placed within ten days, the city will do it and charge it against the property. City Clerk Bowers mailed the notices Saturday.

The matter has been up before the council so long, and the meters have been ordered in so long, that drastic action was deemed necessary to place the water consuming public on a checking basis that will be fair to all. Just as soon as these districts are finished others will be mapped out and the entire city will be equipped with meters just as soon as possible.

Will Enforce Ordinance.

The splitting nuisance will be removed in this city if the city marshal and his assistants follow the instructions given them by Mayor Cleveland to assist Health Officer Rodeger in rounding up the offenders. The health officer was at council meeting Thursday night and told that some of the young blood of the city

were taking the matter as a joke despite the fact that one Auburn had already been told to report for trial at notice from the mayor.

The council was of the opinion that such a practice should be stopped and the health officer was pledged the assistance of the marshal in forcing to the limit the law and in this way stop this disease breeding nuisance.

Storm at Garrett.

Lightning caused nearly \$1500 damage to a barn belonging to T. H. Kelham, living about a mile west of Garrett, near Altona. Sunday afternoon, destroying the barn and contents. It was with difficulty that the Garrett department, called to the scene of the fire, was able to save the granary and other buildings near the burning barn.

For Soldiers and Vacationists

When You Buy a Moore's

you insure yourself against all future fountain pen annoyances. It is made to endure the roughest kind of treatment and can be depended on at all times to do perfect work under the most trying circumstances. You will never be grudge the small amount of money you pay for a Moore's—

\$2.50 AND UP.

Here's a pen that makes the ink behave—a pen that always writes RIGHT—and not only starts at the lightest touch and keeps on writing freely and evenly until you reach the bottom of the last page, but always keeps the ink where it belongs—INSIDE.

Doesn't make any difference how much you dislike the old style pens—you'll want a Moore's when you see it—and see how it works.

For when you see how the pen slips down into the ink, you'll appreciate why a Moore's is always ready to write at the FIRST touch, without shaking.

It's a well-built pen—nothing to get out of order—and so many styles and sizes to pick from that you can't help finding just the pen point that fits your hand. Prices no higher than pens that lack all the Moore's superiorities.

ALLEN COUNTY MAN IS DOING HIS BIT

George T. Marshall, Former

ly of Wallen, is With U.

S. Marines in France.

George T. Marshall, brother of Mrs. R. Pfeiffer, of Wallen, this county, and a former resident of that place, is with the first expedition of United States marines to place the American flag on the firing line in France, according to advice just made public.

The "do-all-dare-all" marines are always ready, prepared to start at once, anxious to fight and it should be a source of pride to know that a local young man is with the arm of this country's defensive establishment which is fully engaged in the war for democracy, and which has always been "First to Fight." The record of the "Soldiers of the Sea" has always been admirable, they sustain heroically today the finest traditions of the past, deserve the unquestioned confidence the nation reposes in them, and the local young man will doubtless be a credit to his country, his corps, his home, and himself.

Marshall enlisted in the United States marine corps on April 15, 1917, at its Indianapolis recruiting station. He is with the Forty-seventh company.

GIVE POTATO EXHIBITION

Park Avenue Will Be Scene of Patriotic Event on August 15.

EACH ENTRANT WILL SHOW 12 BIG SPUDS

Attractive Prizes Will Be Given Winners in the Contest.

All potato patch patriots who reside within the city corporation south of the Pennsylvania railroad are eligible to enter the big contest which will culminate on Wednesday, August 15. On this date a big exhibition will be given on Park avenue.

All amateur potato growers are asked to take part in this contest. Each man who enters the contest will exhibit twelve of his best and largest potatoes. Entry blanks can be secured from the secretary of the organization, Herbert Weil, in the Shoff building. It is believed by the press agent, W. S. Wells, that there will be at least five hundred entries in the contest.

The agricultural events will begin at noon on the date named and a program of interest will be rendered. Several orchestras have been secured to provide music for the occasion. In the program are included negro cake walkers, negro dances and music, farmer comedians, comedians of all kinds, and a pin picking contest. Prizes will be given for the winners in these events.

In all one of the most jovial events of the season is in store for those who wish to attend. There will be no charge made at the exhibition.

Every one of the potatoes which are entered in the contest will be given to the Red Cross society, who will distribute them where they are most needed. There is no entry fee and it is hoped that every amateur potato grower will enter this contest.

The Red Cross organization has secured the sole privilege of erecting and maintaining refreshment stands. It is also understood that representatives of the society will sell flowers.

Samuel W. Greenland, who is chairman of the transportation committee, has announced that he will insure the best transportation facilities to the scene of the exhibition. Cars will be provided in adequate numbers for the accommodation of those who attend.

The event will last well into the night when the feature parts of the program will be given. Added lighting facilities will be provided.

Mr. Wells announces that the committee has secured a lifelong lease on the street and if the weather should be such that the event could not be held on the day designated it will be held the following day.

The organization of potato patch patriots will hold a meeting Wednesday evening, at which time a president will be elected.

NO DOUBT BUT WHAT HUBER WAS DROWNED

Story is Circulated to Effect He Had "Skipped Out."

Local representatives of the Wells-Fargo Express company, Tuesday, emphatically denied the report that Edward Huber, agent for the company, who was drowned in Lake James had not as a matter of fact been drowned at all but had left his clothes on the bank of the lake and had "skipped out." Members of his family also deny the story.

The report first gained circulation when a diver who has been searching for the body claimed the body was not in the lake. Then started the report that Huber was short in his accounts and had taken this means of evading the law.

Officials of the company stated Tuesday that Huber's accounts have been checked up to the penny. They declare he was one of the most trustworthy employees they have ever had and that the report is a great injustice. The search for the body will be continued.

NARROW ESCAPES IN CLOVER LEAF WRECK

Frankfort, Ind., Aug. 7.—Three persons were injured and a number narrowly escaped when a westbound Clover Leaf passenger train was wrecked near here early today. The tracks probably will not be cleared of the wreckage before tomorrow. The engine, tender and two express cars turned cross-wise of the track, but the passenger coaches remained on the rails. The injured were Trautman William Murray, engineer, and Arthur Uhlig, fireman, of Delphos, Ohio, and G. W. Rutter, expressman, of Toledo. The wreck is said to have been due to a spreading switch.

Dogs can easily follow a deer by means of scent. In each hoof there is a pasty mass which leaves a slight odor on the ground. For this reason hunters usually take dogs with them.

TO START \$300,000 IMPROVEMENT SOON

Lake Shore Railroad Plans to Let Bids for Round House and Subway.

Officials of the Lake Shore railroad have submitted plans to members of the board of works and City Engineer Randall for the building of a round house and subway at Elizabeth street, which improvement will cost \$300,000. As soon as city officials pass upon the plans the railroad company proposes to receive bids for the building work. A special meeting of the board of works will be called before Thursday, to act upon the plans at hand. It is expected that the prints now submitted will be accepted.

The Elizabeth street subway will allow a safe connection of the Spy Run and Bloomingdale sections. It will extend Elizabeth street to Calhoun street and eliminate a dangerous grade and crossing. The railroad company promises to start work on the Sherman street subway at the same time as the Elizabeth street tunnel.

The present Nickel Plate round house will be moved some distance to the north, under the plans of the railroad company. The big building will stand upon what is now an unnamed street connecting Calhoun street and the railroad. The structure will be a mammoth steel affair. It is hoped by railroad men that work on the building will be started before cold weather.

Birth Record.
Born to Mr. and Mrs. Ray Kinsley, Grabb—a boy.

To Mr. and Mrs. John Bates, 200 East Superior street—a girl.

Will Talk Tanks.
The matter of allowing the Sinclair Oil company to place tanks within the city limits will be threshed out before the council committee on rules, regulations and ordinances, Tuesday night. Subject of the controversy has now resolved itself into whether the gasoline company should be allowed to bury its tanks or be kept out of the city altogether. Mayor W. J. Hosey thinks the tanks should not be allowed within the city under any consideration. A part of the council members think there could be no harm in the containers being buried under ground.

Scenes Are Correct.
City Sealer C. E. Tolson has inspected the scales at the three city exemption board headquarters and has found that there is no flaw in their weighing properties.

Headed Off Vacation.
Members of the board of works killed the resolution for the vacating of Randall street, from Grant street to the first alley west, at their meeting, Monday afternoon.

Finish Concrete.
The Grace Construction company workmen have completed the concreting of Delaware avenue. The street will be opened for traffic next week.

Curbing Put Down.
Curbing is being put down at a rapid rate on East Wayne street. It is expected that the improvement will be completed by Wednesday noon.

Will Pave Street.
The industrial track at the Berghoff brewery is being put in shape for the paving across Wayne street, north of the brewery building. The Grace Construction company will start the paving at once.

PLAN TO GET MRS. DE SAULLES OUT OF JAIL

Physicians Examine Slaying Divorcee to Determine Health.

Mineola, N. Y., Aug. 7.—An application for the removal to a hospital of Mrs. Blanche De Saulles, held in the county jail here for the murder of her former husband, John Longer De Saulles, is expected to be made today or Wednesday. This announcement was made by Henry A. Uterhart, her attorney, after three physicians had examined his client. It was said the physicians would make their report to Mr. Uterhart today when he would probably file a petition that Mrs. De Saulles be removed either to the Nassau county hospital or to a private sanitarium.

Although he would not state specifically just what her ailment was, Mr. Uterhart said the events of the last few days had accentuated her illness and brought on a collapse.

The mother of Mrs. De Saulles, who was called from Valparaiso, Chile, that she will leave there Wednesday for New York accompanied by a son and another daughter to aid Mrs. De Saulles.

TEN OF INDIANA'S COMPANIES READY

War Department Notified They Can Be Sent to Hattiesburg.

Indianapolis, Ind., Aug. 7.—Ten units of the Indiana national guard have been reported to the central department of the United States army as ready to go to the training camp at Hattiesburg, Miss., at any time and assist in preparing the camp for the guardsmen to be sent there later. The recommendation was made by Adjutant General Smith and Col. E. Root, chief mustering officer of the Indiana guard, and became known here today.

Neither of the officers would say when they expect the Indiana troops ordered to the camp, but it may be soon, as they are mustered into federal service. Whether the Indiana guard units will come to Fort Benjamin Harrison from their home stations or go direct to Hattiesburg also is not decided definitely, it was said, much depending on the question of tentage.

Among the ten units certified as ready to proceed to the training camp now were F company, First Infantry, Gary; B company, Second Infantry, Terre Haute; K company, Third Infantry, South Bend; B company, Fourth Infantry, Rushville; Battery E, First separate squadron cavalry, Evansville; battalion headquarters, First battalion Indiana engineers, Indianapolis; A company, engineers' battalion, Terre Haute; and C company, engineers' battalion, Indianapolis.

Field hospital No. 2, Frankfort, also is to be certified as ready, it was said today.

RAILROADS WILL BACK UP EXEMPTION CLAIMS

Wabash First to Take Step to Verify Employees' Requests.

Following instructions from the general management, W. J. Welch, foreman of the Wabash shops of this city, appeared before the clerk of the examining board of district No. 3 to certify claims for exemption made by employees of the Wabash railroad who are employed in the capacity of engineers, firemen or skilled mechanics.

The local board had no blanks of the kind required and the process of verification of the exemption claims is to be postponed until those can be obtained.

The action on the part of the Wabash, it is expected, will be followed by other roads in pursuance of the course set out by the railroad board of the National Council of Defense which is making the recommendation that such employees be excused from military service.

WILSON TAKES A HAND IN PLANS TO CRIP PRICES

Washington, Aug. 7.—President Wilson took a hand today in the government's plans for regulation of prices and conferred with officials who have the work in charge. First he went to the federal trade commission and then went to the department of justice. Both departments are working on keeping prices on materials for the government's war needs down to a reasonable basis.

The president spent half an hour at the trade commission, inquiring particularly as to the investigation of the cost of producing coal, steel and lumber. After he left the commission issued a brief statement concerning the conference, which said:

"The president was here today to confer with the trade commission as to the progress being made in its cost determination work now being conducted at his request."

ALIENS WILL BE SUBJECT TO DRAFT

Selection boards received the following instructions from Washington, D. C., Tuesday: "All subjects of foreign countries except Germany who have taken out their first papers in the United States are subject to call for examination and service."

Those who have already filed their papers claiming exemption on the ground of being aliens are required to reappear before the board in their respective districts for examination.

WOMAN KNOCKED DOWN.

A young woman who gave her name as Miss Know and her home as Park avenue, was knocked down and slightly injured when struck by a bicycle as she alighted from a street car at the corner of Broadway and Taylor streets, Monday evening. W. G. Weimer, 1001 Nuttman avenue, was riding the bicycle. He reported to the police that the street car started and then stopped and Weimer was not expecting a passenger to alight.

GET SECRETS OF THE SPIES

Mass of Papers Bearing on Czar's Espionage System Are Seized.

WILL BE COMPILED INTO A HISTORY

Disclosures Show That An Army Was Employed and That Cost Was Low.

Petrograd, June 30.—(Correspondence of the Associated Press).—Thirty-three long lists of spies, informers and agents provocateurs in ex-Emperor Nicholas' pay have been published by the commission for securing the new system of government appointed by the provisional government immediately after the revolution. Fifty more lists may be expected. The total number of these secret legions of autocracy is expected to reach 80,000. Those whose guilt is beyond doubt have been put in jail, but it is not yet settled whether they will be tried and punished or merely kept in jail until all peril of reactionary counter revolution has passed.

The commission's report depicts precisely the same system of espionage, and state provocation to crime as flourished in Turkey under Abdul Hamid II. The distinction is that Abdul Hamid ran his spy and plan system directly from the Vilayet Kiosk, whereas Nicholas entrusted his informers to the notorious "Okhrannoe Otdelenie," or security department which occupied a big building in the Basilirov district.

Secret Papers Seized.

The first act of the triumphant revolutionaries was to seize the security department's secret papers. Many of these were burned in bonfires outside the building. The more precious documents, especially those relating to the state organization of crime had been kept in safes, and they escaped destruction. The revolutionaries also seized tens of thousands of secret records in the department's provincial office, and from these backed by confessions of imprisoned spies, are being culled the lists. The lists will be followed by a volume of official history of Espionage Under Nicholas II.

As revealed by these inquiries activities of spies and informers were much less picturesque and romantic than they appeared in the typical "Nihilist novel." Most belonged to the more intelligent working class or to the minor bourgeoisie. They were paid badly, the average for organizing political crime or betraying accomplices being \$20 a month. The spies were usually instructed to become members of secret revolutionary or terrorist organizations, among these being the socialist democratic party, the socialist revolutionaries with their "fighting committee," the populist socialists and the Maximalists. On nearly every newspaper was at least one spy. The spies took part in committee meetings, incited to breach of the political repression laws or to actual crime, and kept the security department well informed.

Each Had a Moniker.

Every spy had a "kiltchka" or nickname by which he was known to the police. The department's record bristled with such nicknames as "Fatty," "Long Nose," "Sunday Boy," "Elephant" and "Arsenic." The spy had also two or three fake surnames, and he often changed his town and name when he fell under the revolutionaries' suspicion. Many spies and informers (like the famous Father Gapon, whose treachery on Bloody Sunday, 1905, led to his being hanged by a revolutionary engineer) were at one time genuine revolutionaries, and became later betrayers and informers.

Some seem to have served both honestly and earned the approval of both sides and some do not seem to have known with which side they sympathized. A notable case is "Trukhanoff," real name Nikitin, nickname "Perks," who aroused the suspicion of his terrorist comrades, was threatened with them with execution and to rehabilitate himself was obliged to kill the gendarme officer with whom he collaborated. The murder of Grand Duke Sergius in Moscow, in February, 1905, was due to the same motive.

Organized Crime.

The organization of crime, with the aim of discrediting non-terrorist political associations and frightening Nicholas into repression went on on a great scale. For blood money of \$150 a mechanic was hired by the department to fire at General Djunkowski, governor of Moscow, but he was instructed to be sure to miss. He executed his instructions precisely, but through carelessness, killed a passerby.

In violation of the nihilist novel tradition, very few women were employed as spies or informers, but a few noted cases have been exposed. In Moscow three sisters named Palatin betrayed scores of workmen, after getting confessions from them by means of simulating love.

The commission's lists show that the department was a hard task maker. In addition to paying its spies badly, it spied on them. Every security department record contains a note of the spy's history. Some are described as "moderately good," others as "indifferent," others as having "betrayed many revolutionaries," others as "energetic, but unreliable" and others as "doubtful, should be watched."

Mississippi Senator Puts Hot Prod Into Senate Anti-Americans.

Washington, D. C., Aug. 7.—When the senate resumed consideration of the food bill today Senator Williams declaring it was well for the senate to hear what the country thinks, denounced obstructionists.

"It is a time to forget party alignments," he said, "and I am glad to say that a majority of both the democrats and republicans have done so, but there is a small group on both sides who have formed themselves into an anti-administration and anti-American party."

Consciously or unconsciously, he said, they had put themselves in the attitude of opposing everything that goes to carry on the war.

"It is time for the minority of the democratic and republican parties to get together and say to these two little groups," he declared, "You have danced your ballet, you have sung your

Wells Shuts Out the Chiefs and Ties Up Cellar Position

Locals Have Little Chance Against Brand of Pitch- ing Shown at Dayton.

Dayton, O., Aug. 7.—The Chiefs were blanked in yesterday's contest here while the local club scored two runs bringing the Fort Wayne club down into a tie with Dayton for the cellar championship. Dayton scored a run in the fourth and also in the eighth. The Chiefs threatened to score in their half of the ninth, but were cut down. Hobbs singled in the fourth and advanced to second on Hoffman's sacrifice and came in on a double by Derick. Kelley tried to start things for the Chiefs in the seventh by knocking out a clean single, with one down. Glockson fled out to Storch and Kelly stole second. Williams singled and Kelly was caught by Spencer's perfect peg to Donahue.

A singular feature of the game took place with the Chiefs but in the first half of the eighth inning. Wells, the Dayton mound artist, who had been holding the Chiefs to a few scattered hits, evidently decided to tighten up altogether and equalled the record for the minimum number of balls pitched in one inning. Wells wound up and put the ball over three times. Higbee flew out to Storch. Breaux followed and likewise Vandagriff hit the first pitched ball for a long drive to Storch in centerfield. Smith's grounder in the ninth got by for a single, but he was forced out by Hoffman. Seigfried singled through the box and Kelly grounded to Nee at third, who doubled Kelly at first, ending the contest.

the winners were Dehms, Olinke and McGarry, and for the losers, Schmidt, Snyder and Ricketts.

THE OLD GAME OF MAKING BIG MEN OUT OF LITTLE ONES IS PIE FOR TEXAS LEAGUER

Dallas, Texas, Aug. 7.—When Joe W. Gardner retired as the owner of the Dallas, Texas, league ball club, baseball lost a man who was responsible for sending more rookies to the big leagues, perhaps, than any other minor league owner or manager.

For fifteen years Gardner has been known in big league circles as a manufacturer of baseball talent. In 1902 he and Ted Sullivan, a well-known baseball man, organized the Texas league. From that date to this Gardner has shipped a number of youngsters to the big leagues annually.

This spring he retired from baseball, selling his interest to Hamilton Patterson and Doc White, the old White Sox pitcher.

Among the players he sent up active in baseball today are Arthur Fletcher,

shortstop of the Giants; Eddie "Hack" Spencer of the Tigers; Branch Rickey, part owner of the Cards, and Hank Gowdy, catcher of the Braves, who recently joined United States service.

Some of his other charges, including Frankie Thuesdale, Jack Onslow, Charlie McDonald, George Jackson, Gene Dale, Bill Louden, Rube Peters and Claude Berry, are scattered throughout the International league, Southern and other circuits.

Claude Berry, catcher; Harry Clarke, infielder; Fred Hunter, infielder; Otis Johnson, infielder; Charlie Moran, catcher, and Rip Reagan, pitcher, went up in 1903.

In 1905, Branch Rickey and Hack Spencer, catchers, went to the White Sox. Spencer hit "boomer" and drifted back. He made a comeback and is now

catching for the Tigers. Rickey is part owner of the Cards. He also caught for the Browns.

Jimmy Stephens, catcher, went to the Browns in 1906, followed by Rube Ferris, pitcher.

In 1907, Bill Louden, infielder, went to the Yanks. He later played with the Tigers and Reds. Benny Meyers, outfielder, was shipped to the Browns, and afterwards played with the Dodgers. Charley Pruitt and Jess Garrett, pitchers, went to the Browns and Portland, respectively.

Two stars were sent up in 1908. Harry Ables, pitcher, and Mike Murphy, catcher. Ables went to the Browns and thence to the coast. Murphy went to the Reds.

Art Fletcher of the Giants was landed in 1909. Drucke went to the Giants

this year, as well as Rube Peters, pitcher, to the White Sox.

Hank Gowdy was the biggest star turned loose in 1910.

In 1913, Gene Dale, pitcher, went to the Reds. Charlie McDonald, infielder, to the Reds. Jewel Ens to Providence.

King Brady went to the Yanks in 1915, and was sent to the International and is now hurling for Toledo in the A. A.

Red Josefson, outfielder, was sought by the Giants in 1916. He was tried out at Marlin this spring, but an operation prevented him from cutting loose. He was then sent to Rochester and then to Memphis, under Mike Donlin. He quit for the year, but will be with the Giants in 1918.

Chiefs Still Have Chance of Making a Good Showing

Local Club Should Get Out of Hole After Present Road Trip Ends.

Fort Wayne and Dayton will get together in an exhibition contest at Lima today inasmuch as the regular game scheduled to take place was played off Sunday as a part of the double-header. The game will be for the benefit of the players.

After the exhibition contest the Chiefs will leave for Springfield to open a three game series. The season has now progressed over half its length and the teams are beginning to pull themselves together for the finish, although it has begun to look as if Grand Rapids was going to have things just about her own way with a possible chance, however, that Muskegon might pull up and make things interesting, judging from the pace the latter club has been going of late. Springfield also could step out and cause Grand Rapids a little concern.

Fort Wayne's slide into a tie with Dayton for the last honors is not so disheartening as it would first appear after taking a look at the percentage column. There is a margin of only nineteen points between Evansville topping the second division and Dayton and Fort Wayne, while Richmond is only eight points above the tailenders. The Chiefs have found it mighty hard going, barely being nosed out in several games and losing others by two-run margins. The local club will find itself in much better shape after it finishes the present road trip and should pull up when it returns home on August 15.

Of course the best thing that can be hoped for would probably be a first division berth, but it is not unlikely that the Chiefs will at least be able to pull up to the vanguard of the last section.

Johnny Kilbane wants to fight Benny Leonard again. Perhaps Johnny never heard that old adage about discretion being the better part of valor.

The army drill practiced by ball clubs should come in handy to Dick

Hoblitzell who has volunteered for the dental corps.

Lawton Witt is the first big league player to be called by the draft. Playing with the Athletics should be sufficient cause for rejection.

Chicago headline says Cubs have been paid their salaries. What for?

A content reports that Owner Rourke, of the Omaha club says he will "practically manure" the team for the rest of the season. More truth than fiction probably.

Canadian cricketers are to invade New York in October. Which probably will cause the postponement of the world series.

BUSY LASS FAVORITE FOR RICHEST STAKE

Swisser and Sheppard Purse Leading Event of Grand Circuit.

Columbus, Ohio, Aug. 7.—The richest stake of the present grand circuit meeting is on this afternoon's card at the Columbus track when 2:15 trotters will start for the S. & S. (Swisser & Sheppard) \$5,000 purse. Busy Lassie is a heavy favorite to win, because of her successes at Detroit and Kalamazoo over practically the same field. During the Kalamazoo meeting Busy Lassie won two \$1,000 stakes. W. J. Leyburn, Royal Knight, Peter Chenault and others are in the field of entries.

The other events of today's program are the 2:13 class trot and the 2:11 pace. Judge Jones will be the favorite in the 2:13 trot.

Peter Pointer, W. L. Snow up, copped the feature event, the Elks' Home stake for 2:05 eligibles, of yesterday's races. The winner was forced to six heats before the contest, which finally developed with Walter Cochato, could be decided.

The latter paced two heats in 2:02 1/2.

AUTO TURNS OVER; SEVERAL RIBS BROKEN

George Seavers and Family
Are Injured in an Accident Near Butler.

(Special to The Sentinel.)
Butler, Ind., Aug. 7.—Sunday afternoon George Seavers and family, of near Farmer, O., met with an accident which might have cost them their lives, but fortunately they escaped with a few broken ribs and bad bruises. They had been spending the day with relatives and were hurrying home in their new Buick auto, trying to reach their destination before the storm, which was threatening, could overtake them. They were going about forty miles an hour and when they turned out to pass an auto which was standing at the side of the road, Mr. Seavers put the brake on suddenly and the car turned over, throwing the five members of the family out and breaking up the car in bad shape. Mrs. Seavers, who was holding an infant, was thrown clear of the debris and had three ribs broken. The baby escaped with a slight scratch on its forehead. Mr. Seavers sustained a slight concussion of the brain and the other two children were bruised and cut slightly.

THE HOUSE OF QUALITY

First Showing of AUTUMN FASHIONS AN ANNOUNCEMENT

We are pleased to announce for tomorrow a showing of

PATRIA SUITS

Created by American designers for American women.

These Suits are advance models for fall—the forerunners of the coming season's styles.

PATRIA SUITS

Are designed by the leading suit creators in this country, whose styles have been copied and imitated for years both here and abroad.

Paris, the home of Fashion, does not attempt to dictate suit styles. In fact, Paris copies American suit styles, for the reason that in suits American designers are supreme.

In PATRIA SUITS, therefore, you will see the basis of suit styles for next season.

We extend to the women of Fort Wayne and vicinity a very cordial invitation to attend this event, for it will be both instructive and interesting.

FALL DRESSES

Showing the New Silhouette

A variety of distinct models of fine serges, satins, crepe meters—in the fashionable autumn shades of seal brown, burgundy, taupe, balsam, navy or black.

The High School Girl or College Miss will be interested in the smart new styles in
NAVY BLUE SERGE

which promise to be more popular than ever for fall.

Stunning Fall Coats

Showing New Materials and Colorings.

The soft, luxurious fabrics with their rich linings, the new collar effects and the beautiful colors are features which will appeal strongly to those who are connoisseurs in the art of dress.

Taupe, Beet Root, China Blue and Brick are prominent among the fall shades. Havana, rust and golden tan will also be popular.

NEW FALL FASHIONS IN BLOUSES AND SKIRTS

As heretofore, our Blouse and Skirt departments will be the style Mecca for the thousands of discriminating women who have come to depend upon The Gates Store for the smartest and best obtainable in these two important items of dress.

Our Present Showing of Smart Styles

Is unusually comprehensive and is worthy of a special trip down town tomorrow just for the pleasure which a "first view" will afford.

REGISTRATION FOR ALL BOYS

All Youths Between 16 and
20 Must Enroll in Boys'
Working Reserve.

MONDAY AND TUESDAY
DAYS FOR SIGNING

Three Public Speakers Will
Explain Purpose at Meets
This Week.

REGISTRATION PLACES.

District No. 1.—Hanna school.
District No. 2.—Houshland school.
District No. 3.—Jefferson school.
District No. 4.—Harmar school.

Noon Day Meetings.

Wednesday at 12:30 at plants of
Wayne Oil Tank and Pump Co.,
and Duddo Manufacturing com-
pany.

Thursday at plants of S. F. Bow-
ser & Co. and General Electric
company.

All boys between the ages of 16 and
20 years, inclusive, in Allen county and
Fort Wayne, will register in the Boys'
Working Reserve, U. S. A., next week,
Monday and Tuesday.

The central school house in each one
of the townships in the county will be
the registration place in the country
and the central school building in each
of the four districts of the city will be
the registration places. A meeting of
the committee and Prof. Justin N.
Study was to be held Tuesday after-
noon, at which time the places were
to be definitely decided upon.

Fort Wayne has been divided into
four districts as follows: First dis-
trict is south of the Pennsylvania
tracks and east of Calhoun street; sec-
ond district, south of the tracks and
west of Calhoun street; third dis-
trict, west of Calhoun street and north
of the Pennsylvania tracks; and the
fourth district is east of Calhoun street
and north of the tracks.

A. L. McDonald, chief deputy di-
rector met with Superintendent T. O.
McComb, Tuesday, to select the men
who will be in charge of the work of
registration in each of the districts.
The names of these men must be for-
warded to Indianapolis.

Inaugural Campaign.
Inauguration of the campaign of
lining up the young boys of the county
and the city will begin Wednesday of
this week. Three prominent speakers
have been secured who will explain the
plan of registration. Prof. T. C. Howe,
president of Butler college; John A.
Lapp, of the legislative bureau of in-
formation, and Prof. Albert Stumpf,
all of Indianapolis, will arrive in the
city Wednesday morning and on Wed-
nesday and Thursday noon meet-
ings will be held at the General Elec-
tric company, S. F. Bowser & Co.,
Wayne Knitting mill, Wayne Oil Tank
and Pump company, Bass Foundry
and Machine works and one or two
other places.

One of the speakers will appear at
each of the places mentioned. Wed-
nesday night the men will speak at
Huntersville, Maysville and Leo and
arrangements for the Thursday even-
ing meetings have not been completed
as yet.

To Fill Places of Men.

The purpose of registration of young
boys is to have them take the places
of men who are called away to fight.
All the boys who register will be ex-
amined as to physical fitness and their
places assigned to them. Parents are
asked to give their consent for the
registration of the boys. The register-
ing of the boys is not for a military
purpose.

The governor of the state recently
issued the following proclamation:
"I appeal to the virile young man-
hood of Indiana with the thought that
every American boy at work opposes
a boy in Germany, and in all serious-
ness remind him that he is facing a
man's job, the burdens, hardships and
sacrifices of which will increase as the
war lengthens. The service to the
state and nation rendered by these
boys should be regarded by the public
as just as useful and patriotic within
the limits of the opportunity afforded
as the services rendered by the soldier
in the trenches."

Registrations of boys in the major-
ity of the counties of the state is be-
ing conducted this week.

WILL IGNORE

MANY CLAIMS

(Continued From Page 1.)

since the declaration of war cannot
give a dependent wife as their claim
for exemption. They will be regarded
in the same class as the single men.

Figures on Tuesday further bore
out the statement that only 20 per
cent of the applicants are being
passed and do not file exemption
claims.

Other notices to men in the three
city districts are very probable. In
District No. 1 it is doubtful and the
chairman of the board states that it is
his opinion that the 428 men called
will be sufficient to get the quota of
men from that district.

In this district 63 men have passed
the examination and have not asked
for exemption. Two hundred and
seventy-five men have undergone ex-
amination and 145 men still remain
to be examined. The board expects to
get at least 31 men out of this num-
ber who will be eligible for service.

On Account of Religion.
One man Tuesday asked exemption
on the grounds of religious scruples.
He was Menno Richer, of R. R. 14
of Fort Wayne. He was examined by
the county board in the court house
and found physically fit for service.

Refer Names.
All those men who fail to make
their appearance after being sum-
moned will be referred to the depart-
ment of justice. In this number are
included those who have beat the con-
scription law and have enlisted.

District No. 2 the following

names have thus far been referred to
this department:

Charles Archer, 219 Douglas.
Charles C. Schroeder, 908 West
Main.

Will Get Papers.

All those who are found physically
unit for service will receive a paper
stating that they have been rejected.
This will be sent to them through the
mail some time next week.

One Man Indignant.

One young man who thought he
should have been rejected was very
indignant, Monday, when the exam-
ining physician in District No. 2
accepted him. As a matter of fact
the young man in question was
above the average physically. It
was generally agreed that he would
make a splendid soldier. He lost no
time in claiming an exemption, al-
though single, but the chances are ten
to one that his claim will be rejected
by the board.

The general public has little concep-
tion of the immensity of the work the
members of these boards and assist-
ing physicians are doing, all of which
is gratis. It is no pleasant job by any
means.

The men are being taken in the or-
der that they are being called. There
is absolutely no favoritism being
shown. No man is being pushed ahead
of another, just because he might be in
a hurry to get away. All requests to
telephone a conscripted man when his
turn comes were likewise turned down.
It would have kept one man busy tele-
phoning had members of the boards
granted the many requests of this kind
that were made. Every man is sup-
posed to be in his place when his turn
comes. If he is not he must take his
turn at the bottom of the list. If he
fails to show up at all he is subject to
arrest and the penalty is most severe.

The physical examination is thor-
ough. Few questions are asked. If
there is anything wrong with a per-
son the physician will find it. One
man appeared before one of the boards
Monday intoxicated. He was accepted.

ITALIANS IN

BIG AIR RAID

(Continued From Page 1.)

Flight of 320 kilometers, 150 of which
were over enemy territory, without the
loss of a single machine.

D'Annunzio, the poet, was aboard
one of the larger planes piloted by
Captain Gori.

The damage effected was most im-
portant. In addition to bombing the
arsenal, a naphtha depot and a sea-
plane station were set afire and burned
like paper.

The Italian aviators who kept at an
average height of 2,500 to 3,000 yards
were able to judge of the extent of the
destruction by the enormous sheets of
flame and columns of smoke which
shot up to a height of 500 yards.

The Austrians were unable during
the bombardment to extinguish any
fires started by the bombs but they
kept up a furious fire with their anti-
aircraft guns and thirty of their most
powerful searchlights threw a dazzling
light over the space where the Italians
were flying.

Notwithstanding, the latter cruised
over the city for nearly five hours and
escaped unhurt and victorious.

RIVALRY IN

THE CABINET

(Continued From Page 1.)

party, whose demand for representa-
tion in the imperial and Prussian cab-
inets for the Roman Catholic popula-
tion was recognized by the appoint-
ment of three Roman Catholics—
Spahn, Waldow and Kuehlmann.
With a revocation of the anti-Jesuit
and Polish expropriation laws, also
part of the centrist program, that
party is considered to have done very
well as a result of the parliamentary
crisis.

While the radical and socialist press
is dissatisfied at the absence of any
marked concession to parliamentarism
in the new cabinets and at the failure
to consult the reichstag in any way
on the appointments, newspapers of
the opposite camp are aggrieved at
the shelving of Dr. Bezler, Prussian
minister of justice; Count Loebell,
Prussian minister of the interior; and
Baron von Schölerer, Prussian min-
ister of agriculture and other stand-
patters on Prussian franchise reform.

Not Much Entitled.

The Tages Zeitung shows its dis-
satisfaction in a short, cool, non-com-
mital paragraph of greeting to the
new administration and by giving far
more space to sketches of the depart-
ing statesmen than the principles of
the new appointees. Herr Zimmer-
mann, ex-foreign secretary, in an article
in the Lokai Anzeiger, scolds Dr.
Michaelis for petting those who tried
and trusty officials in favor of politi-
cal novices of untried worth.

The Vossische Zeitung severely criti-
cizes the appointment of Dr. Helfferich
and Dr. von Kuehlmann on the ground
that both favor the rapprochement of
England and not of Russia as a basis
of post bellum policy. It says Dr.
Helfferich was Dr. von Bethmann's evil
genius in foreign affairs, who first de-
layed unrestricted submarine operations
by getting out statistics and then dis-
credited it by impossible predictions.

Upholds Kuehlmann.
Theodor Wolff, editor of the Tageblatt,
scolds at all the appointments except
that of Dr. von Kuehlmann, whom he ad-
vises to use his elbows vigorously to
gain room to run his own department
and prevent intrusion by Dr. Helfferich.

The Lokai Anzeiger also advises a
firm policy and holds out as an enticement
the glittering opportunity of lead-
ing the premier military power of the
world to that just and permanent peace
which will be as great a victory for
Germany on the diplomatic field as that of
Hindenburg on the field of war.

The Anzeiger's adoption of the phrase,
"peace by understanding," does not imply
any change of heart in the paper which
is committed absolutely to a powerful
pan-German peace.

AMERICANS

LEARN GAS

Continued From Page 1.)

countered in the front line trenches.
It is a most important branch of
the modern training of a soldier that
he should be convinced that there are
many methods of effectively dealing
with the deadliest terrors of latter day
warfare; that careless, slovenly and
unheeding soldiers are the ones first to
succumb.

Can Escape Liquid Fire.

It is even demonstrated to the sol-
diers that the terrifying liquid fire can
be avoided except in most extraordi-
nary circumstances, such as being
caught in a tunnel or dugout with the
enemy in a position that he can pour
flames through the entrance.

In training the Americans regarding
the gas, greatest weight is to be laid
on demonstrating to each man the
value of his protective appliance and
seeing that he is fully instructed in its
proper use. He will be made to real-
ize, however, that only by skillful and
rapid adjustment can protection be
assured and that it shall be a daily
task with him to see that his appliance
is in good condition. It must be as-
sured for otherwise the gas pene-
trates through every small hole and
attacks the eyes and mouth so that in
a short time the man is put out of ac-
tion.

Lectures on Gas Warfare.

Lectures on gas warfare have been arranged
first for the officers, then for the men.
For in gas training officers have to go
through identical drills and experi-
ences. Ten seconds will be the out-
side limit allowed for the adjustment
of helmets after the gas alarm has
been sounded. The increasing use of
gas shells, even from the longest range
guns makes the carrying of masks far
back of the line an imperative mili-
tary necessity. The first traces of gas
poisoning are a hot mouth and irrita-
tion of the throat. Despite fact that the
allies have so often proved to the
contrary and the terrible deaths
allied soldiers died when this hideous
mode of warfare was first sprung upon
unexpected foes by the high com-
mand of German army, private sol-
diers and Germans say the gases are
so-called "smelling substances and are
not poisonous."

The substances they assert, exert
stupefying action and after long ex-
posure have an asphyxiating effect.
Under their influence vision is affected.
A man subjected to it is forced to
close his eyes in a few seconds and
can observe nothing. Germans nativ-
ly admit, however, that "it is impos-
sible to remain in these gases without
protection." The exact name of the
composition of practically all the Ger-
man gases is known to the allies and
the Americans are obtaining imme-
diately the full results and benefits of
all this laborious and dangerous work.

SUMMARY OF THE

DAY'S WAR NEWS

(Continued From Page 1.)

came apparent today in the announce-
ment of the opening of a Teutonic
offensive in the Polishian region, near
the point where the line turns south-
eastward towards the Danube. Petro-
grad conceded a retirement here and
Berlin announces the storming of Rus-
sian positions north of Koksani, with
the taking of 1,300 prisoners and thirty
guns.

In Flanders the infantry has con-
tinued inactive, but the total silence of
the British report on conditions there
similar to that preserved while the
great bombardment which preceded
the initial attack was impending, coupled
with the reports of greatly in-
creased air activity, seems indicative
of a probable early renewal of the en-
tire offensive. The French report,
indeed, speaks of "fairly violent" ar-
tillery fighting in Belgium, notably in
the Bixchoote sector.

The steady closing in of the Cana-
dian lines about Lens also gives the im-
pression that the time is not far dis-
tant when the effort to give the final
touch to the process of expelling the
Germans from that coal city will be
launched.

In the Champagne the French are
carrying out important raiding opera-
tions and last night penetrated the
German lines at three points, bringing
back prisoners. General Petain's ar-
tillery broke up a spirited attack by
the crown prince in the Verdun region,
between Avocourt wood and hill 304,
inflicting severe losses.

form action on coal prices.

INDIAN AIS WATCHING.

Indianapolis, Ind., Aug. 7.—Indiana
state officials are known to have been
watching with much interest today's
meeting of the Illinois state council of
defense, at which the coal question
was discussed. The same officials
have known for several days that a
joint conference of governors is being
arranged, they said, the purpose of the
conference being to decide on some
concerted action to get more reason-
able coal prices.

Although Governor Goodrich has re-
fused to discuss his recent conference
with Governor Lowden, of Illinois, at
Chicago, it has become known they
reached some kind of an agreement
on a proposed course of action and it
is believed among the things they dis-
cussed was state control of the coal
situation. There have been repeated
rumors of a special session of the
Indiana legislature to deal with the
conditions, but as yet no announce-
ment has been made as to the prob-
able date of such a session if one is called.

They will start about September 1 and
return in December. The delegation
will represent all parties.

ASTHMA FATAL TO

WILHELMINA E. HAHN

Well Known Woman Dies at
Daughter's Home on
Winter Street.

Wilhelmina E. Hahn, age 53 years,
died at the home of her daughter, 1315
Winter street, Tuesday morning at 11
o'clock. Death was due to asthma,
and followed an illness of fourteen
months. The deceased was a member
of the St. Mary's Catholic church. She
was born in Ohio, but had lived in Fort
Wayne most of her life. She was the
wife of John Hahn.

Surviving relatives, besides the hus-
band are three daughters, Mrs. John
Nern, Mrs. C. H. Stendhall and Mrs.
Alvin Geismann; three sons, Joseph
Hahn, Henry Hahn and George Hahn;
two brothers, Andrew Bopp, of Illi-
nois, and Peter Bopp, of this city, and
a sister, Mrs. Frank Lehman. Fifteen
grandchildren and one great grand-
child also survive.

SCHILLING.

Mrs. Selma Schilling, age 41 years,
wife of Adolph Schilling, a well-
known gardener, died at her home on
the Bluffton road, Monday evening.
The deceased had been a resident of
Fort Wayne all her life. She had been
an invalid for twelve months. She
was a member of the Zion Lutheran
church. Surviving relatives, besides
the husband, are four children, Grace,
Katherine, Pauline and Adolph, Jr.,
and one brother, John Goehring.

Funeral services Wednesday after-
noon from the residence at 1:30
o'clock and from the Zion Lutheran
church at 2:15. Auto funeral. Serv-
ices in English by Rev. Philip
Wambagans and in German by Rev.
Luehr.

KOHLMEYER.
Christian Kohlmeyer, age 42 years,
died at his home, 2503 South Wayne
avenue, Monday evening. Death came
after an illness of several months. The
deceased was born in Germany but
came to this country at an early age.
He was a cigar-maker by trade, and
was employed at the Bayer cigar fac-
tory, until illness prevented him from
working. He was a member of the
Emmanuel Lutheran church, the B. U.
V., and the cigar makers' union. Sur-
viving relatives are the wife, the par-
ents, Mr. and Mrs. E. Kohlmeyer,
three brothers, George, Henry and
John, three sisters, Mrs. H. Simm-
mer, of this city; Mrs. Henry Bieder-
man, of Chattanooga, Tenn., and Miss
Louise Kohlmeyer, of this city.

Funeral services Thursday after-
noon at 2:30 o'clock from the Em-
manuel Lutheran church. Interment in
Concordia cemetery.

CHRISTIE.

Mrs. Minnie Christie, age 66
years, died at the home of her daugh-
ter, Mrs. D. I. Blood, 730 Home ave-
nue, Monday night at 11:55 o'clock.
Death was due to paralysis and fol-
lowed an illness of four years. The
deceased was the wife of John E.
Christie. She was born in this
county, May 11, 1851, and had resided
here all her life. She was a mem-
ber of the Redemptorist church. Sur-
viving relatives are the husband, one
brother, Fred Eigenberg, four chil-
dren, Mrs. R. C. Knoll, Mrs. D. I.
Blood, John H. Christie and Wil-
liam T. Christie, all of this city. Two
grandchildren, Franklin and Ruth
Knoll, also survive.

Funeral services Thursday after-
noon at 2 o'clock at the home of the
daughter, Mrs. D. I. Blood, 730 Home
avenue. Interment in Lindenwood
cemetery.

FUNERAL ANNOUNCEMENTS.

Crouse.—Funeral services for Jesse

Crouse will be held Thursday morning
at 9 o'clock, standard time, 10 o'clock
eastern time, at the home of the
daughter, Mrs. Frank Oser, west of
the city, Rev. Wright officiating. In-
terment in Lindenwood. Auto fun-
eral. Omit flowers.

Cook.—Funeral services for John H.
Cook will be held Thursday after-
noon at 1 o'clock, standard time, at
the residence, followed by services at
the Wallen M. E. church. Interment
in the Hatfield cemetery. Auto fu-
neral.

Mills.—Funeral services for Homer
L. Mills will be held Wednesday morn-
ing at 10 o'clock at the residence, 3810
Fairfield avenue, Rev. Tunison offi-
ciating. Interment at Lindenwood.

Hold Services at Grave.
The Lawton-Wayne post, G. A. R.,
will hold services Thursday morning
at 10:30 o'clock at the grave of Jesse
Crouse, at Lindenwood cemetery. All
members are asked to be present.

ANOTHER SHIFT

BY BRITAIN IN

THE ADMIRALTY

London, Aug. 6.—(Delayed.)—Offi-
cial announcement was made at the
admiralty tonight that Admiral Sir
Cecil Burney, second sea lord, had
been replaced by Vice Admiral Sir
Roselynn Weymes. Allan Garrett An-
derson, hitherto vice chairman of that
commission, succeeds Sir Eric Camp-
bell Geddes, the new first lord of the
admiralty, as controller of naval con-
struction.

PROFITS OF EXPRESS

ARE STILL SLUMPING

Washington, Aug. 7.—Continued de-
crease in profits of express companies is
shown in statistics covering operations
for April. Operating income for all com-
panies for April was \$480,950, a falling
off of more than 60 per cent from the
figures of April, 1916. This showing was
made in the face of increase gross re-
venues of approximately \$2,600,000. The
total for last April reached \$15,322,708.
An increase of approximately 30 per cent
in operating expenses within the year, or
from \$7,000,000 to nearly \$9,000,000, ac-
counts for the reduction in profits. Only
two companies, the Northern and South-
ern, show increases in profits for the last
April over April, 1916. One company,
the Adams, operated at a deficit.

GIVE BOYS ROOM.

Automobiles must not be parked in
front of the Utility building, police
have ordered at the request of Mayor
Hoey. The space is needed for the
young men of the signal corps, who
have made the lower floor of the build-
ing their headquarters, for drill prac-
tice. "No Parking" signs have been
put in front of the building.

WANTS HIS ARMY "BRITCHES."

Princeton, Ind., Aug. 7.—Among the
men accepted here for the draft board
is George Lane, colored. Lane, after
he had been assured that he was
physically fit for the army, became ju-
lar and inquired: "Now, boss, when
does I get my new britches?" The fill-
ing of this (Gibson) county's quota of
282 men probably will be completed
tomorrow.

ROBE AGAINST ELECTRIC.

Robert Rogers, aged 14, was wound-
ed about the head and his leg badly
bruised when he rode his bicycle
against an electric automobile, on
Broadway Monday evening. The youth
was holding to the side of an auto-
mobile, driven by Jack Liek, Greeley
street. The automobile passed near
the electric car and the lad was knock-
ed from his wheel.

THE MARKETS

GENERAL RAINS HAVE BEARISH INFLUENCE

Corn Prices Lower on Re-
ported Benefit to the
Growing Crop.

Chicago, Aug. 7.—General rains
gave the bears an advantage today in
the corn market.

Opening prices which ranged from
1/2 to 1/4 lower, with December at
\$1.16 to \$1.16 1/2, and May at \$1.13 to
\$1.13 1/2, were followed by a slight set-
back, and then a reaction to a little
above yesterday's finish.

Increased arrivals of new wheat had
a bearish effect on that cereal. After
opening unchanged to \$2.25 for Septem-
ber, the market reacted to \$2.24 1/2.

Oats were depressed by forecasts
that the government crop report would
show that 500,000,000 bushel more
were in prospect this season than was
the case a year ago.

Provisions ascended with hogs, but
the bulge brought about much realiz-
ing and the gains were not held.

LOCAL MARKETS

NEW CORN APPEARS ON LOCAL MARKET

**"Roasting Ears" Selling at
25c Per Dozen—Old
Corn Drops.**

One feature of the retail street market in Fort Wayne this morning was the appearance of new corn, "roasting ears," which were being sold on the retail market on Barr street at 25 cents per dozen.

Receipts at the city scales Tuesday morning were extremely light, only ten loads being weighed in all. Of these, four were new hay, which sold for \$10 to \$12 per ton. This was an increase of \$1 per ton over both the minimum and maximum prices of the day before. No old hay was received Tuesday. Two loads of corn, were weighed, the price again receding to the \$2 mark, after the increase of the day before to \$2.10. Four loads of oats sold for 73 and 76 cents per bushel.

**NOT CALCULATING
ON PAYING FINE**

**Aged Woman Admits She is
Unprepared for Court
Penalty.**

Lizzie Morris, past 60 and hard of hearing, took part in a boisterous carousal Monday evening in a tumble-down shack at the intersection of Ewing street and the Nickel Plate railroad. She admitted having several drinks and to arguing about some money which she suspected had been taken from her, when she was arraigned on a disorderly conduct charge in police court Tuesday morning.

"How much money have you?" fairly shouted Judge H. W. Kerr into the funnel receiving instrument which the woman formed by holding her hand to her right ear.

"That is not enough to pay your fine," called the judge.
"I wasn't calculatin' on payin' no fine," replied the woman.
Judge Kerr affixed a penalty of \$1 and costs, which will amount to \$11.

"Next time there is a row at that house we will send down and get all you folks and the furniture," screamed the judge into Mrs. Morris' ear.
"You won't find much furniture," smiled the defendant.

Mrs. Thomas Smith, who has been in court many times and who was a part of the rowdy party, was fined \$10 and costs. Is Going Back.

Jake Long, colored, won his case because his paramour, Daisy Long, is missing from the city. Daisy and Jake had a turbulent misunderstanding on Sunday morning and police were called. Jake was taken on an assault and battery charge and Daisy was held under bond as a witness. The woman jumped her bond.

City Physicians Explain Why They Prescribe Nuxated Iron

To Make Beautiful, Healthy Women and Strong Vigorous Men

NOW BEING USED BY OVER THREE MILLION PEOPLE ANNUALLY.

Quickly Transforms the flabby flesh, toneless tissues, and pallid cheeks of weak, anemic men and women into a perfect glow of health and beauty—Often increases the strength of delicate, nervous, run-down folks 100 per cent in two weeks' time.

New York, N. Y.—It is conservatively estimated that over three million people annually in this country alone are taking Nuxated Iron. Such astonishing results have been reported from its use both by doctors and laymen, that a number of physicians in various parts of the country have been asked to explain why they prescribe it so extensively, and why it apparently produces so much better results than were obtained from the old forms of iron.

Extracts from some of the letters received are given below:

Dr. Ferdinand King, a New York physician and Medical Author, says: "There can be no vigorous iron men without iron. Pallor means anemia. Anemia means iron deficiency. The skin of anemic men and women is pale. The flesh flabby. The muscles lack tone, the brain fags and the memory fails and they often become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks. In the most common foods of America, the starches, sugars, table syrups, sodas, crackers, biscuits, macaroni, spaghetti, tapoca, ugo, farina, degenerated cornmeal, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these impoverished foods, and silly methods of home cooking, by throwing down the waste-pipe the water in which our vegetables are cooked are responsible for another grave iron loss."

Therefore, if you wish to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron just as you would use salt when your food has not enough salt.

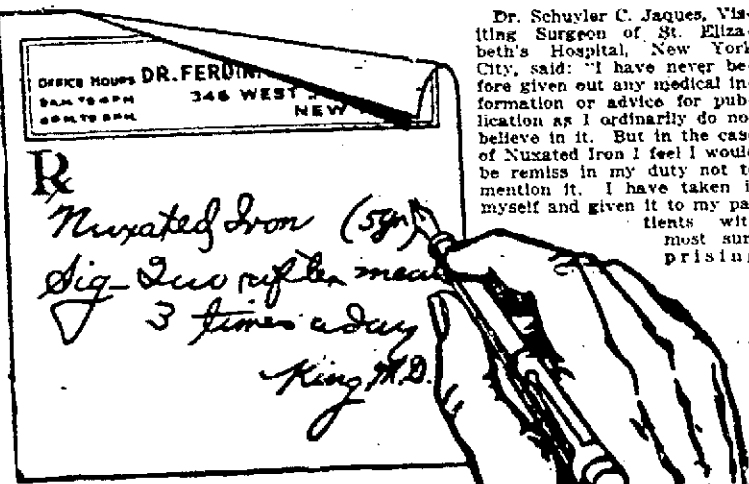

Dr. A. J. Newman, late Police Surgeon of the City of Chicago and former House Surgeon, Jefferson Park Hospital, Chicago, in commenting on Nuxated Iron, says: "It has been my particular duty during the past five years to assist in keeping Chicago's five thousand blue-coats in good health and perfect fighting trim so that they would be physically equipped to withstand all manner of storms and the ravages of nature's elements."

Recently I was prompted through an endorsement of Nuxated Iron by Dr. Schuyler C. Jacques, Visiting Surgeon of St. Elizabeth's Hospital, New York, to give it a trial. This remedy has proven itself by my own tests of it to excel any preparation I have ever used for creating red blood, building up the nerves, strengthening the muscles and correcting all iron deficiencies."

Dr. E. Sauer, a Boston physician who has studied widely both in this country and in great European Medical Institutions, says: "As I have said a hundred times over, organic iron is the greatest of all strength builders. If people would only take Nuxated Iron when they feel weak or run-down, instead of dosing themselves with habit-forming drugs, stimulants and alcoholic beverages I am convinced that in this way they could ward off disease, preventing it becoming organic in the nature of the case and thereby saving the lives of thousands might be saved who now die every year from pneumonia, grippe, kidney, liver, heart trouble and other dangerous maladies. The diseases which started when the blood was weakened condition brought on by lack of iron in the blood."

Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man; in fact a young man he really was notwithstanding his age. The secret, he said, was taking iron—Nuxated Iron had filled him with renewed life. At 30 he was in bad health; at 40 he was a nervous wreck, and at 50, after taking Nuxated Iron, a miracle of vitality and his face beaming with the buoyancy of youth.

Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much you eat, your food merely passes through you without doing you any good, and as a consequence you become weak, pale and sickly-looking. Just like a plant trying to grow in a soil deficient in iron. If you are not strong or well you owe it to yourself to make the following test: see how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. I have known dozens of nervous, run-down people who were all the while doubling their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or tincture of iron simply to save a few cents. The iron demanded by Mother Nature for the coloring matter in the blood of her children is, alas! not that kind of iron. You must take iron in a form that can be easily absorbed and assimilated. To do this without obtaining any benefit, worse than useless. Many an athlete and prize-fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the arena; while many another has gone down in ignominious defeat simply for lack of iron in the blood."

RED CROSS MEMBERS WILL HOLD MEETING

One Hundred and Five Have Joined Organization at Spencerville.

(Special to The Sentinel.)
Spencerville, Ind., Aug. 7.—A Red Cross meeting will be held on next Friday afternoon from 1 to 5 in the Rummell building on Main street. All members and those that wish to assist are asked to be present with their needles, needles and scissors at this time. There are 105 paid-up members belonging to the Red Cross society in this vicinity.

Spencerville Short Notes.

Mr. and Mrs. William Erick and son, Beeks, and the Misses Mary and Violet Tyndall motored to Fort Wayne on Sunday to bid good-bye to Howard Pervines, a member of Battery B, at Fort Wayne, who left for Fort Benjamin Harrison on Sunday.

The Women's Home Missionary society of the M. E. church will be entertained at the home of Mrs. Elmer Smith, east of town, on Wednesday afternoon.

Rev. William Rummell, of Weeping Water, Neb., came Thursday to spend his vacation with his mother, Mrs. Nancy Rummell, and sister, Mrs. Louie Beam and husband.

Mr. and Mrs. Charles Scott left Sunday to spend a few days with Mr. and Mrs. Clem Treese and family, of Fort Wayne.

Mr. and Mrs. Harvey Beam, Mrs. Nancy Rummell and Rev. William Rummell, of Nebraska, were Sunday dinner guests of the latter's aunt, Mrs. William Lucas and husband, of Railroad street.

Mr. and Mrs. J. E. Emmie and two children, Richard and Mary Louise, Mr. and Mrs. Lloyd Wade and three children, Mr. and Mrs. Robert Beams and son, Glenn, and Mrs. Princess Recental picked up at Shirley Grove on Sunday, taking their dinner and spending the day.

Mr. and Mrs. Golden Benninghoff, who have been visiting their parents the past week, accompanied them on Sunday evening to Fort Wayne, where Mr. and Mrs. John Benninghoff will spend a few days visiting their children.

Many from here attended Patriotic Day at Robison park on Sunday.

NOTE—Nuxated Iron, which is prescribed and recommended above by physicians in such a great variety of cases, is not a patent medicine nor secret remedy, but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians both in Europe and America. Unlike the older inorganic iron products it is easily assimilated, does not irritate the stomach, make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion as well as for nervous conditions. The manufacturers have such great confidence in Nuxated Iron, that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron, and increase their strength 100 per cent or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by all good druggists. Dealer Drug Co., Meyer Drug Co., Geo. F. Miller, Family Drug Store.

Mrs. L. Broughton was the guest of friends in Wolcottville Sunday.

Rev. Charles A. Stevens, of Flanagan, Ill., a former resident of Kendallville, was the guest of G. P. Alexander over Sunday. He delivered a fine sermon at the Church of Christ Sunday morning.

Mr. and Mrs. A. R. Otis and son, Warren, Miss Etta Williams and Miss Evelyn Gappinger are at Sagatuck, Mich., for a two weeks' outing.

MR. BEADELL IN THE CITY.

Henry Beadell, formerly head of the People's store, is down from Walloon Lake, in northern Michigan, for a day or two on business. He is tanned to the hue of an Indian and looks fit for leading another campaign for Y. M. C. A., Red Cross or any other kind of patriotic fund.

PITCHER HAS ENLISTED.

Philadelphia, Aug. 7.—Pitcher Jim Scott, of the White Sox, took the physical examination for the officers reserve corps at an army recruiting station here today and if he passes he will report at the Presidio, California, August 27.

FOUR-YEAR-OLD GIRL STRUCK BY AN AUTO

Elanor Baldwin Suffers a Broken Hip Joint in an Accident on Spy Run.

Pager to see her mother, little four-year-old Elanor Baldwin, daughter of Mr. and Mrs. L. J. Baldwin, of 1316 Spy Run avenue, jerked away from her father when they alighted from a street car at Spy Run avenue and Wagner street at 8:10 o'clock Monday night, ran around the rear of the car into the path of an automobile driven by James Keller, a farmer residing near Auburn.

The little girl was struck by the slowly moving machine and thrown to the pavement, suffering a broken hip joint. She also was bruised about the head.

The father picked up his injured daughter and carried her to the home. The mother was beside herself with grief and scores of neighbors flocked to the home. The attending physician ordered her removed to St. Joseph's hospital.

Mr. Keller stopped his car and went to the Baldwin home and later he reported the accident to the police. He again returned to the Baldwin home. In the machine with Mr. Keller were his wife and Mr. and Mrs. Louis Piper, of Coshocton, O.

Our store will be closed all day tomorrow, Wednesday, to make preparation for our great Half Price Sale, which will start Thursday morning at 8 o'clock.

AMONITORY BOMB.

The Illinois council of defense exploded a bomb under the coal operators when it delivered an ultimatum to the mine barons asserting the power of the state to seize the mines within its jurisdiction. The price of coal is felt to be too high, the profits of the operators too great, the burdens upon the consumer too heavy, the handicap to industry too severe and the general bad effect of ruthlessness too costly to the people of the commonwealth to be tolerated. It therefore is the judgment of the council that forthwith these conditions should be met or be ended.

The law committee of the council harbors no doubt of the state's authority under the constitution to seize and operate the mines for the public benefit. The council itself believes this should be done if relief from profiteering and extortion can be had in no other way. There is no purpose to proceed to an immediate seizure. The operators are to have fair chance to get right. The ultimatum is merely a monitory bomb set off to entangle the attention of the coal barons of Illinois to the right of eminent domain resident in the supreme authority of the state and people. If they heed it, very well; if they do not heed it, so much the worse for them. Other states are to be solicited to join with Illinois in the consideration of these stiff measures of justice for the people and defense of the nation in order that there may be uniform action and that what Illinois may do for herself shall not operate to unjust disadvantage or unfair gain anywhere and that the strength of united action in a broad field may be had.

What Illinois proclaims its right to do and makes threat to execute is precisely what Governor Goodrich and the state council of defense in Indiana have had under consideration as the best means to improve conditions that the Indiana public service commission some weeks ago described as "outrageous." Governor Goodrich has indicated more than once that he will not hesitate to summon the legislature of the state to a special session to deal with the situation if no other way can be found for insuring the proper operation of the Indiana mines and the sale of coal at fair prices. So there is likely to be no reluctance on the part of the Indiana authorities and the state council of defense to join with Illinois and fourteen other states in the conference called for August 16 in Chicago to discuss joint action.

We believe that if they peer into this thing with a true desire to see what it may contain of interest to the coal operators of this and other states will discern the danger it holds for them. They will perhaps discern more than mere danger to the privileges of extortion. They will see certain signs of public temper and impatience. They will behold in the earlier processes of formation a new principle of public relation to natural resources. In short they will discover that the old and frightening radicalism of naturalization of coal mines and mining lands has ceased to be the horrific thing it once was to the public mind and that the people of the country have need of not above one more winter like the last—such a winter as that coming gives full promise of being if the coal barons go on unmolested—to provoke a general cry against them and a loud and angry demand for government ownership and control of the nation's fuel resources.

The Illinois operators doubtfully announce that they will fight. No doubt they will. But they will not for any great length of days openly fight the people of their state any more than their fellow robber barons in the other coal states and all of them together will for any great length of days fight the people of the nation. It probably has been lost sight of, but the fact remains that the rights of the people are still fundamental in the structure of this government. It is not always easy to assert those rights and it not always is possible

to get the people to attempt it; but we believe that the mass of the people is rapidly becoming of one mind at least about the outrages they suffer in the price of coal and of one opinion as to the best way to redress themselves.

We somehow have a bit of confidence that the forthcoming conference in Chicago will have results. We believe the Illinois state council of defense has "started something" that with the aid of other states can be finished.

IS NOT MILITARY SERVICE.

There appears to be here and there some misgiving that the Boys' National Reserve, now to be organized under auspices of the federal government, are to be employed in military service. This is not true. Those who spread that view of it are either guilty of falsehood or under gross error. Nothing is more remote from the purpose of organizing this reserve than to exact military service of it. It has been reported that in parts of Indiana there has been a good deal of diligence by persons to warn boys and their parents that the government wants these youngsters for military duty and in consequence a lot of wholly useless and entirely gratuitous anxiety and indignation have been bestowed upon the movement.

Parents may take every assurance that nothing of the sort is intended as a part of the program of national service designed for the Boys' Reserve. They are to be employed at labor of one sort and another that is indispensable to the country and that will be remunerative to the boys who perform it. A great many of the boys will be given work on farms to make up a shortage of agricultural labor that has been persistent for a good while and that will be aggravated to some extent by the going of young men from the country into the armies. For boys not suited to farm work tasks to which they are better adapted will be found. Whatever it may be that is found for the boys to do will do them good, pay them fairly and will not be military service. Every parent should get that fact fixed clearly in his mind. When the boys of the reserve are old enough to enlist or of age to come within the limits of the compulsory service law military duty will fall upon them as it does upon the young men their seniors now.

The Boys' Reserve is to be an army of workers. They will be in the service of their country and it will be to the highest degree a patriotic service of which each lad thus answering the call to the colors may be proud. The youth of America can render a mighty service to the nation and there will be no holding back by the boys of 16 to 20 who now are to help to do the work that older men who must do the nation's fighting have been compelled to leave undone.

This will be a national service but it will not be a military service. Those who busy themselves to spread such an idea among the people are giving currency to a lie for sinister purposes.

LET THEM EXPLAIN.

In some form or another the food control law will soon be a law. It will not be the effectual measure it was designed to be at the outset by those who framed it and sponsored it, but it will be better than nothing at all.

The measure comes to hand so tardily as to have missed much of the opportunity for doing good. It should have been in operation not later than the first of July. It might very well have been in operation a fortnight earlier than that and still more greatly to the general benefit. That it was not made the law in good season has been due to certain attorneys-at-law and Kaiser reservists in the congress of the United States.

The representatives of big interests—food speculators and booze-makers—have been conspicuously and vigilantly on their jobs in looking out for their own. They have delayed the food control bill for many weeks—most needlessly and, so far as their interests are concerned, most uselessly. They have not prevented a food bill, though they have given their interests some days of grace and have penalized the people and have handicapped the national government in war.

Those senators who have lent themselves to other interests than the national interests should be marked and watched.

The trouble with Big Bill Thompson is that, as he is, he doesn't do anything that will permit the city of Chicago to disconnect him from the mayoralty—that is without violence of an unseemly and perhaps illegal if not unjustifiable sort.

The National Boys' Reserve is an idea worth while—both for the country and the boys. No lad will get else than good from the sense of rendering patriotic service and training in work is good for all.

The latest nation to declare war is Liberia. Liberians probably want a chance to get away from Liberia.

If Illinois can grab the coal mines, so too can Indiana.

With shaded homage to the skies,
The leafy magic of pale flowers
Springs up to touch the flowing hours.

I see a sunbeam laugh and stir,
And, flashing out all princelier

Drink dead the dew, then sink again.

And small, green things lie planted here,
That the Father has made richer

"Come Along Dad"

**WHAT OF THE ALIEN?
HOW SHALL HE DO WAR
DUTY FOR UNCLE SAM**

(By MILTON BRONNER.)

While we are drafting natives and naturalized Americans for our armies, are over 1,300,000 aliens of draft age, enjoying all the liberties and privileges of this country, to go scot-free of war duties?

This question, among the knottiest of the war, is constantly being fired at the president, the war and state departments and the congress, and is still far from solution.

When it tackles the subject, the government has to recognize that international law protects this alien from military duty and also that there are three kinds of aliens:

1. Natives of countries at war with Germany.
2. Natives of Germany or allied countries.
3. Natives of neutral countries.

So far only one affirmative action has been taken. A resolution by Senator McCumber of North Dakota, has been adopted directing the president to negotiate with European nations at war against the central powers, to draft their alien citizens in this country for our armies.

The president and state department both favored this resolution, applying to natives of Great Britain, France, Italy, Russia, Serbia, Belgium, Rumania and Portugal.

It would effect the French-Canadians and Portuguese so numerous in New England, and about 400,000 able-bodied Italians. It would not apply to Poles, Bohemians, Croats, Jugoslavs, etc., numerous in Ohio, Pennsylvania and the middle west. They are subjects of Austria-Hungary. If drafted in our armies and captured, they might be subjected to the death penalty as traitors.

Similarly the McCumber resolution does not apply to aliens from Norway, Sweden, Denmark, Holland, Spain and Switzerland. The Scandinavians are especially numerous in the northwest. Their countries are neutral, and it violates international law to force them out of their neutrality.

Senator Chamberlain, military attaché, intends to push his own joint resolution, aimed to reach a larger class than the McCumber resolution. Chamberlain proposes to take citizens of our allies and of the neutrals, and even to use aliens from enemy countries.

His resolution flatly provides that all aliens resident in this country more than a year shall be subject to draft provided they are not subjects of an enemy country, or unless their native land has a specific treaty exempting them. But if the diplomatic representative of the country waives the exemption, the alien cannot claim it unless he leaves the country within 90 days.

To show the difference between the McCumber and Chamberlain resolutions, Italy has a treaty exempting its natives from compulsory military service here. Under the McCumber resolution the state department is seeking Italy's consent to draft naturalized Italians. Under the Chamberlain resolution these Italians would be exempt unless the Italian ambassador told us to go ahead.

Furthermore the Chamberlain measure would affect all the Scandinavians and Dutch because their countries have no specific exemption treaties.

It also provides subjects of any enemy country shall be classified, and specific classes, not deemed suitable for military service, may, under order

DO IT CHEERFULLY

(Detroit News).

No nation or people or individual ever made a better investment than this nation will make right now by investing large amounts of money in preparation for war, now that we are in the war.

You never know exactly how an investment will turn out, but it is as certain as any human effort can be made certain that money invested in munitions now will be paid back in human lives later.

The English-French allies and the German-Austrian allies were about evenly matched when the war began three years ago, and are about evenly matched now. Three years ago each side was made up of nations composed of the natural quota of strong, healthy, able-bodied men. That they were about evenly divided is shown by the fact that as soon as the French and English were able to get their armies together they were strong enough to stop the German onrush toward Paris, but that the German-Austrian forces were equally strong is shown by the fact that the English-French allies were not able to drive them back to their own border. Russia helping some by drawing part of the German forces to the eastern border.

Now is shown by the fact that neither side can scarcely make a dent in the other's lines. Shells are fired, charges made, millions killed in the course of a year, and when it is all over the lines of trenches are very close to where they were in the beginning.

It is into this conflict that America has entered to bring peace, either with or without a fight to a finish.

Nothing is now more likely to bring the peace without the fight to a finish than to be ready to make it a fight to a finish.

We need not try to fool ourselves into thinking that the Germans do not know what we are doing. They do, and they know just how far and how efficient our preparation is.

They must know that with America adding her strength and resources to the nations that have proved an even match for the German forces for three years leaves only one eventual result in the issue, and that disastrous to Germany.

Nothing will now do more to bring Ger-

W. M. Slater will represent the Fort Wayne letter carriers at the meeting of the National Association of Letter Carriers, which meets in Indianapolis August 23, 24 and 25.

Drs. and Mrs. S. B. Brown and H. C. Sites and Drs. S. B. Hartman, W. E. Weissel and J. S. McCurdy are returning from Niagara Falls, N. Y., where the doctors have been in attendance upon the meeting of the American Dental association.

Clark, the 2-year-old son of A. Kenton Clark, of 121 East Main street, swallowed the contents of a bottle of poison Saturday and fell in a convulsive faint. Dr. A. J. Boswell was called and at the time he arrived the child was apparently dying. Emetics were prescribed and a stomach pump used to save the little fellow's life.

About 8 o'clock last evening the 15-year-old son of George Muezey, who resides opposite the Moellering drug store, was playing with a Florent gun, when the load was discharged, the ball entering a fleshly part of the hand, producing a painful wound. The lad's hand will be sore for a time but no serious result is likely. The wound was dressed by Dr. McCausland.

Polly Meyers, a 12-year-old girl, met with a painful accident at the residence of Mr. and Mrs. Louis Sauer, 186 Calhoun street, at noon today. Polly, whose mother is dead, makes her home with Mr. and Mrs. Charles Hoffman, at 133 Calhoun street. Shortly after 12 o'clock Mr. Sauer's grandson, who is doing the household work during the illness of Mrs. Sauer, called Polly over to assist him in washing the dinner dishes. While thus engaged the girl upset a large basin of hot water upon her arms and legs, scalding her legs badly.
